The objective of the Emergency Tracking Tool (ETT) is to collect information on large and sudden population movements. Information is collected through key informant interviews or direct observation. This dashboard provides information on movements which occurred on 1st January 2020 in one village of Lac Province.

**SUMMARY OF EVENT**

Following attacks by armed groups on 23 December 2019 close to the village of Kinassorom, which is located on an island of Lake Chad, in the département of Mamdi (sous-prefecture of Kangalam), security forces were deployed in this village. Consequently, a number of households moved to Kinassorom to benefit from the security forces' protection (see ETT #34). However, these security forces recently withdrew from this village. As a result, 50 households of 300 individuals from the village of Kallerom, located around Kinassorom, for fear of new attacks by armed groups left for the village of Koulfoua, located on a separate island of Lake Chad, in the sous-préfecture of Kangalam (in the same département of Mamdi). Security forces are present in this village on a permanent basis.

**DISPLACED POPULATION** : 300 Internally Displaced Persons, 50 households (estimates)

**LOCATION** : Koulfoua

**DATE OF MOVEMENT** : 1 January 2020

**HOST LOCATION** : Village

**REASON FOR MOVEMENT** : Preventive

**MEANS OF TRANSPORT** : Boat

**AVAILABLE ASSISTANCE** : None

**PRIORITY NEEDS**

1. Shelter
2. Food
3. Non-Food Items
4. Health
5. Protection
