On 2nd of February 500 Tawerghan IDP households originating from eastern Libya attempted to return to their homes. Their main needs were shelter, medical assistance and food. On 6th of February 380 households returned to their original points of displacement within Benghazi.

On 4th of February 600 Tawerghan IDP households were displaced in Qrart Alkataf as they attempted to return to Tawergha. The families were hosted in two schools, a mosque and a small events lounge attached to the mosque.

On 2nd of February 1500 Tawerghan IDP households from southern and western areas of Libya arrived at checkpoint 14. Their main needs were shelter, medical assistance and food.

On 14th February a road accident occurred involving 180 migrants resulting in 39 casualties and 19 victims.

The Event Tracker is part of IOM Libya’s Displacement Tracking Matrix (DTM) programme. DTM is a suite of tools that provide a comprehensive articulation of Libya’s human mobility patterns. The Event Tracker is a biweekly tool collecting and triangulating information on the whole of Libya on any incidents related to IDPs, returnees and migrants, especially in regards to large population movements updates on border closures and new routes. For more information visit www.globaldtm.info/libya.

Disclaimer: DTM’s Event Tracker is sourced through DTM staff and partners and is triangulated with data collected through DTM’s Flow Monitoring and Mobility Tracking components. All data reported in the Event Tracker is considered as reported and is validated in all final reports published by Flow Monitoring and Mobility Tracking.
