During the reporting period (24 to 30 November 2021), a total of 55 movements were recorded - 16 transits (3,322 individuals), 21 arrivals (603 individuals), 6 intended return movements (681 individuals), and 12 departures (576 individuals). The largest transits were recorded in Mueda (3,181 individuals) and Nangade (104 individuals). The largest arrivals were recorded in Nangade (337 individuals) and Mueda (217 individuals). The intended return movements were observed in Mueda (355 individuals) and Montepuez (132 individuals). The largest departures were recorded in Mueda (385 individuals) and Balama (165 individuals). Of the total population (5%) were displaced for the first time. An estimated 95 per cent of reported IDPs had been displaced more than once prior to this latest movement.

Of the total IDPs (5,182), 92% of the IDPs intend to return to their place of origin. 52% of the IDPs reported are children. An estimated 85% of reported IDPs had been displaced more than once prior to this latest movement.

An estimated 92% of the reported IDPs are living with the host community. Of the total IDPs (5,182), 47% of the IDPs intend to return to their place of origin. 52% of the IDPs reported are children. An estimated 85% of reported IDPs had been displaced more than once prior to this latest movement.

The largest movements recorded during the reporting period were as follows:

**Arrivals:**
- Nangade: 337 individuals
- Mueda: 217 individuals

**Returns:**
- Nangade: 337 individuals
- Mueda: 217 individuals

**Departures / Transits:**
- Mueda: 3,181 individuals
- Nangade: 104 individuals

**Main Reported Needs:**
- Food: 96%
- Shelter: 85%
- Water: 33%

**Main Districts of Origin:**
- Nangade: 47%
- Mueda: 45%
- Montepuez: 3%

**Means of Displacement:**
- Intended return: 62%
- To join with family: 18%
- Fear of attack: 9%
- Lack of food: 2%

ABOUT THE EMERGENCY TRACKING TOOL (ETT)

Due to the volume and fluidity of population movements in Cabo Delgado and Nampula, IOM’s Displacement Tracking Matrix (DTM) rolled out its Emergency Tracking Tool (ETT) methodology in key areas presenting rapid and important movements of populations, in order to ensure the tracking of population on the move and to identify areas of displacement and settlements, and support the identification of critical needs. Mapping displacement trends on a weekly basis complements the information obtained through other activities of the DTM data collection in the country.

The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements. Findings from the Emergency Tracking tool aim to provide support to the Government and the humanitarian community by disseminating data on IDPs for effective humanitarian response planning amongst affected populations.

Emergency tracking teams and enumerators are deployed to Ancuabe, Namuno, Balama, Chiure, Ibo, Mueda, Nangade, Montepuez, Meluco, Mecufi, and Cidade de Pemba districts to collect data on displacement movements on a daily basis. Due to recent attacks, the DTM team has temporarily stopped assessments in Macomia, Muidumbe, Palma and Mocimboa da Praia districts.
