Locality of Origin:	Nhamatanda		

SITE CHARACTERISTICS & LAND TENURE

Site Management Committee at the site	Yes	Site safe and secure	Yes	Number of Household	
Site Management Agency at the site	Yes	Site physically accessible	Yes	• renting land in place of origin:	82
Status	Open	Inaccessible if disaster	No	• owning land in place of origin:	446

NEEDS

First need:	Other
Second need:	Healthcare
Third need:	Education

SHELTER / NFI

Top one NFI need not accessible to IDPs:	Shoes and clothes	Number of Household living outdoors:	0
Top two NFI need not accessible to IDPs:	Mosquito nets	Number of Household living in emergency shelter:	0
Top three NFI need not accessible to IDPs:	Soap/detergent for washing clothes	Number of Household living in permanent shelter:	164

PROTECTION

Is there a protection desk on-site?	Yes
Is there a mechanism for referral for GBV survivors?	No
Is there a structure where people can report incidents (Crime, conflict and disputes, violence, abduction, etc.) in the location?	Yes, safety community
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Shame on reporting the situation

VULNERABILITIES

Pregnant women:	11	Elderly without care givers:	0
Breastfeeding mothers:	83	Single female head of household:	72
Mental/Physical disability:	23	Single male headed of household:	5
Chronic diseases:	3	Elderly head of household:	37
Does majority of family members have legal documentation?	No		

HEALTH

Availability of healthcare services on site:	No	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	N/a	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	Facility is not functioning	Has cholera been reported at this site since the cyclone?	Yes
Is medicines available for majority of the population:	No	How many weeks ago was the last case reported?	4

WASH

Main source of drinking water:	Hand pumps Small water	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	No wait	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	82		

FOOD SECURITY

Do most people have access to functioning market?	No
Why people don't have access to market?	No money to purchase items
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	More than one month

EDUCATION

Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	31 - 60 minutes

LIVELIHOOD

Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	2-3 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT

Top 3 ways population communicates with humanitarian partners:	Call centre /hotline Radio programme in-calls
Top 3 ways humanitarian partners communicates with population:	Religious Leader or group Radio Call centre /hotline
Literacy level of majority of households	Does not read neither write

Site Management Committee at the site	Yes	Site safe and secure	Yes	Number of Household	
Site Management Agency at the site	Yes	Site physically accessible	Yes	• renting land in place of origin:	0
Status	Open	Inaccessible if disaster	No	• owning land in place of origin:	36

NEEDS

First need:	Shelter
Second need:	Household Items (NFI)
Third need:	Healthcare

SHELTER / NFI

Top one NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)	Number of Household living outdoors:	0
Top two NFI need not accessible to IDPs:	Cooking items (pots/pans)	Number of Household living in emergency shelter:	260
Top three NFI need not accessible to IDPs:	Soap/detergent for washing clothes	Number of Household living in permanent shelter:	186

PROTECTION

Is there a protection desk on-site?	Yes
Is there a mechanism for referral for GBV survivors?	Yes
Is there a structure where people can report incidents (Crime, conflict and disputes, violence, abduction, etc.) in the location?	Yes, both police and
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Other

VULNERABILITIES

Pregnant women:	151	Elderly without care givers:	0
Breastfeeding mothers:	0	Single female head of household:	15
Mental/Physical disability:	2	Single male headed of household:	6
Chronic diseases:	3	Elderly head of household:	1
Does majority of family members have legal documentation?	Yes		

HEALTH

Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	1	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	16 - 30 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	N/a	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	N/a

WASH

Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	No wait	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	446		

FOOD SECURITY

Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

EDUCATION

Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	No
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	16 - 30 minutes

LIVELIHOOD

Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	<1 hr
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT

Why people don't have access to healthcare?	N/a	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes but not good quality	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Hand pumps Small water	Is there functional bathing space at site?	No
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without soap
Average daily water consumption per person:	10 - 15 ltr	How clean you think the site is in terms of waste?	3. More or less clean
Average wait time for water:	Less than 15 minutes	Do people live in areas where open defecation is frequently visible?	Yes
Number of functional latrines at site:	143		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	One Month

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	No
Percentage of school age children attending school:	75
Walking time to the nearest education facility:	Less than 15 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	No

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Staff from humanitarian agencies Community leader or group Community volunteer/mobilizers
Top 3 ways humanitarian partners communicates with population:	Community leader or group Community volunteer/mobilizers Local government office
Literacy level of majority of households	Does not read neither write

Site Management Agency at the site	Yes	Site physically accessible	Yes	• renting land in place of origin: 0
Status	Open	Inaccessible if disaster	Yes	• owning land in place of origin: 72

NEEDS		SHELTER / NFI		
First need:	Food	Top one NFI need not accessible to IDPs:	Closed containers to transport and /or sl	Number of Household living outdoors: 0
Second need:	Water	Top two NFI need not accessible to IDPs:	Cooking items (pots/pans)	Number of Household living in emergency shelter: 452
Third need:	Shelter	Top three NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)	Number of Household living in permanent shelter: 113

PROTECTION	
Is there a protection desk on-site?	No
Is there a mechanism for referral for GBV survivors?	No
Is there a structure where people can report incidents (Crime, conflict and disputes, violence, abduction, etc.) in the location?	No
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Lack of confidence on the existing services Shame on reporting the situation Fear of retaliation from

VULNERABILITIES		
Pregnant women:	5	Elderly without care givers: 1
Breastfeeding mothers:	31	Single female head of household: 226
Mental/Physical disability:	10	Single male headed of household: 65
Chronic diseases:	0	Elderly head of household: 52
Does majority of family members have legal documentation?	No	

HEALTH			
Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	1	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	N/a	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Lagoons and waterways f	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without water and soap
Average daily water consumption per person:	10 - 15 ltr	How clean you think the site is in terms of waste?	3. More or less clean
Average wait time for water:	Between 31 and 60 minut	Do people live in areas where open defecation is frequently visible?	Yes
Number of functional latrines at site:	565		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	No
When was the latest food distribution at this site?	N/a

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	No
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	16 - 30 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	No
If yes, how long does it take the majority of the population to reach their farming land?	N/a
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

Why people don't have access to healthcare?	Other	Has cholera been reported at this site since the cyclone?		No
Is medicines available for majority of the population:	No	How many weeks ago was the last case reported?		N/a

WASH				
Main source of drinking water:	Hand pumps	Is there functional bathing space at site?		Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?		Yes, but without soap
Average daily water consumption per person:	Unknown	How clean you think the site is in terms of waste?		2. Clean
Average wait time for water:	Less than 15 minutes	Do people live in areas where open defecation is frequently visible?		No
Number of functional latrines at site:	217			

FOOD SECURITY	
Do most people have access to functioning market?	No
Why people don't have access to market?	Other
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	No
Percentage of school age children attending school:	100
Walking time to the nearest education facility:	31 - 60 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	No

COMMUNITY ENGAGEMENT

SITE CHARACTERISTICS & LAND TENURE

Site Management Committee at the site	Yes	Site safe and secure	Yes	Number of Household	
Site Management Agency at the site	Yes	Site physically accessible	Yes	• renting land in place of origin:	93
Status	Open	Inaccessible if disaster	Yes	• owning land in place of origin:	22

NEEDS

First need:	Shelter
Second need:	Household Items (NFI)
Third need:	Other

SHELTER / NFI

Top one NFI need not accessible to IDPs:	Shoes and clothes	Number of Household living outdoors:	0
Top two NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)	Number of Household living in emergency shelter:	18
Top three NFI need not accessible to IDPs:	Soap/detergent for washing clothes	Number of Household living in permanent shelter:	352

PROTECTION

Is there a protection desk on-site?	Yes
Is there a mechanism for referral for GBV survivors?	No
Is there a structure where people can report incidents (Crime, conflict and disputes, violence, abduction, etc.) in the location?	Yes, safety community
Does the women's, men, girls and boys know where to seek for help in cases of violation?	Yes
Main reasons survivors could not find help?	Fear of retaliation from the violator

VULNERABILITIES

Pregnant women:	35	Elderly without care givers:	0
Breastfeeding mothers:	39	Single female head of household:	109
Mental/Physical disability:	33	Single male headed of household:	3
Chronic diseases:	36	Elderly head of household:	9
Does majority of family members have legal documentation?	No		

HEALTH

Availability of healthcare services on site:	Yes	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	1	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	More than 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	N/a	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes but not good quality	How many weeks ago was the last case reported?	N/a

WASH

Main source of drinking water:	Small water system	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	Less than 15 minutes	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	278		

FOOD SECURITY

Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	Last week

EDUCATION

Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)?	Yes
Percentage of school age children attending school:	50
Walking time to the nearest education facility:	Less than 15 minutes

LIVELIHOOD

Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT

Site Management Committee at the site	Yes	Site safe and secure	Yes	Number of Household
Site Management Agency at the site	Unknown	Site physically accessible	Yes	• renting land in place of origin: 0
Status	Open	Inaccessible if disaster	No	• owning land in place of origin: 90

NEEDS		SHELTER / NFI		
First need:	Shelter	Top one NFI need not accessible to IDPs:	Items for sleeping (mats, blankets,..)	Number of Household living outdoors: 0
Second need:	Household Items (NFI)	Top two NFI need not accessible to IDPs:	Cooking items (pots/pans)	Number of Household living in emergency shelter: 12
Third need:	Other	Top three NFI need not accessible to IDPs:	Hygiene products (for personal hygiene)	Number of Household living in permanent shelter: 113

PROTECTION		VULNERABILITIES		
Is there a protection desk on-site?	No	Pregnant women:	0	Elderly without care givers: 0
Is there a mechanism for referral for GBV survivors?	Yes	Breastfeeding mothers:	10	Single female head of household: 3
Is there a structure where people can report incidents (Crime, conflict and disputes, violence, abduction, etc.) in the location?	Yes, both police and	Mental/Physical disability:	2	Single male headed of household: 0
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes	Chronic diseases:	0	Elderly head of household: 1
Main reasons survivors could not find help?	Shame on reporting the situation Fear of retaliation from the violator	Does majority of family members have legal documentation?	Yes	

HEALTH			
Availability of healthcare services on site:	No	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	N/a	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	Do not know/No answer	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes, of good quality and people can afford them	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	Yes
Main problem with water:	None	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes, but without water and soap
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	3. More or less clean
Average wait time for water:	Less than 15 minutes	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	125		

FOOD SECURITY	
Do most people have access to functioning market?	Yes
Why people don't have access to market?	N/a
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	More than one month

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	95
Walking time to the nearest education facility:	Less than 15 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	Yes

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Staff from humanitarian agencies Call centre /hotline Local government office
Top 3 ways humanitarian partners communicates with population:	Staff from humanitarian agencies Local government office
Literacy level of majority of households	Does not read neither write

Site Management Committee at the site	Yes	Site safe and secure	Yes	Number of Household
Site Management Agency at the site	Yes	Site physically accessible	Yes	• renting land in place of origin: 0
Status	Open	Inaccessible if disaster	Yes	• owning land in place of origin: 184

NEEDS	
First need:	Shelter
Second need:	Healthcare
Third need:	Water

SHELTER / NFI			
Top one NFI need not accessible to IDPs:	Closed containers to transport and /or sl	Number of Household living outdoors:	0
Top two NFI need not accessible to IDPs:	Cooking items (pots/pans)	Number of Household living in emergency shelter:	178
Top three NFI need not accessible to IDPs:	Soap/detergent for washing clothes	Number of Household living in permanent shelter:	36

PROTECTION	
Is there a protection desk on-site?	No
Is there a mechanism for referral for GBV survivors?	Yes
Is there a structure where people can report incidents (Crime, conflict and disputes, violence, abduction, etc.) in the location?	Yes, police
Does the women's, men, girls and boys know where to seek for help in cases of violation	Yes
Main reasons survivors could not find help?	Shame on reporting the situation Fear of retaliation from the violator

VULNERABILITIES			
Pregnant women:	1	Elderly without care givers:	3
Breastfeeding mothers:	46	Single female head of household:	88
Mental/Physical disability:	20	Single male headed of household:	1
Chronic diseases:	24	Elderly head of household:	3
Does majority of family members have legal documentation?	Yes		

HEALTH			
Availability of healthcare services on site:	No	During their pregnancy, are most women seeing a health professional?	Yes
Number of functioning healthcare facilities:	N/a	Do populations with HIV know where to go to seek treatment and care?	Yes
Time to reach the nearest health facility:	31 - 60 minutes	Do people know where to go to seek Tuberculosis treatment and care?	Yes
Why people don't have access to healthcare?	Transportation to health facility is not current	Has cholera been reported at this site since the cyclone?	No
Is medicines available for majority of the population:	Yes but not good quality	How many weeks ago was the last case reported?	N/a

WASH			
Main source of drinking water:	Hand pumps	Is there functional bathing space at site?	Yes
Main problem with water:	Long waiting time (queue)	Is there hand washing stations with water and soap close to latrines/bathing space?	Yes
Average daily water consumption per person:	> 15 ltr	How clean you think the site is in terms of waste?	2. Clean
Average wait time for water:	Between 16 and 30 minte	Do people live in areas where open defecation is frequently visible?	No
Number of functional latrines at site:	214		

FOOD SECURITY	
Do most people have access to functioning market?	No
Why people don't have access to market?	Market is not accessible
Have people received food from a distribution at site?	Yes
When was the latest food distribution at this site?	More than two weeks

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	90
Walking time to the nearest education facility:	16 - 30 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	1-2 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	No

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Suggestion box Call centre /hotline Local government office

Average wait time for water:	More than 60 minutes	Do people live in areas where open defecation is frequently visible?	Yes
Number of functional latrines at site:	89		

FOOD SECURITY	
Do most people have access to functioning market?	No
Why people don't have access to market?	Other
Have people received food from a distribution at site?	No
When was the latest food distribution at this site?	N/a

EDUCATION	
Majority of the primary school age children have access to a functioning school?	Yes
Is the school functional (brick walls, windows, doors, writing board)	Yes
Percentage of school age children attending school:	N/a
Walking time to the nearest education facility:	Less than 15 minutes

LIVELIHOOD	
Does the majority of the population on this site have access to farming lands?	Yes
If yes, how long does it take the majority of the population to reach their farming land?	2-3 hrs
Have households received agriculture inputs (seeds, tools) from a distribution at this site	No

COMMUNITY ENGAGEMENT	
Top 3 ways population communicates with humanitarian partners:	Call centre /hotline Community leader or group Local government office
Top 3 ways humanitarian partners communicates with population:	Radio Community leader or group Local government office
Literacy level of majority of households	Reads and writes moderately
