ABOUT DTM

The Displacement Tracking Matrix (DTM) is a system that tracks and monitors displacement and population mobility. It is designed to regularly and systematically capture, process and disseminate information to provide a better understanding of the movements and evolving needs of displaced populations, whether on site or en route. For more information about the DTM, please visit www.displacement.iom.int/afghanistan.

In Afghanistan, DTM employs the Baseline Mobility Assessment tool, designed to track mobility, determine the population sizes and locations of forcibly displaced people, reasons for displacement, places of origin, displacement locations and times of displacement, including basic demographics, as well as vulnerabilities and priority needs. Data is collected at the settlement level, through key informant interviews, focus group discussions, and direct observations.

This provincial report summarises the DTM findings in Logar. The data has been collected throughout 6 districts and 307 settlements in Logar. This provincial report is supplementary to its nationwide counterpart, please see: Baseline Mobility Assessment Summary Results (November — December 2017).

DTM enables IOM and its partners to deliver evidence-based, better targeted, mobility-sensitive and sustainable humanitarian assistance, reintegration, community stabilization and development programming.

5 TARGET POPULATIONS

Through the Baseline Mobility Assessments, DTM tracks the locations, population sizes, and cross-sectoral needs of the five core target population categories:

1. Returnees from Abroad
2. Out-Migrants
3. Internally Displaced Persons (IDPs), subdivided into the following three categories:
   3.1 Arrival IDPs
   3.2 Returnee IDPs
   3.3 Fled IDPs
4. Returnees from abroad [2012–2017]
5. IDPs [2012–2017] currently in host communities
6. Former IDPs [2012–2017] have returned to their homes
7. Out-migrants fled abroad [2012–2017]
8. Out-migrants fled to Europe (14% of out-migrants)
9. Returnees and IDPs live in tents or in the open air (0.5% of total returnees and IDPs)

HIGHLIGHTS

- 6 districts assessed
- 307 settlements assessed
- in Azra, Barakibarok, Charkh, Khoshi, Mohammadagha and Pul-e-Alam
- 901 key informants interviewed
- 105,502 returnees from abroad [2012–2017]
- 41,042 IDPs [2012–2017] currently in host communities
- 13,433 former IDPs [2012–2017] have returned to their homes
- 43,037 out-migrants fled abroad [2012–2017]
- 6,076 out-migrants fled to Europe (14% of out-migrants)
- 680 returnees and IDPs live in tents or in the open air (0.5% of total returnees and IDPs)

- 1 in 3 persons from Logar has fled their home as an IDP
- 1 in 4 persons from Logar is either an IDP or a Returnee
- 4 in 5 persons from Khoshi has fled the country as an out-migrant
- 1 in 2 persons from Khoshi is either an IDP or a Returnee
- 1 in 3 persons from Pul-e-Alam is either an IDP or a Returnee

For more information, please contact: DTMAfghanistan@iom.int www.displacement.iom.int/afghanistan
Returnees are Afghan nationals who have returned to Afghanistan in the assessed location after having spent at least six months abroad. This group includes both documented returnees (Afghans who were registered refugees in host countries and then requested voluntary return with UNHCR and relevant national authorities) and undocumented returnees (Afghans who did not request voluntary return with UNHCR, but rather returned spontaneously from host countries, irrespective of whether or not they were registered refugees with UNHCR and relevant national authorities).

The number of returnees from abroad increased by 17% in 2016 alone, compared to the period between 2012 and 2015, followed by a notable 50% decrease in returns in 2017. Overall, three time frames, the district of Pul-e-Alam has hosted the majority of returnees, absorbing 42% of the total returnees in Logar.

OUT-MIGRANTS

Out-Migrants are Afghans who have moved or fled abroad from the assessed location, whatever the cause, reason or duration of expatriation. This category includes refugees, displaced and uprooted people, and economic migrants who have left Afghanistan. Despite being geographically situated close to Pakistan, a significant proportion of out-migrants from Logar have fled to Iran.

43,037
fled abroad

6,076
fled to Europe (14%)

16,599
fled to Iran (39%)

43,037
fled to Pakistan (38%)

Arrival IDPs (IDPs) are Afghans who have fled from other settlements in Afghanistan and have arrived and presently reside at the assessed location / host community, as a result of, or in order to avoid, the effects of armed conflict, generalized violence, human rights violations, protection concerns, or natural and human-made disasters.

41,042

The table below displays the 20 settlements in Logar that host the most IDPs and returnees. These settlements are especially vulnerable to higher levels of social instability induced by large influxes and the subsequent competition for limited, already overstretched resources and job opportunities. Shairak and Woni Sufa, both in the Puli-e-Alam district, are most severely affected, hosting 28,852 IDPs and returnees. These two settlements (less than 1% of the assessed settlements in Logar) host 20% of all of the returnees and IDPs in the province. Accordingly, Puli-e-Alam is the most severely affected district, hosting 66,197 IDPs and returnees.

STORIES FROM THE DISPLACED

HASHMAT: FROM SMALL BUSINESS OWNER IN PAKISTAN TO RETURNEE LIVING IN POVERTY IN LOGAR, AFGHANISTAN

Hashmat is an Afghan returnee from Pakistan who was born in a small mountainous settlement of the Logar province. He was just three years old when in 1985, both of his parents were killed by an air-strike from Russian forces. He was left in the care of his uncle and together they fled to Peshawar, Pakistan.

From the age of six, Hashmat started selling bananas from a wheelbarrow with his uncle. Gradually, their enterprise expanded into a small shop. He married at the age of 17, and soon enough became the father of two daughters and two sons. He fondly recollects that his family was full of love, happiness and a determination to better their circumstances. Accordingly, he substituted his small shop for a bakery where he managed four employees. His income grew to the point where he was able to support his uncle and send financial remittances back to Afghanistan.

Despite all of his achievements and integrative efforts, Hashmat informs us that when Pakistani officials started to harass and intimidate Afghan refugees, he recognised that he could no longer have a stable future in Pakistan. He moved back to Logar, Afghanistan, where he had not lived since he was three months old.

After managing and owning a bakery, Hashmat is now a returnee in Logar with two cows and a sheep as the family’s only significant assets. He sets out every day to find daily wage work to provide for his family. As a testament to the tenacity of his spirit, he still remains hopeful.

“Aafter returning and encountering more problems, I am pleased to have safety and liberty in my country,” Hashmat tells us. “Along with my fellow country-men, I am prepared for the reconstruction of my motherland, Afghanistan.”

A returnee to a country that he left when he was 3 months old, Hashmat is one of 94,378 returnees from Pakistan currently residing in Logar.
