### Food / Nutrition

| Access to food                                  | Yes, Off-site |
| Access to a market near from the site:          | Yes |
| Most common source for food:                    | Own cash |
| Supplementary feeding availability for pregnant/lactating mother: | No |
| Supplementary feeding availability for children: | No |

### Education

| Access to formal education facility:            | Yes |
| Access to non formal education facility:        | No |
| Distance to nearest formal education facility:  | Off-site (More than 20 minutes) |
| % of girls at the site attending school:        | 51% to 75% |

### Health

| Prevalent health problems                       | None |
| Distance to the closest functioning health facility: | Off-site (Less than 30 minutes) |

### Protection

| Security on-site/settlement areas:             | Yes |
| Security incidents reported:                  | No |
| Main security provider:                       | Self organized |
| Lighting in communal points:                  | Yes, there is lighting and it is adequate |

### Livelihood

| Occupation of most of the households before EQ: | Agriculture/Livestock |
|Occupation of most of the households after EQ:   | Agriculture/Livestock |
| Access to income generating activities:         | Yes |
| Livestock on site:                              | No |
| IDPs have access to land for cultivation:       | Yes |

### Communication

| Male IDPs get most information from:           | Radio/Newspaper |
| Female IDPs get most information from:         | Local leader   |
| Complaints being reported:                     | No |
| Main topic of information requested:           | Access to services |

### Monsoon Specific

| Drinking water accessible in monsoon:          | Yes |
| Health facility accessible in monsoon:         | Yes |
| Education facility accessible in monsoon:      | Yes |
| Food support accessible in monsoon:            | Yes |

### Shelter & NFIs

| % of HH living outside (no shelter):           | None |
| % of HH living in tents:                      | None |
| % of HH living in temporary shelter (CGIs):   | More than 75% |
| % of HH living in emergency makeshift shelters: | None |
| % of HH living in Other shelters (Open building): | None |
| % of HH have access to electricity:            | 51% to 75% |
| % of HH have access to safe cooking facilities: | 51% to 75% |
| 1st most needed type of NFI:                   | Cooking gas |
| 2nd most needed type of NFI:                   | None |
| 3rd most needed type of NFI:                   | None |

### Food / Nutrition

| Access to food | Yes, Off-site |
| Access to a market near from the site | Yes |
| Most common source for food | Own cash |
| Access to formal education facility | Yes |
| Access to non formal education facility | No |
| Distance to nearest formal education facility | Off-site (Less than 20 minutes) |
| % of girls at the site attending school | More than 75% |

### Protection

| Security on-site/settlement areas | No |
| Security incidents reported | No |
| Main security provider | Unknown |
| Lighting in communal points | No lighting |

### Health

| Distance to the closest functioning health facility | Off-site (1-2 hours) |
| Provider of on-site health facilities | Government |
| Access to psychosocial support in the last 4 weeks | No |
| Access to immunization services in the last 4 weeks | No |

### Livelihood

| Occupation of most of the households before EQ | Agriculture/Livestock |
| Occupation of most of the households after EQ | Daily wage laborer |
| Access to income generating activities | Yes |
| Livestock on site | No |
| IDPs have access to land for cultivation | Yes |

### Communication

| Male IDPs get most information from | Social Media |
| Female IDPs get most information from | Local leader |
| Complaints being reported | No |
| Main topic of information requested | Recovery plans |

### Monsoon Specific

| Drinking water accessible in monsoon | Yes |
| Health facility accessible in monsoon | Yes |
| Education facility accessible in monsoon | Yes |
| Food support accessible in monsoon | Yes |

### Shelter & NFIs

| % of HH living outside (no shelter) | None |
| % of HH living in tents | 25% or less |
| % of HH living in temporary shelter (CGIs): | None |
| % of HH living in emergency makeshift shelters | More than 75% |
| % of HH living in Other shelters (Open building): | None |
| % of HH have access to electricity | None |
| % of HH have access to safe cooking facilities | More than 75% |
| 1st most needed type of NFI | Mosquito nets |
| 2nd most needed type of NFI | Cooking gas |
| 3rd most needed type of NFI | None |
### Site Management

- **Site ID**: 209

| Persons with chronic diseases/serious medical conditions: | 2 |

### Hygiene / Sanitation

#### Location of the site’s main water source
- Off-site (More than 20 minutes)

#### Main non-drinking water source
- Unprotected Well

#### Main drinking water source
- Hand pumps

#### Average amount of water available per day/person
- 5 liters and less

#### Drinking water treated before consumption
- Chlorinated

#### Main problem with the water
- None

### Food / Nutrition

#### Access to food
- Yes, On-Site

#### Most common source for food
- Own cash

#### Access to market near from the site
- No

### Education

#### Access to formal education facility
- Yes

#### Access to non formal education facility
- No

#### Distance to nearest formal education facility
- Off-site (More than 20 minutes)

#### % of girls at the site attending school
- 26% to 50%

### Protection

#### Security on-site/settlement areas
- Yes

#### Security incidents reported
- No

### Health

#### Distance to the closest functioning health facility
- Off-site (1-2 hours)

#### Provider of on-site health facilities
- Local Clinic/med practitioners

#### Main security provider
- Self organized

#### Lighting in communal points
- Yes, there is lighting and it is adequate

### Livelihood

#### Occupation of most of the households before EQ
- Agriculture/Livestock

#### Occupation of most of the households after EQ
- Daily wage laborer

#### Access to income generating activities
- No

#### Livestock on site
- No

#### IDPs have access to land for cultivation
- No

### Communication

#### Male IDPs get most information from
- Local leader

#### Female IDPs get most information from
- Local leader

#### Main topic of information requested
- Relocation plan

### Monsoon Specific

#### Drinking water accessible in monsoon
- No

#### Health facility accessible in monsoon
- No

#### Education facility accessible in monsoon
- Yes

#### Food support accessible in monsoon
- No

### Shelter & NFIs

#### % of HH living in temporary shelter (CGIs)
- More than 75%

#### % of HH living in emergency makeshift shelters
- None

#### % of HH living in Other shelters (Open building)
- None

#### % of HH living outside (no shelter)
- None

#### % of HH have access to electricity
- More than 75%

#### % of HH have access to safe cooking facilities
- None

#### 1st most needed type of NFI
- Fire wood

#### 1st most needed type of NFI
- Fire wood

#### 3rd most needed type of NFI
- Mosquito nets

- Access to formal education facility: Yes
- Access to non formal education facility: No
- Distance to nearest formal education facility: Off-site (More than 20 minutes)
- % of girls at the site attending school: More than 75%

**Protection**

- Security on-site/settlement areas: Yes
- Security incidents reported: No
- Main security provider: Self organized
- Lighting in communal points: Yes, there is lighting but it is NOT adequate

**Health**

- Prevalent health problems
  - 1st most: None
  - 2nd most: None
  - 3rd most: None
- Distance to the closest functioning health facility: Off-site (1-2 hours)
- Provider of on-site health facilities: Government
- Main topic of information requested: Situation in areas of origin

**Livelihood**

- Occupation of most of the households before EQ: Agriculture/Livestock
- Occupation of most of the households after EQ: Agriculture/Livestock
- Access to income generating activities: Yes
- Livestock on site: Yes
- IDPs have access to land for cultivation: Yes

**Communication**

- Male IDPs get most information from: Families & friends
- Female IDPs get most information from: Families & friends
- Complaints being reported: No
- Main topic of information requested: Situation in areas of origin

**Monsoon Specific**

- Site accessible in monsoon: No, no vehicular access
- Shelters that can survive in monsoon: More than 75%
- Water-proof shelters at site: More than 75%
- Wash facilities functional in monsoon: Yes
- Drinking water accessible in monsoon: Yes
- Health facility accessible in monsoon: Yes
- Education facility accessible in monsoon: Yes
- Food support accessible in monsoon: Unknown

**Shelter & NFI**

- % of HH living outside (no shelter): None
- % of HH have access to electricity: More than 75%
- % of HH living in tents: None
- % of HH have access to safe cooking facilities: More than 75%
- % of HH living in temporary shelter (CGIs): More than 75%
- 1st most needed type of NFI: Tarpaulin
- % of HH living in emergency makeshift shelters: None
- 2nd most needed type of NFI: CGIs
- % of HH living in Other shelters (Open building): None
- 3rd most needed type of NFI: Mosquito nets

- **Lighting in communal points:** Yes, there is lighting but it is NOT adequate

### Health

- **Prevalent health problems**
  - 1st most: Cold
  - 2nd most: None
  - 3rd most: None
- **Distance to the closest functioning health facility:** Off-site (Less than 30 minutes)
- **Provider of on-site health facilities:** Government
- **Access to psychosocial support in the last 4 weeks:** Yes
- **Access to immunization services in the last 4 weeks:** Yes

### Livelihood

- **Occupation of most of the households before EQ:** Agriculture/Livestock
- **Occupation of most of the households after EQ:** Agriculture/Livestock
- **Access to income generating activities:** No
- **Livestock on site:** Yes
- **IDPs have access to land for cultivation:** Yes

### Communication

- **Male IDPs get most information from:** Families & friends
- **Female IDPs get most information from:** Families & friends
- **Complaints being reported:** Yes
- **Main topic of information requested:** Situation in areas of origin

### Monsoon Specific

- **Site accessible in monsoon:** No, no vehicular access
- **Shelters that can survive in monsoon:** Unknown
- **Water-proof shelters at site:** None
- **Wash facilities functional in monsoon:** Yes
- **Drinking water accessible in monsoon:** Yes
- **Health facility accessible in monsoon:** Yes
- **Education facility accessible in monsoon:** Yes
- **Food support accessible in monsoon:** Unknown

### Shelter & NFIs

- **% of HH living outside (no shelter):** None
- **% of HH living in tents:** None
- **% of HH living in emergency makeshift shelters:** None
- **% of HH living in Other shelters (Open building):** None
- **% of HH have access to electricity:** More than 75%
- **% of HH have access to safe cooking facilities:** More than 75%
- **% of HH have access to/near water:** More than 75%
- **1st most needed type of NFI:** CGIs
- **2nd most needed type of NFI:** Fixing kits
- **3rd most needed type of NFI:** Tarpaulin

## Site having the SMC: Yes
- Women participating in SMC: 51% to 75%
- Community is taking part in SMC: Yes
- SMA: No
- SMA type: None
- SMA Name: None
- SMA focal point: None
- Registration/IDPs list maintained: Yes

### Persons with special vulnerabilities

- Breastfeeding mothers: 8
- Person with disabilities: 1
- Elderly-headed households: 4
- Person with chronic diseases/serious medical conditions: 0

### Water

- Location of the site's main water source: Off-site (More than 20 minutes)
- Main non-drinking water source: Unprotected Well
- Drinking water treated before consumption: No treatment
- Main problem with the water: Suspended solids
- Average amount of water available per day/person: 6-10 liters
- Unprotected well

### Hygiene / Sanitation

- Condition of most of the latrines: Not so good (not hygienic)
- Evidence of open defecation: Yes
- People use toilets on or off site: Off-site
- Garbage Disposal Type: Burning
- Functioning toilets on-site: 1
- Evidence of hand-washing practices: Unknown
- Off-site

### Food / Nutrition

- Access to food: No
- Access to a market near from the site: No
- Most common source for food: Borrowed cash
- Supplementary feeding availability for children: No
- Supplementary feeding availability for pregnant/lactating mother: No
- People use toilets on or off site: Off-site

### Education

- Access to formal education facility: Yes
- Access to non formal education facility: No
- Distance to nearest formal education facility: Off-site (More than 20 minutes)
- % of girls at the site attending school: 25% or less

### Protection

- Security on-site/settlement areas: No
- Security incidents reported: No
- Main security provider: Unknown
- Yes, there is lighting but it is NOT adequate

### Health

- Prevalent health problems
  - 1st most: Measles
  - 2nd most: Cough
  - 3rd most: Diarrhea
- Distance to the closest functioning health facility: Off-site (1-2 hours)
- Provider of on-site health facilities: International organization
- Access to immunization services in the last 4 weeks: No
- Access to psychosocial support in the last 4 weeks: No

### Livelihood

- Occupation of most of the households before EQ: Agriculture/Livestock
- Occupation of most of the households after EQ: None
- Access to income generating activities: Yes
- Livestock on site: Yes
- IDPs have access to land for cultivation: No
- Male IDPs get most information from: Families & friends
- Female IDPs get most information from: Families & friends
- % of HH living outside (no shelter): None
- % of HH living in tents: None
- % of HH living in temporary shelter (CGIs): More than 75%
- % of HH living in emergency makeshift shelters: 25% or less
- % of HH living in emergency makeshift shelters (CGIs): None
- Wash facilities functional in monsoon: None
- Drinking water accessible in monsoon: No
- Health facility accessible in monsoon: No
- Education facility accessible in monsoon: Yes
- Food support accessible in monsoon: No
- Site accessible in monsoon: No, no vehicular access
- Shelters that can survive in monsoon: 51% to 75%
- Water-proof shelters at site: None
- % of HH have access to electricity: More than 75%
- % of HH have access to safe cooking facilities: More than 75%
- 1st most needed type of NFI: Cooking gas
- 2nd most needed type of NFI: Fire wood
- 3rd most needed type of NFI: Mosquito nets
- % of HH living in Other shelters (Open building): None

### Monsoon Specific

- Drinking water accessible in monsoon: No
- Health facility accessible in monsoon: No
- Education facility accessible in monsoon: Yes
- Food support accessible in monsoon: No
- Site accessible in monsoon: No, no vehicular access
- Shelters that can survive in monsoon: 51% to 75%
- Water-proof shelters at site: None
- Wash facilities functional in monsoon: None

### Persons with special vulnerabilities

- **Breastfeeding mothers:** 8
- **Person with disabilities:** 1
- **Person with chronic diseases/serious medical conditions:** 0
- **Elderly-headed household:** 0
- **People use toilets on or off site:** On-site
- **Condition of most of the latrines:** Not so good (not hygienic)
- **Functioning toilets on-site:** 2
- **Evidence of open defecation:** Yes
- **Evidence of hand-washing practices:** Unknown
- **Disposal Type:** No waste disposal system

### Water

- **Location of the site’s main water source:** Off-site (More than 20 minutes)
  - **Main non-drinking water source:** Piped water supply
  - **Main drinking water source:** Piped water supply
  - **Average amount of water available per day/person:** 11-15 liters
  - **Drinking water treated before consumption:** No treatment
  - **Main problem with the water:** None

### Access to food

- **Access to food:** No
- **Access to a market near from the site:** Yes
- **Most common source for food:** Borrowed cash

### Education

- **Access to formal education facility:** Yes
- **Access to non formal education facility:** No
- **Distance to nearest formal education facility:** Off-site (Less than 20 minutes)
  - **% of girls at the site attending school:** 26% to 50%

### Health

#### Prevalent health problems

- **1st most:** Cough
- **2nd most:** Diarrhea
- **3rd most:** Conjunctivitis

#### Distance to the closest functioning health facility

- **Off-site (Less than 30 minutes)**

### Food / Nutrition

- **Screening for malnutrition conducted in the area:** Yes
- **Supplementary feeding availability for pregnant/lactating mother:** Yes
- **Supplementary feeding availability for children:** Yes

### Protection

- **Security on-site/settlement areas:** Yes
- **Security incidents reported:** No
- **Main security provider:** Military

### Communication

- **Main topic of information requested:** Recovery plans

### Agriculture/Livestock

- **Occupation of most of the households before EQ:** Agriculture/Livestock
- **Occupation of most of the households after EQ:** Employed
- **Access to income generating activities:** Yes
- **Livestock on site:** Yes
- **IDPs have access to land for cultivation:** Yes

### Drinking water accessible in monsoon: No

### Shelter & NFIs

- **% of HH living outside (no shelter):** None
- **% of HH living in tents:** None

Published on: June 8, 2016

Altitude: 793.4 m

Bagmati, Dhading, Nilkantha Municipality (27.90191, 84.89779)

Site ID: 592

Site open date: 22-Jun-2015

Site type: Open ground (park, playground, sports ground, other)

Land ownership: Public/Government

Site Classification: Spontaneous

IDPs from:

Dhading (Tipling ,9) and Dhading (Tipling ,8)

65 households

211 IDPs

Male | Female | IDPs
--- | --- | ---
4 | <1 | 6
10 | 1-5 | 10
20 | 6-17 | 17
50 | 18-59 | 70
4 | 60+ | 20
88 | TOTAL | 123

Persons with special vulnerabilities

Breastfeeding mothers: 16
Persons with disabilities: 3
Persons with chronic diseases/serious medical conditions: 2

Elderly-headed households: 5

Hygiene / Sanitation

Location of the site’s main water source: Off-site (More than 20 minutes)
Main non-drinking water source: Piped water supply
Main drinking water source: Piped water supply
Average amount of water available per day/person: 11-15 liters
Drinking water treated before consumption: Filtered
Main problem with the water: None

Access to food: No
Access to a market near from the site: Yes
Most common source for food: Borrowed cash

Screening for malnutrition conducted in the area: No
Supplementary feeding availability for pregnant/lactating mother: No
Supplementary feeding availability for children: No

Access to formal education facility: Yes
Access to non formal education facility: No
Distance to nearest formal education facility: Off-site (More than 20 minutes)
% of girls at the site attending school: More than 75%

Security on-site/settlement areas: No
Main security provider: Unknown
Lighting in communal points: Yes, there is lighting but it is NOT adequate

Prevalent health problems

1st most: None
2nd most: None
3rd most: None

Distance to the closest functioning health facility: Off-site (1-2 hours)
Provider of on-site health facilities: Government
Access to psychosocial support in the last 4 weeks: No
Access to immunization services in the last 4 weeks: Yes

Occupation of most of the households before EQ: Trade
Occupation of most of the households after EQ: None
Access to income generating activities: Yes
Livestock on site: No
IDPs have access to land for cultivation: No

Site accessible in monsoon: Yes
Shelters that can survive in monsoon: 25% or less
Water-proof shelters at site: 26% to 50%
Wash facilities functional in monsoon: No

Drinking water accessible in monsoon: Yes
Health facility accessible in monsoon: Yes
Education facility accessible in monsoon: Yes
Food support accessible in monsoon: Unknown

% of HH living outside (no shelter): None
% of HH living in tents: 25% or less
% of HH living in temporary shelter (CGIs): More than 75%
% of HH living in emergency makeshift shelters: None
% of HH living in Other shelters (Open building): None

Monsoon Specific

% of HH have access to electricity: More than 75%
% of HH have access to safe cooking facilities: None
1st most needed type of NFI: Mosquito nets
2nd most needed type of NFI: Cooking gas
3rd most needed type of NFI: Fire wood

### Persons with special vulnerabilities
- Breastfeeding mothers: 10
- Elderly-headed households: 5
- Persons with disabilities: 2
- Person with chronic diseases/serious medical conditions: 0

### Water
- Location of the site's main water source: Off-site (More than 20 minutes)
- Main non-drinking water source: Unprotected Well
- Main drinking water source: Unprotected Well
- Average amount of water available per day/person: 6-10 liters
- Drinking water treated before consumption: No treatment
- Main problem with the water: None

### Food / Nutrition
- Access to food: No
- Access to a market near from the site: Yes
- Most common source for food: Own cash
- Screening for malnutrition conducted in the area: No
- Supplementary feeding availability for pregnant/lactating mother: No
- Supplementary feeding availability for children: No

### Education
- Access to formal education facility: Yes
- Access to non formal education facility: No
- Distance to nearest formal education facility: Off-site (More than 20 minutes)
- % of girls at the site attending school: More than 75%

### Health
- Prevalent health problems
  - 1st most: Diarrhea
  - 2nd most: None
  - 3rd most: None
- Distance to the closest functioning health facility: Off-site (1-2 hours)
- Provider of on-site health facilities: Government

### Livelihood
- Occupation of most of the households after EQ: None
- Access to income generating activities: No
- Livestock on site: No
- IDPs have access to land for cultivation: No
- Male IDPs get most information from: Mobile phone
- Female IDPs get most information from: Families & friends
- Complaints being reported: No
- Main topic of information requested: Shelter support

### Communication
- Site accessible in monsoon: Yes
- Shelters that can survive in monsoon: None
- Water-proof shelters at site: None
- Wash facilities functional in monsoon: Yes
- Drinking water accessible in monsoon: Yes
- Health facility accessible in monsoon: No
- Education facility accessible in monsoon: Yes
- Food support accessible in monsoon: Unknown

### Monsoon Specific
- % of HH living outside (no shelter): None
- % of HH living in tents: More than 75%
- % of HH living in temporary shelter (CGIs): 25% or less
- % of HH living in emergency makeshift shelters: None
- % of HH living in Other shelters (Open building): None
- % of HH have access to electricity: None
- % of HH have access to safe cooking facilities: 25% or less
- 1st most needed type of NFI: Cooking gas
- 2nd most needed type of NFI: Mosquito nets
- 3rd most needed type of NFI: CGIs

### Persons with special vulnerabilities

- Breastfeeding mothers: 8  
- Person with disabilities: 1  
- Elderly-headed household: 0  
- Person with chronic diseases/serious medical conditions: 0

### Water

- Location of the site’s main water source: On-site (Less than 20 minutes)
- Main non-drinking water source: Spring/river
- Main drinking water source: Spring/river
- Average amount of water available per day/person: 6-10 liters
- Drinking water treated before consumption: No treatment
- Main problem with the water: None

### Hygiene / Sanitation

- People use toilets on or off site: On-site
- Condition of most of the latrines: Not so good (not hygienic)
- Functioning toilets on-site: 3
- Evidence of open defecation: No
- Evidence of hand-washing practices: Unknown
- Garbage Disposal Type: Burning

### Education

- Access to formal education facility: Yes
- Access to non formal education facility: Yes
- Distance to nearest formal education facility: Off-site (More than 20 minutes)
- % of girls at the site attending school: More than 75%

### Food / Nutrition

- Access to food: Yes, Off-site
- Most common source for food: Own cash
- Screening for malnutrition conducted in the area: No
- Supplementary feeding availability for pregnant/lactating mother: No
- Supplementary feeding availability for children: No

### Protection

- Access to formal education facility: Yes
- Access to non formal education facility: Yes
- Main security provider: Unknown
- Security on-site/settlement areas: No
- Security incidents reported: No
- Main security provider: Unknown
- Lighting in communal points: No lighting

### Health

- Distance to the closest functioning health facility: Off-site (1-2 hours)
- Provider of on-site health facilities: Government
- Provider of on-site health facilities: Government
- Access to psychosocial support in the last 4 weeks: Yes
- Access to immunization services in the last 4 weeks: No

### Livelihood

- Occupation of most of the households before EQ: Daily wage laborer
- Occupation of most of the households after EQ: Daily wage laborer
- Access to income generating activities: Yes
- Livestock on site: Yes
- IDPs have access to land for cultivation: No

### Communication

- Male IDPs get most information from: Families & friends
- Female IDPs get most information from: Families & friends
- Complaints being reported: No
- Access to psychosocial support in the last 4 weeks: Yes
- Main topic of information requested: Recovery plans

### Monsoon Specific

- Drinking water accessible in monsoon: Unknown
- Health facility accessible in monsoon: Yes
- Education facility accessible in monsoon: Yes
- Food support accessible in monsoon: Yes

### Shelter & NFIs

- % of HH living outside (no shelter): None
