

The purpose of the Emergency Tracking Tool is to gather information on large and sudden movements of populations. The information is collected through interviews with key informants or direct observations. This report presents information on movements that took place on 18 November 2019 in the town of Faya. These movements were observed at DTM Flow Monitoring Points (FMP) set up in Faya.

**Date of collection :** 18 november 2019  
**Type of locations assessed :** Town  
**Number of location assessed :** 1

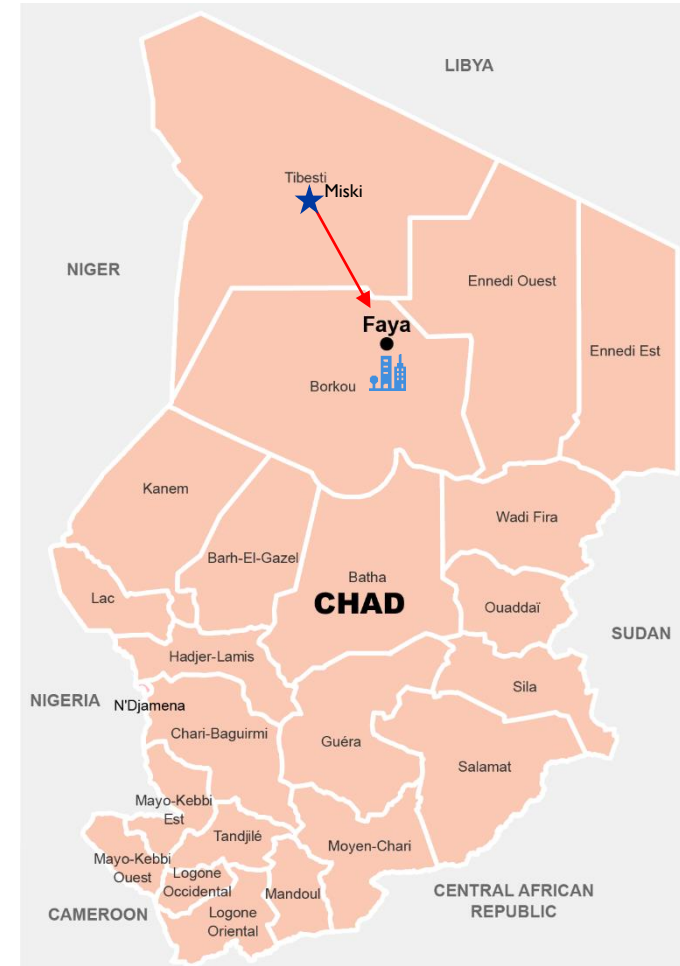

- Province
- Departure location
- Direction of flow
- Host city

## SUMMARY OF EVENT

Following the closure of gold mines in the town of Miski, 334 gold miners (all of them men) were transported to Faya on board vehicles made available by authorities. These individuals are almost all Chadian nationals and mostly from the Eastern part of the country (Adré, Hadjer Hadid and Farchana). Several mines have been closed in Miski and it is very likely that these flows will continue in the coming weeks. They could affect more than 3,000 people.

## NEW DISPLACEMENT OBSERVED 334 Individuals

- LOCATION :** Town of Faya
- DATE OF MOVEMENT :** 18 November 2019
- HOST LOCATION :** Town
- REASON FOR MOVEMENT:** Closure of the gold mines
- TYPE OF MOVEMENT :** Organized
