Wau Town features one PoC site and five collective centres in which IOM DTM conducts monthly headcounts to monitor changing population dynamics and displacement trends. In March 2019, the monthly count was held in Wau PoC AA site, as well as Cathedral, Nazareth, St. Joseph, Lokoloko and Masna collective centres. Throughout 2018 until February 2019, a steady decline in the Wau PoC AA site population was observed. On March 2019 a slight increment was observed due to conflict-induced movement from Jur River (Rocrodong and Kuarjena). Between February and March 2019, Wau PoC AA site's population increased by four per cent (596 individuals).
