On 23 February heavy clashes broke out in Abu Slim in Tripoli. The clashes led to the displacement of 35 families. A ceasefire was reached over the weekend. Since then sporadic fighting has occurred.

2,755 individuals are reported to have returned to Sirte during the course of the last week. Out of the families that are reported to have returned 100 families are reported to be coming from Zliten, 200 from Bani Walid, 180 from Aljufra and 300 from Sabha. The main reason as to why people are reported as returning to Sirte is to verify the conditions of their proprieties and the general conditions of Sirte.

The Incident Tracker is part of IOM Libya’s Displacement Tracking Matrix (DTM) programme. DTM is a suite of tools that provide a comprehensive articulation of Libya’s human mobility patterns. The Incident Tracker is a weekly tool collecting and triangulating information on the whole of Libya on any incidents related to IDPs, returnees and migrants, especially in regards to large population movements updates on border closures and new routes. For more reports and datasets, please visit www.globaldtm.org/libya.
