SITUATION OVERVIEW: Deos-Tinputz experienced a King Tide at around 2000Hrs on 03 January 2020, leading to the displacement of the local community members who fled to higher ground for safety. The displaced population cleared the land identified for temporary evacuation, and erected makeshift shelters prior to receiving tarpaulins from the Papua New Guinea Red Cross Society (PNGRCS). They also received water containers from the International Organization for Migration (IOM) and Bougainville Disaster & Climate Change Office. This site profile presents main findings from the assessment jointly conducted by PNGRCS, Save the Children and IOM at the request of the Bougainville Disaster & Climate Change Office.

DISPLACEMENT
181 Individuals displaced.
37 Households (HHs) displaced.

Tarpaulins were the main form of temporary shelter for the displaced population.

ASSESSMENT FINDINGS

SITE DETAILS
Site Duration: Short term
Registration activity: Yes — Government
Management Committee/Agency/Authority on site: Yes — Government.
Site Details: Panakara/ Deos site, Iris Ward, Taonita Tinputz Local Level Government, Tinputz District.
Accessibility and communication: Site is accessible by vehicle and there is mobile phone network coverage on site.

ASSESSMENT FINDINGS

SITE DETAILS

SITE DETAILS
Water, Sanitation and Hygiene
Drinking water: Creeks (Onsite > 20 mins walk 1-way).
Functioning toilets: 0. IDPs resorting to open defecation.
Gender-segregated bathing facilities: No.

Food and Nutrition
Frequency of food distribution: Never.
Nutrition supplements available for children, and lactating and/or pregnant women: No.

Gender and Age

Demographics and particularly vulnerable groups

41% of IDPs are females
59% of IDPs are males
14% of IDP women are breastfeeding
7% of IDP women are pregnant
62% of IDPs are children
2% of IDPs are persons living with disabilities

Sectors

Water, Sanitation and Hygiene
Available heath services near site: Yes (< 5km).
Health problems reported on site: No.

Health

Protection
Security provide on site: Yes.
Security incidents reported on site: No.

Shelter
Type of shelter being used: Tarpaulins and makeshift shelters.
