The data to develop this map was extracted from the ongoing Lebanese Red Cross (LRC) Multi-Sector Needs Assessment (MSNA) dataset, data collection is also supported by DTM. The georeferenced location data on foreign nationals in Beirut were extracted from the total dataset and analysed in further detail. In total 1896 number of foreign national households were assessed as of August 28th 2020.

This map is for illustration purposes only. The boundaries and names shown and the designations used on this map do not imply official endorsement or acceptance by the International Organization for Migration.
