In Q3 of 2021, a total of 49,092 of migrants and refugees were registered arriving through the three Mediterranean routes and the Western African Atlantic route to Europe, which is 55 per cent higher than the 31,563 arrivals registered in the same period in 2020, and 8 per cent more than the 45,308 registered in Q3 of 2019. Arrivals in Q3 of 2021 are 38 per cent higher compared to the previous reporting period (35,445 in Q2 2021).

More than half (53%) of all registered individuals in Q3 2021 arrived in Europe via the Central Mediterranean route to Italy and Malta (26,017). Around 31 per cent of arrivals were registered in Spain, through the Western Mediterranean and Western African Atlantic routes (15,130). The remaining 16 per cent travelled through the Eastern Mediterranean route to Greece, Cyprus and Bulgaria (7,945).

Compared to Q3 of last year, arrivals have increased in absolute numbers in all routes to Europe: +51 per cent of arrivals via the Central Mediterranean route (CMR), +44 per cent of arrivals via the Western Mediterranean (WMR) and Western African Atlantic routes (WAAR), and + 108 per cent of through the Eastern Mediterranean route (EMR) compared to the arrivals registered in Q3 of 2020.

According to available data from national authorities so far, Tunisia, Algeria, Morocco, Bangladesh and Egypt are the most frequently reported countries of origin among all registered arrivals to Europe, followed by many others from sub-Saharan Africa, North Africa and Asia.
Arrivals registered on the **Central Mediterranean route** (CMR) in the third quarter of 2021 by sea were 26,017, which is almost the double of the 13,299 arrivals of the previous quarter (Q2 2021), 51 per cent higher than the 17,239 arrivals in Q3 of 2020, and 4 times the arrivals registered in Q3 of 2019 (6,331). Main nationalities at arrival were Tunisia, Bangladesh, Egypt, Côte d’Ivoire. During the third quarter of 2021, 10,062 migrants were returned to Libya,¹ which is 7 per cent more than the 9,430 returned in Q2 of 2021. So far this year, at least 25,393 migrants were returned to Libya and another 19,408 were intercepted and disembarked in Tunisia by the Tunisian Coast Guard.² Additionally, at least 1,118 migrants perished while crossing the Central Mediterranean between January and September 2021.

Arrivals to **Spain** were **15,130 in Q3 2021**. This is 44 per cent more than the arrivals registered in Q3 of 2020 (10,499). Arrivals in the third quarter of 2021 are 5 per cent less than the double than those in Q2 of 2021 (15,948). More than half (55%) of the arrivals registered in Spain in this quarter was registered via sea through the **Western African Atlantic Route** (WAAR) to the Canary Islands, and 37 per cent were through the **Western Mediterranean route** (WMR) to mainland Spain and the Balearic Islands, and 28 per cent by land to the autonomous cities of Ceuta and Melilla. Main nationalities reported at arrival in Spain are Algeria, Morocco, Mali, Sudan and Guinea. In 2021 so far, at least **1,049 persons perished or disappeared at sea** while on their way to Spain. Of these, 786 died in the Atlantic Ocean while trying to reach the Canary Islands.³

Arrivals through the **Eastern Mediterranean route** (EMR) continue to be the lowest in the region in the third quarter of 2021, when 7,945 migrants and refugees were registered at arrival in Greece, Cyprus and Bulgaria. Yet, this is more than the double of the arrivals registered in the same period of 2020, and 27 per cent more than the arrivals in Q2 of 2021 (6,240). Afghanistan, Somalia and Iraq are the top three nationalities reported at arrivals in Greece since the beginning of the year.

On the same route, the **Turkish Coast Guard** (TCG) reported to have apprehended 7,298 persons in the third quarter of the year, while trying to cross the sea between Turkey and Greece irregularly. Interceptions by the TCG were 63 per cent higher than those in Q2 2021 (4,617). Total apprehensions in the Aegean in 2021 so far were 14,063.

Registrations of migrants intercepted by national authorities in the **Western Balkans**, in Serbia, Bosnia and Herzegovina, North Macedonia, Montenegro, Croatia, Slovenia, Romania and Kosovo² were 43,727 in Q3 of 2021, representing an increase of 38 per cent when compared with the previous quarter (31,690 in Q2 2021) and 1 per cent less than the transits and apprehensions registered in the same period last year (44,077). Afghanistan, Pakistan, and Bangladesh were the most frequently reported countries of origin through the Western Balkans between January and September 2021.

MIGRANT FLOWS MONITORING IN TURKEY

In the third quarter of 2021, a total of 7,298 irregular migrants were apprehended in the Aegean region by the Turkish Coast Guard (TCG). This is an increase by 63 per cent in comparison with the previous period (4,476 in Q2 2021) and by 71 per cent in comparison with the third quarter of 2020. A total of 14,063 irregular migrants were rescued by the TCG on the Aegean Sea in January and September 2021, which is about 10 per cent less than the 15,601 rescued in the first three quarters of 2020, and 63 per cent less than those rescued in the first half of 2019 (37,898). The top ten nationalities of apprehended/rescued persons in the Aegean this year so far are Afghanistan, Syrian Arab Republic, Somalia, Democratic Republic of Congo, Pakistan, Palestinian Territories.

According to the data from Turkish Armed Forces (TAF), a total of 25,508 irregular migrants were intercepted on entry by land to Turkey in the third quarter of 2021, mainly from the Syrian Arab Republic (95%), the Islamic Republic of Iran (4%), Greece (1.5%), Iraq (44 individuals). This is 11 per cent more than the number of apprehensions registered in Q2 of 2021 (22,945), and almost 4 times more than the 6,595 reported in Q3 2020.

According to the latest available data from the Turkish Directorate General of Migration Management (DGMM) there were over 4.9 million foreign nationals present in Turkey as of the end of September 2021, and 3.7 million of whom are seeking international protection. Most of them are Syrian nationals, followed by nationals of Afghanistan, the Islamic Republic of Iran, and Iraq.

INTERNAL DISPLACEMENT IN UKRAINE

According to the information from the Ministry of Social Policy (MoSP) of Ukraine, in July 2021 (last available data) there were 1,473,650 internally displaced persons (IDPs), that is individuals who have left their homes and moved to a different area and/or region of Ukraine. This represents a slight increase compared to the 1,464,628 reported in the previous reporting period (April 2021) and to the same period last year (1,446,881 at the end of April 2020). Data from the authorities includes returnees and commuters, as the entitlement to a pension for those residing in the Non-Government Controlled Areas (NGCA) is linked to the IDP status. Areas with the highest shares of IDPs located out of the NGCA included the city of Kyiv (166,309) and Kyiv Oblast (67,663), Kharkiv Oblast (136,816), Dnipropetrovsk Oblast (71,744) and Zaporizhya Oblast (56,660).

At the end of Q3 2021 an estimated 144,267 migrants, refugees and asylum seekers were residing in different facilities in Italy, Greece, Bosnia and Herzegovina, Serbia, Cyprus, Bulgaria, Romania, Croatia, Slovenia, Montenegro, North Macedonia, and Kosovo. No data is available on migrants’ reception in Spain. The migrant presence estimated at the end of Q3 2021 is slightly less than the 144,320 reported at the end of Q2 2021, and 23 per cent less than the 188,287 recorded at the end of Q3 2020. Italy and Greece report the largest shares of migrant presence overall (56% and 35% of the total, respectively).

The number of accommodated migrants and refugees in Greece decreased from an estimated 54,886 in Q2 of 2021 to an estimated 50,503 in Q3 of 2021 (-8%). Some 90 per cent were accommodated in various types of facilities on the mainland, while the remaining 10 per cent was accommodated on the islands. In Italy, the number of accommodated migrants and refugees has increased by 6 per cent between Q2 and Q3 of 2021 (from 76,152 to 80,408).

In Serbia, 5,016 migrants were staying in reception centres and unofficial sites as of the end of September 2021. In Bosnia and Herzegovina, 2,576 migrants were reported to be accommodated in 5 provisional and temporary reception centers at the end of Q3 2021, while another 1,101 were estimated by IOM to be outside reception in the country on 28 September 2021. Main nationalities reported were Afghanistan and Pakistan.

The remaining migrant presence in the region is scattered among many other locations of arrival and transit, ranging from the 2,945 in Bulgaria, the 1,251 in Cyprus to 48 in Kosovo.

Figures on occupancy of reception centers of any kind fluctuate daily, especially in countries considered by migrants as transit stops on their way to Western and Northern Europe.
According to the latest available data from the Turkish Directorate General of Migration Management (DGMM) there are more than 4.9 million foreign nationals present in Turkish territory, 3.7 million of whom are seeking international protection (IOM Turkey, Q3 2021 Monitoring Report).

Most are Syrians (3,715,913 individuals) who are granted temporary protection status. In addition, international protection applicants from countries including Afghanistan, the Islamic Republic of Iran and Iraq constitute another group of foreign nationals. Since June 2021 the number of Syrians residing in camps has decreased by 3,183.

In addition, there are 1,222,674 foreign nationals present in Turkey holding residency permits including humanitarian residence holders. The exact number of the humanitarian residence holders is unknown, but it is estimated that there are a few thousand humanitarian resident holders.

Most individuals live outside camps, mainly spread across cities at the Turkish border provinces of Şanlıurfa, Gaziantep, Hatay and Kilis as well as other major cities in Turkey. 52,179 Syrians live in seven Temporary Accommodation Centers (TACs) that are also located in the provinces close to the Syrian border, as well as in other major cities such as Hatay, Kilis, Osmaniye, Adana and Kahramanmaraş.

According to the data from Turkish Armed Forces (TAF), a total of 25,508 irregular migrants were intercepted on entry by land to Turkey in the third quarter of 2021, mainly from the Syrian Arab Republic (95%), the Islamic Republic of Iran (4%), Greece (1.5%), Iraq (44 individuals). This is 11 per cent more than the number of apprehensions registered in Q2 of 2021 (22,945), and almost 4 times more than the 6,595 reported in Q3 2020.

NEEDS MONITORING IN UKRAINE

According to the information from the Ministry of Social Policy (MoSP) of Ukraine, in July 2021 (last available data) there were 1,473,650 internally displaced persons (IDPs), that is individuals who have left their homes and moved to a different area and/or region of Ukraine. This represents a slight increase compared to the 1,464,628 reported in the previous reporting period (April 2021) and to the same period last year (1,446,881 at the end of April 2020).

The IOM’s National Monitoring System Report (NMS) conducted the 19th Round of data collection between December 2020 and March 2021. Due to COVID-19 preventive measures in place, the fieldwork was carried out via phone: 2,403 IDPs were interviewed via telephone in 300 randomly selected territorial units in the country; 3,753 IDPs and NGCA returnees were surveyed using the telephone-based survey tool; five online focus groups’ discussions were held with key informants, IDPs and NGCA returnees.

According to the collected data and despite the negative impact of the COVID-19 pandemic, the share of surveyed IDPs employed was 49 per cent, which is slightly higher than the employment rate estimated for the period March-July 2020 (46%). However, at the end of 2020, the employment rate of IDPs was still lower than that of the general population of the same age group (65%).

The data gathered in the first quarter of 2021 shows a deterioration of IDP households’ financial situation (self-assessed). Half of the IDPs (50%) assessed their financial situation as “enough money only for food” or “have to limit even food expenses”, which is 3 per cent higher compared to the first quarter of 2020 (47%).

In March 2021, the average monthly income per IDP household member amounted to UAH 3,651. The data gathered in the last to rounds of the NMS shows the return of the average monthly income per IDP household member to the pre-pandemic period (UAH 3,631 in September 2019).

The most problematic issue identified by IDPs is the lack of own housing, reported by 31 per cent in Round 19. Also, utility payments and the risk of COVID-19 were reported as the major issues compared to the previous rounds.

In December 2020–March 2021, 87 per cent of the interviewed IDPs reported that they had been staying in their current place of displacement for over three years. As the findings demonstrate, IDPs generally continue to stay in their place of residence and do not move further.

Only 18 per cent reported the intention to return to their place of origin after the end of the conflict. At the same time, 39 per cent of the respondents expressed their intention not to return, even after the end of the conflict.
FLOWS and PRESENCE OF AFGHAN NATIONALS IN EUROPE

In Greece, 739 Afghan nationals arrived by sea between January and August 2021, representing the first registered nationality with about 36 per cent of all arrivals according to the Hellenic Coast Guard. This is four times less than the number of Afghans arrived in the same period last year (3,192, or 37% of the total as of August 2020).
