IDPs and Returnees were covered by DTM Round 25

IOM manages the Displacement Tracking Matrix (DTM) in Nigeria and other countries round the world, to support humanitarian communities with data on displacement and mobility. This information management product determines the status, locations, and needs of people affected by the ongoing conflict in Northeast Nigeria. As of 20 October 2018, the DTM has identified 2,026,602 IDPs (388,767 households) across Adamawa, Bauchi, Borno, Gombe, Taraba, and Yobe States. This represents an increase of 5 per cent (99,854 persons) from the previous DTM Round. The assessed number of IDPs has been on the increase since January 2018, indicating that displacements have continued due to the volatile situation on the ground, while number of returns from neighbouring regions into situations of secondary displacement have also been on the increase.

Displaced

2,026,602 Individuals

40% of the IDPs are in camps/camp like settings

60% of the people are in host community settings

79% Women and Children

46% Male

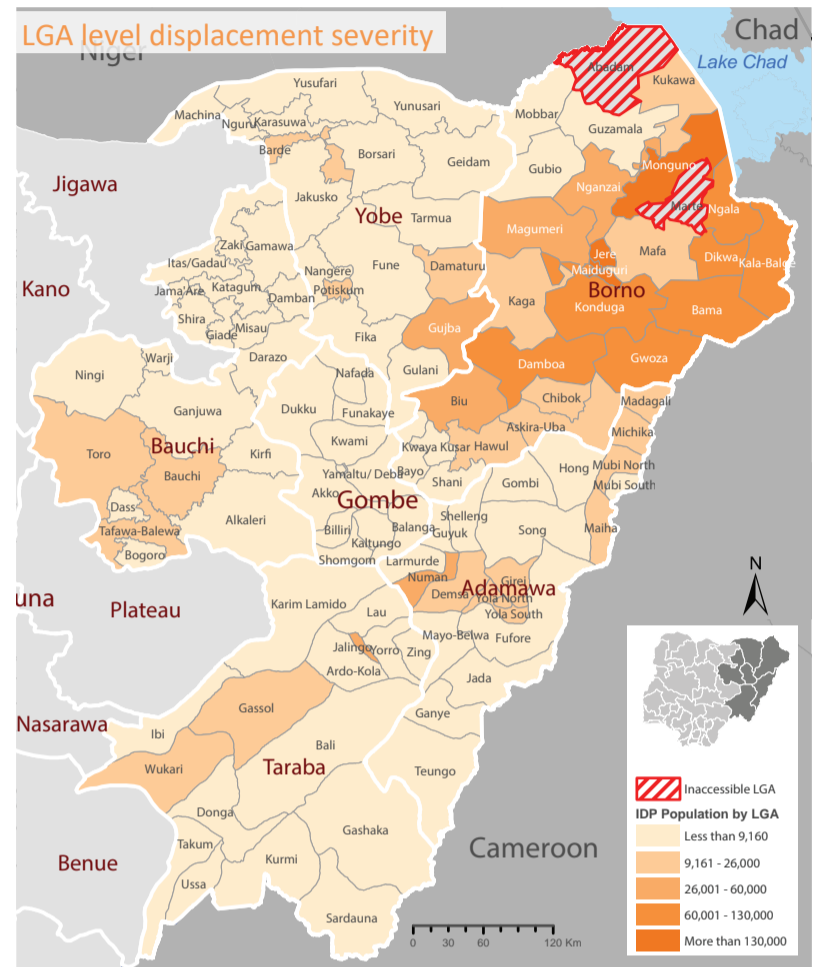

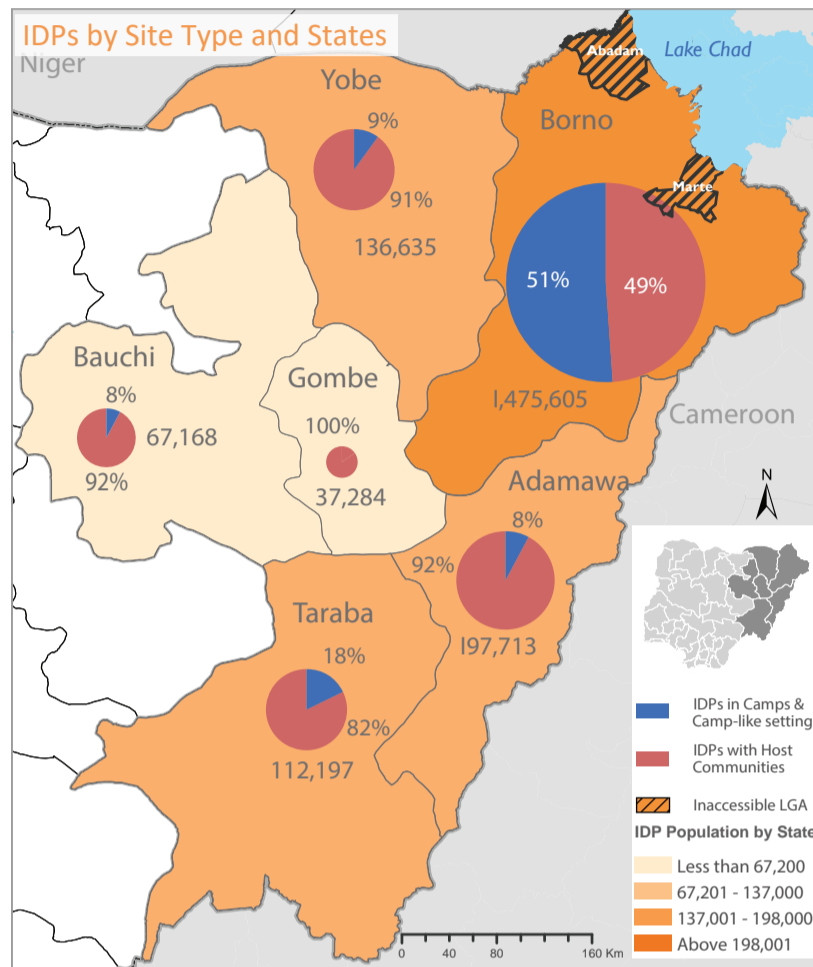

54% Female

27% Children under 5 years

74% In majority of Sites surveyed, IDPs cited food as the main unmet need

Returnees

1,642,696 Individuals

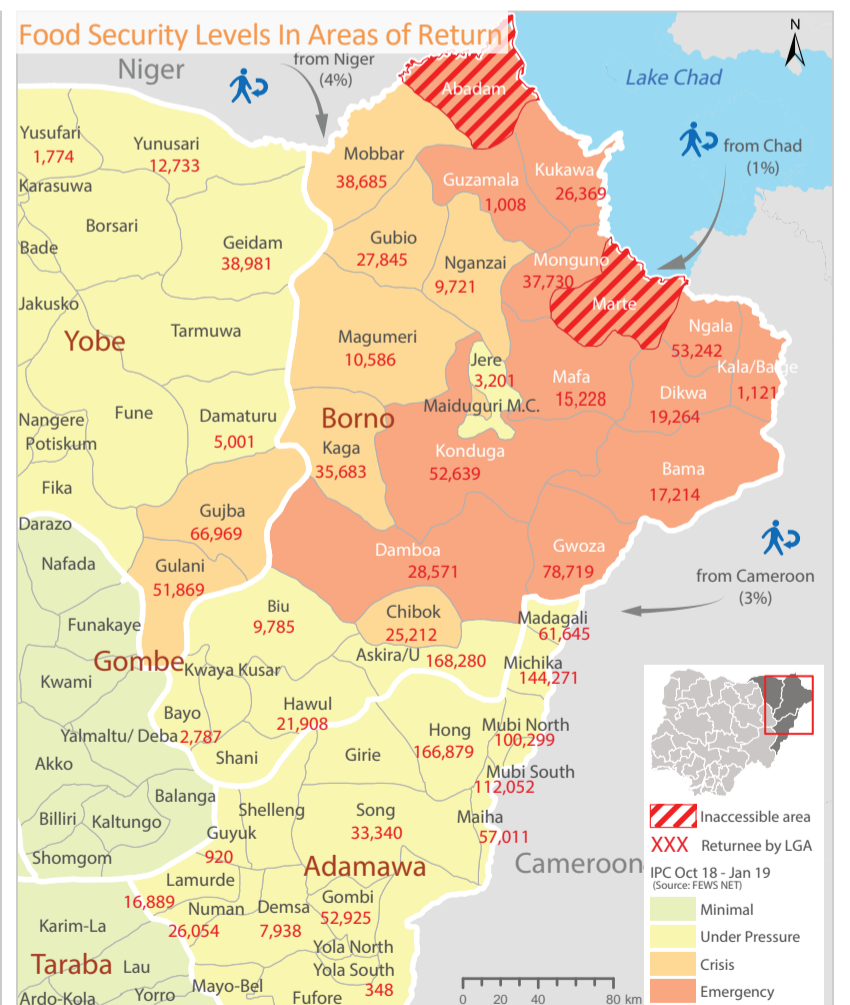

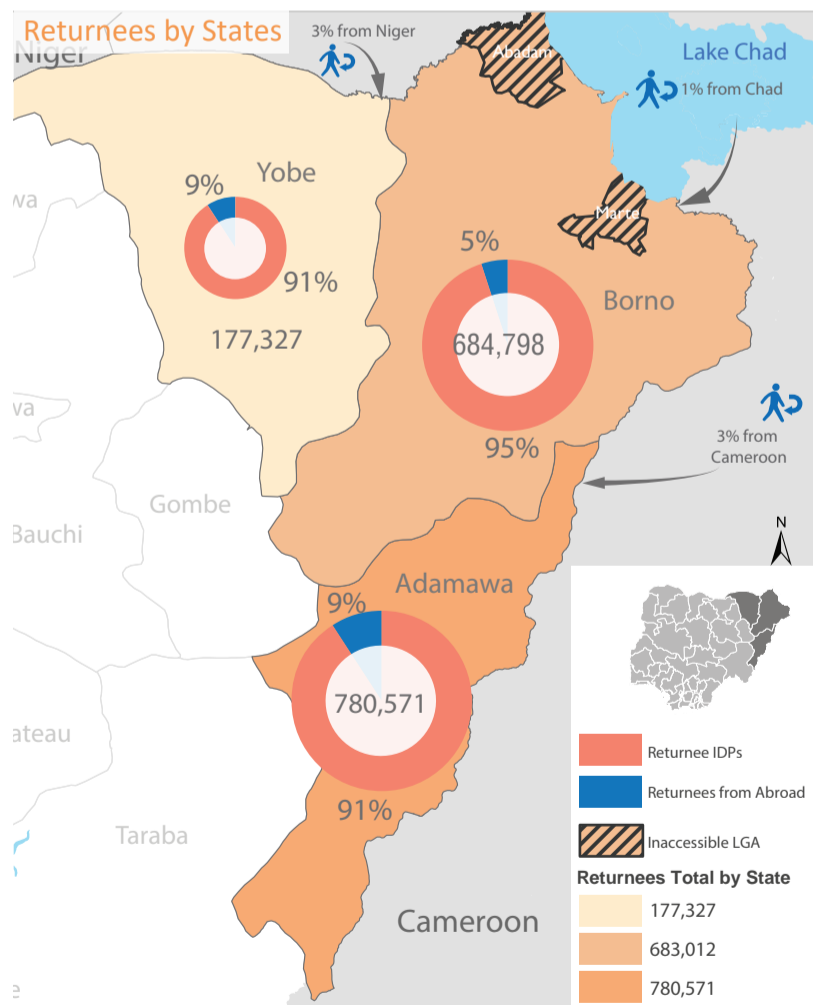

92% Returnee IDPs

8% Returnee Refugees

Shelter condition in return areas
