The information included in this report was collected from 2019-10-09 to 2019-10-16.

**Site Information**

- **Site Classification:** Resettlement Site (planned)
- **Site type:** Open
- **Site Opening Date:** 2017-04-30
- **Province:** Sofala
- **District:** Nhamatanda
- **Post:** Nhamatanda
- **Locality:** Vila De Nhamatanda

![Demographic Pie Chart]

- **Age Range:**
  - < 1: 2%
  - 1 - 5: 6%
  - 6 - 17: 19%
  - 18 - 59: 14%
  - 60+: 2%

- **Gender:**
  - % Male: 57%
  - % Female: 43%

- **Site Status:**
  - Is there a Site Management Committee at the site? Yes
  - Is there a Site Management Agency at the site? Yes
  - Name of Site Management Agency: IOM
  - Is there a Site Management Committee at the site? Yes
  - Site Status: Open

**Households**

- **Number:** 163

**Needs**

- **First need:** Shelter
- **Second need:** Agricultural inputs
- **Third need:** Food

**Vulnerabilities**

- **Pregnant women:** 15
- **Breastfeeding mothers:** 65
- **Mental/Physical disability:** 14
- **Chronic diseases:** 14
- **Elderly without care givers:** 47
- **Single female head of household:** 90
- **Single male headed of household:** 20
- **Elderly head of household:** 0

**Land Tenure**

- **Number of Households owning land in place of origin:** 160
- **Number of Households owning land in place of origin:** 3

**Shelter**

- **Top one NFI need not accessible to IDPs:** Mosquito nets
- **Top two NFI need not accessible to IDPs:** Items for sleeping (mats, blankets,...)
- **Top three NFI need not accessible to IDPs:** Hygiene products (for personal hygiene)

**Food Security**

- **Do most people have access to functioning market?** Yes
- **None**
- **Do most people have access to farming lands?** Yes
- **No**
- **How far is the farming lands?** 2-3 hrs

**Education**

- **Majority of the school age children have access to a functioning school?** Yes
- **Don't know**
- **Number of school age children attending school:** 414
- **Walking time to the nearest education facility:** Less than 15 minutes

**Mobility**

- **Are the majority of the population living on this site?** Yes
- **Don't know**
- **Why is the majority of the population not living on site?**
- **Province of Origin:** Sofala
- **District of Origin:** Nhamatanda
- **Post of Origin:** Nhamatanda
- **Locality of Origin:** Vila De Nhamatanda

**Wash**

- **Main source of drinking water:** Hand pumps
- **Main problem with water:** None
- **Average daily water consumption per person:** > 15 ltr
- **Average wait time for water:** Less than 15 minutes
- **Number of functional latrines at site:** 163
- **Is there functional bathing space at site?** Yes
- **How clean you think the site is in terms of waste?** 3. More or less clean
- **Do people live in areas where open defecation is frequently visible?** No

**Health**

- **Availibility of healthcare services on site:** Yes
- **Number of functioning healthcare facilities:** 1
- **Do people have access to healthcare services?** Yes
- **Time to reach the nearest health facility:** Less than 15 minutes
- **Why people don't have access to health care?** None
- **Is medicines available for majority of the population?** Yes
- **During their pregnancy, are most women seeing a health professional?** Yes
- **Do populations with HIV know where to go to seek treatment and care?** Yes
- **Has cholera been reported at this site since the cyclone?** Yes
- **When was the last case reported?** None

**Protection**

- **Is there a Site Management Committee at the site?** Yes
- **Is there a Site Management Agency at the site?** Yes
- **Name of Site Management Agency:** IOM
- **Is there a Site Management Committee at the site?** Yes
- **Site Status:** Open

**Community Engagement**

- **Top 3 ways population communicates with humanitarian partners:** Staff from humanitarian agencies Call centre /hotline
- **Top 3 ways humanitarian partners communicates with population:** Staff from humanitarian agencies Call centre /hotline

Households 320

- First need: Water
- Second need: Improved Homes
- Third need: Health

Top need:
- Food Security
- Shelter
- Water

Top one NFI need not accessible to IDPs: Closed containers to transport and/or store water
Top two NFI need not accessible to IDPs: Items for sleeping (mats, blankets,..)
Top three NFI need not accessible to IDPs: Cooking items (pots/pans)

Number of Household living outdoors: 0
Number of Household living in emergency shelter: 320
Number of Household living in permanent shelter: 0

VULNERABILITIES
- Pregnant women: 0
- Breastfeeding mothers: 0
- Mental/Physical disability: 2
- Chronic diseases: 5
- Elderly without care givers: 5
- Single male head of household: 0
- Single male headed of household: 0
- Elderly head of household: 10

Number of Household owning land in place of origin: 320
Number of Household renting land in place of origin: 0

WASH
- Main source of drinking water: Hand pumps
- Main problem with water: Long waiting time (queues)
- Average daily water consumption per person: > 15 ltr
- Average wait time for water: Between 31 and 60 minutes
- Number of functional latrines at site: 320
- Is there functional bathing space at site?: Yes
- Is there hand washing stations with water and soap close to latrines/bathing space?: Yes
- How clean you think the site is in terms of waste?: 2. Clean
- Do people live in areas where open defecation is frequently visible?: No

HEALTH
- Availability of healthcare services on site: No
- Number of functioning healthcare facilities: 0
- Do people have access to healthcare services?: Yes
- Time to reach the nearest health facility: More than 60 minutes
- Why people don’t have access to healthcare?: None
- Is medicines available for majority of the population?: No
- During their pregnancy, are most women using a health professional?: Yes
- Do populations with HIV know where to go to seek treatment and care?: Yes
- Do people know where to go to seek Tuberculosis treatment and care?: Yes
- Has cholera been reported at this site since the cyclone?: No
- When was the last case reported?: None

PROTECTION
- Is there security provider/mechanism that ensure safety of persons at the location?: Yes
- Is there a mechanism for referral for GBV survivors?: Unknown
- Is there a support mechanism for psychosocial needs of the population?: No

### SHELTER

- Top one NFI need not accessible to IDPs: Closed containers to transport and/or store water
- Top two NFI need not accessible to IDPs: Hygiene products (for personal hygiene)
- Top three NFI need not accessible to IDPs: None
- Number of Household living outdoors: 0
- Number of Household living in emergency shelter: 660
- Number of Household living in permanent shelter: 0

### FOOD SECURITY

- Do most people have access to functioning market? Yes
- Why do people have access to market? None
- Have people received food from a distribution at site? Yes
- When was the latest food distribution at this site? Last 7 days
- Do most people have access to farming land? Yes
- How far is the farming land? <1 hr

### EDUCATION

- Majority of the school age children have access to a functioning school: Yes
- Why school age children don't have access to education facility? Don't know
- Number of school age children attending school: 95
- Walking time to the nearest education facility: 16 - 30 minutes

### MOBILITY

- Are the majority of the population living on this site? Yes
- Why is the majority of the population not living on site? Don't know

### WASH

- Main source of drinking water: Hand pumps
- Problems with water: None
- Average daily water consumption per person: > 15 ltr
- Average wait time for water: Less than 15 minutes
- Number of functioning latrines at site: 660
- Is there functional bathing space at site? Yes
- How clean do you think the site is in terms of water? 2. Clean
- Do people live in areas where open defecation is frequently visible? No

### HEALTH

- Availability of healthcare services on site: No
- Number of functioning healthcare facilities: 0
- Do people have access to healthcare services? Yes
- Time to reach the nearest health facility: More than 60 minutes
- Why don't people have access to healthcare? None
- Is medicines available for majority of the population? Yes
- During their pregnancy, are most the women using a health professional? Yes
- Do populations with HIV know where to go to seek treatment and care? Yes
- Do people know where to go to seek Tuberculosis treatment and care? Yes
- Has cholera been reported at this site since the cyclone? No
- When was the last case reported? None

### PROTECTION

- Is there security provider/mechanism that ensure safety of persons at the location? Yes
- Is there a mechanism for referral for GBV survivors? Yes
- Is there a support mechanism for psychosocial needs of the population? Yes

### COMMUNITY ENGAGEMENT

Top 3 ways population communicates with humanitarian partners: Radio programme in-calls Community leader or group
Top 3 ways humanitarian partners communicate with population: Community leader or group Other, please specify:

## HOUSEHOLDS

- **160**

### Need

- Food
- Shelter
- Education

### Vulnerabilities

- Pregnant women: 10
- Breastfeeding mothers: 25
- Mental/Physical disability: 5
- Chronic diseases: 6
- Elderly without care givers: 11
- Single female head of household: 23
- Male head of household: 4
- Elderly head of household: 0

### Mobility

- Are the majority of the population living on this site? Yes
- Why is the majority of the population not living on site? Don’t know

**NOTE:** The information included in this report was collected from 2019-10-09 to 2019-10-16.

---

## INDIVIDUALS

- **915**

### Need

- Food
- Shelter
- Education

### Vulnerabilities

- Pregnant women: 10
- Breastfeeding mothers: 25
- Mental/Physical disability: 5
- Chronic diseases: 6
- Elderly without care givers: 11
- Single female head of household: 23
- Male head of household: 4
- Elderly head of household: 0

### Mobility

- Are the majority of the population living on this site? Yes
- Why is the majority of the population not living on site? Don’t know

**NOTE:** The information included in this report was collected from 2019-10-09 to 2019-10-16.
## Households

**Total:** 217

### NEED
- **First need:** Education
- **Second need:** Health
- **Third need:** Shelter

### VULNERABILITIES
- **Pregnant women:** 12
- **Breastfeeding mothers:** 15
- **Mental/Physical disability:** 9
- **Chronic diseases:** 0
- **Elderly without care giver:** 0
- **Single female head of household:** 14
- **Single male headed of household:** 0
- **Elderly head of household:** 0

### FOOD SECURITY
- **Do most people have access to functioning market?** No
- **Why people don't have access to market?** There is no market
- **Have people received food from a distribution at site?** Yes
- **When was the latest food distribution at this site?** Last 7 days
- **Do most people have access to farming lands?** Yes
- **How far is the farming lands?** 2-3 hrs

### SHELTER
- **Number of Household living outdoors:** 0
- **Number of Household living in emergency shelter:** 217
- **Number of Household living in permanent shelter:** 0

### EDUCATION
- **Majority of the school age children have access to a functioning school:** No
- **Why school age children don't have access to education facility!** Going to Dombe
- **Number of school age children attending school:** None
- **Walking time to the nearest education facility:** None

### COMMUNITY ENGAGEMENT
- **Locality of Origin:** Metchisso
- **Post of Origin:** Dombe
- **District of Origin:** Sussundenga
- **Province of Origin:** Manica
- **Site Location:** 19.841°, 33.491°

## Individuals

**Total:** 762

### VULNERABILITIES
- **Is there a Site Management Committee at the site?** Yes
- **Is there a Site Management Agency at the site?** Yes
- **None of Site Management Agency**
- **Is there a service provider contact list?** Yes
- **Is the site physically accessible?** Yes
- **Is the site safe and secure?** Yes

### LAND TENURE
- **Number of Household owning land in place of origin:** 217
- **Number of Household renting land in place of origin:** 0

### WASH
- **Main source of drinking water:** Hand pumps
- **Main problem with water:** None
- **Average daily water consumption per person:** > 15 ltr
- **Average wait time for water:** No wait
- **Number of functional latrines at site:** 3
- **Is there functional bathing space at site?** Yes
- **Is there hand washing stations with water and soap close to latrines/bathing space?** Yes
- **How clean you think the site is in terms of waste?** 3. More or less clean
- **Do people live in areas where open defecation is frequently visible?** Yes

### EDUCATION
- **Time to reach the nearest health facility:** None
- **Why people don't have access to healthcare?** Going to Dombe
- **Is medicines available for majority of the population:** No
- **During their pregnancy, are most women seeing a health professional:** No
- **Do people know where to go to seek Tuberculosis treatment and care?** Unknown
- **Do people know where to go to seek HIV treatment and care?** No
- **Has cholera been reported at this site since the cyclone?** Yes
- **When was the last case reported?** 2019-06-01

### PROTECTION
- **Is there security provider/mechanism that ensure safety of persons at the location?** Yes
- **Is there a Site Management Committee at the site?** Yes
- **Is there a mechanism for referral for GBV survivors?** No
- **Is there a Site Management Agency at the site?** Yes

### MOBILITY
- **Are the majority of the population not living on site?** No
- **Why is the majority of the population not living on site?** Lack of livelihood Plots has not been allocated Other, please specify:

FOOD SECURITY

Do most people have access to functioning market? Yes
Do most people have access to farming lands? Yes
How far is the farming lands? <1 hr

EDUCATION

Majority of the school age children have access to a functioning school: Yes
Number of school age children attending school: 100
Walking time to the nearest education facility: 31 - 60 minutes

MOBILITY

Are the majority of the population living on this site? Yes
Why is the majority of the population not living on site? Don't know

LAND TENURE

Number of Household renting land in place of origin: 0
Number of Household owning land in place of origin: 370

WASH

Main source of drinking water: None
Average daily water consumption per person: Unknown
Average wait time for water: Less than 15 minutes
Number of functional latrines at site: 265
Is there functional bathing space at site? Yes
Is there hand washing stations with water and soap close to latrines/bathing space? Yes
How clean you think the site is in terms of waste? 1. Very clean
Do people live in areas where open defecation is frequently visible? No

HEALTH

Availability of healthcare services on site: No
Number of functioning healthcare facilities: 0
Time to reach the nearest health facility: More than 60 minutes
Why people don't have access to healthcare? None
Is medicines available for majority of the population: Do not know/ No answer
During their pregnancy, are most women using a health professional? Yes
Do populations with HIV know where to go to seek treatment and care? Yes
Do people know where to go to seek Tuberculosis treatment and care? Yes
Has cholera been reported at this site since the cyclone? No
When was the last case reported? None

PROTECTION

Is there security provider/mechanism that ensure safety of persons at the location? No
Is there a mechanism for referral for GBV survivors? No
Is there a support mechanism for psychosocial needs of the population? No

COMMUNITY ENGAGEMENT

Top 3 ways population communicates with humanitarian partners: Radio programme in-calls Suggestion box Local government office
Top 3 ways humanitarian partners communicates with population: Community volunteer/mobilizers Local government office Other, please specify:
