This brings the total number of undocumented returnees from Iran since 01 January 2018 to 599,128.

IOM provided post-arrival humanitarian assistance to **289 (4%)** undocumented Afghans deported from Iran at its Transit Centers in Nimroz and Herat, including 56 Unaccompanied Migrant Children (UMC), 22 Medical Cases (MC), 16 members of Single Parent Families (SP), 5 Physically Disabled (PD), 13 Special Cases (SC), 6 member of Poor Families (PF), and 7 Unaccompanied Elderly (UE).

## New, Drought-Affected Arrival IDPs in September 2018

In response to critical levels of internal displacement in Herat province caused by what is being described as the worst drought in Afghanistan in decades, IOM Afghanistan's Displacement Tracking Matrix (DTM) team is monitoring and registering inflows of newly arriving IDPs in Herat. The information collected was shared with humanitarian partners to expedite registration of the new IDPs for humanitarian assistance. Herat province has been severely impacted in terms of hosting drought-affected IDPs from neighboring provinces, most notably from Badghis. You can find the full situational update on DTM's drought response, covering the period between 09-28 September, in [English here](#) and in [Dari here](#).

## Situation Overview

Since 01 January 2018, IOM is responding to the return of over 60,000 undocumented Afghans from Pakistan and Iran. Undocumented returns from Iran in particular are seeing a massive increase of more than 200,000 to over 460,000 total between January-July 2018 versus 187,000 during the same time period in 2017, largely driven by recent political and economic issues in Iran including massive currency devaluation. As Afghans primarily work in the informal economy in Iran the demand for this type of work is drastically reduced. Further as all Afghans typically send home their earnings in the form of monthly remittances, the Afghan economy itself, already evident in the drought affected provinces of Herat, Badghis and Ghor, is suffering direct and immediate effects.
