Details about the map:

- The map is titled "Displacement Tracking Matrix Mobility Tracking Round 5" and includes locations covered as of March 2019.
- It features various symbols for different types of locations and movements, including returnees from abroad and within South Sudan (SSD), IDPs (internally displaced persons), and sub-areas.
- The map includes labels for towns, cities, and other geographic features.
- There is a legend explaining the symbols and colors used, such as focus counties, IDPs locations, and bordering countries.
- The map is a tool for tracking and monitoring population movements, particularly in the context of displacement and migration.

Disclaimers:
- The map is for illustration purposes only.
- Names and boundaries do not imply official endorsement or acceptance by IOM (International Organization for Migration).

The map provides a visual representation of various locations, movements, and sub-areas in South Sudan, aiding in understanding migration patterns and displacement issues.
