IOM’s DTM aims to monitor displacement and provide accurate data about the IDP population in Iraq. Data is collected by Rapid Assessment and Response Teams (RART), composed of 110 staff on the entire Iraqi territory. Data is gathered via a network of over 4,000 key informants.

From the start of January 2014 through 08 December 2016, the DTM identified 3,064,146 internally displaced individuals (510,691 families). This map shows the sizes of IDP population residing in 3 main shelter categories (private, critical, camp plus unknown).
