IOM Yemen DTM’s Rapid Displacement Tracking (RDT) tool collects data on numbers of households forced to flee on a daily basis from their locations of origin or displacement, allowing for regular reporting of new displacements in terms of numbers, causes of displacement, geography and needs. It also tracks returnees who returned to their location of origin.

During the reporting period, between 07 and 13 November 2021, IOM Yemen DTM tracked 1,448 households (HH) (8,688 individuals) displaced at least once. Conflict was the main reason for displacement, accounting for 99 per cent (1,437 HH) of the total, followed by economic reasons, accounting for one per cent (11 HH). From 01 January to 13 November 2021, IOM Yemen DTM estimates that 19,894 households (119,364 individuals) have experienced displacement at least once.

Some 380 HH displaced in the previous reporting period, which covered 31 October - 06 November 2021, were only identified in the current period and so, this figure has been added to the cumulative displacement total recorded from the beginning of the year.

**DISPLACED HOUSEHOLDS BY LOCATION OF DISPLACEMENT AND DISTRICT OF ORIGIN**

**NUMBER OF IDP HHs DISPLACED PER WEEK**

**MAIN NEEDS OF IDP HHs DURING THE REPORTING PERIOD**

- **73%** Shelter/Housing
- **17%** Food
- **5%** Household Items (NFI)
- **3%** Financial Support
- **2%** Water, Sanitation and hygiene
