

## EMERGENCY EVENT TRACKING

Data collection: 24 February 2021

FIRE

The DTM Emergency Event Tracking (EET) is deployed to track sudden displacement and population movements, provide more frequent updates on the scale of displacement and quantify the affected population when needed. As a subcomponent of the new Mobility Tracking methodology in Sudan ([Round One](#)), and activated on a need basis, EET utilises a broad network of key informants to capture best estimates of the affected population presence per location – a useful tool for humanitarian response planning and design.

## Event Overview

DTM teams activated EET to monitor the displacement of individuals affected by a fire outbreak in the Hai Al Jabal area of Al Fasher town, North Darfur, on 13 February 2021. The first update estimates a total number of 346 individuals (63 households) displaced in Hai Al Jabal and gathering in open areas in shelters constructed using local materials. All affected individuals are Sudanese nationals, and at least 58 individuals have additional vulnerabilities in need of assistance and support. Reports indicate one injury sustained, and at least 47 individuals having lost personal belongings and livestock. Based on a ranking scale, the three main priority needs are food, emergency shelter and non-food items.

## Shelter Indicator

Approximately 63 IDP households (100%) are gathering in open areas in shelters constructed using local materials.

## IOM DISCLAIMER

The opinions expressed in the report are those of the authors and do not necessarily reflect the views of the International Organization for Migration (IOM). The designations employed and the presentation of material throughout the report do not imply the expression of any opinion whatsoever on the part of IOM concerning the legal status of any country, territory, city or area, or of its authorities, or concerning its frontiers or boundaries.

IOM is committed to the principle that humane and orderly migration benefits migrants and society. As an intergovernmental organization, IOM acts with its partners in the international community to: assist in the meeting of operational challenges of migration; advance understanding of migration issues; encourage social and economic development through migration; and uphold the human dignity and well-being of migrants.

## Return Intention

Data collected through the return intention indicator suggests that all displaced individuals intend to remain in the same area and return to their homes upon reconstruction.
