### Vulnerabilities

- **First need:** 26 Elderly without care givers
- **Second need:** 72 Single female head of household
- **Third need:** 86 Elderly head of household

### Shelters

- Closed containers to transport and/or store water
- Mosquito nets
- Cooking stoves
- 0
- 50
- 360
- 1,321

### Food Security

- Do most people have access to functioning markets? Yes
- Why don’t people have access to market? 
- Have people received food from a distribution at site? Yes
- When was the latest food distribution at this site? Last week
- Do most people have access to farming lands? Yes
- How far is the farming lands? <1 hr

### Education

- Majority of the school age children have access to a functioning school: Yes
- Is the school functional (brick walls, windows, doors, writing board)? No
- Number of school age children attending school: 480
- Walking time to the nearest education facility: 31 - 60 minutes

### Mobility

- Are the majority of the population living on this site? Yes
- Province of Origin: Sofala
- District of Origin: Buzi
- Locality of Origin: Bandua

### Community Engagement

- Top 3 ways humanitarian partners communicate with population: Radio programmes in calls, Community leader or group, Suggestion box
- Top 3 ways humanitarian partners communicate with humanitarian partners: Radio, Religious, Leader or group, Community leader or group
- Literacy level of majority of households: Neither read or write
- Does majority of family members have legal documentation? No

### Health

- Is there a Site Management Committee at the site? Yes
- Is there a Site Management Agency at the site? Yes
- Are the majority of the population living on site? Yes
- Is the site physically accessible? No
- Is there any possibility to become inaccessible in event of disaster? Yes
- Is the site safe and secure? Yes

### Security

- Main source of drinking water: Tanks
- Main problem with water: None
- Average daily water consumption per person: 5 - 10 ltr
- Average time for water: Less than 15 minutes
- Number of functional latrines at site: 480
- Is there functional toilet space at site? Yes
- Is there hand washing stations with water and soap close to latrines/bathing space? Yes, but without soap
- How clean you think the site is in terms of waste? More or less clean
- Do people live in areas where open defecation is frequently visible? No

### Site Information

**Note:** The demographic have been obtained by using the demographic calculation method.
The information included in this report was collected from 06/11/2019 to 13/11/2019.

Households: 30
Indigenous: 133

NEED
First need: Food
Second need: Water
Third need: Shelter

VULNERABILITIES
Pregnant women: 0
Breastfeeding mothers: 0
Mental/Physical disability: 1
Chronic diseases: 0
Elderly without care givers: 1
Single female head of household: 0
Single male headed household: 1
Elderly head of household: 1

SHELTER
Top one NFI need not accessible to IDPs: Mosquito nets
Top two NFI need not accessible to IDPs: Cooking items (pots/pans)
Top three NFI need not accessible to IDPs: Soap/detergent for washing clothes
Number of Household living outdoors: 0
Number of Household living in emergency shelter: 30
Number of Household living in permanent shelter: 0

FOOD SECURITY
Do most people have access to functioning market? No
Why people don't have access to market? Other
Have people received food from a distribution at site? Yes
When was the latest food distribution at this site? Last two weeks
Do most people have access to farming lands? Yes
How far is the farming lands? 1-2 hrs

EDUCATION
Majority of the school age children have access to a functioning school: Yes
Is the school functional (brick walls, windows, doors, writing board)? No
Number of school age children attending school: 21
Walking time to the nearest education facility: More than 60 minutes

MOBILITY
Are the majority of the population living on this site? No
Province of Origin: Manica
District of Origin: Sussundenga
Pass of Origin: Dombe
Locality of Origin: Mocuba

COMMUNITY ENGAGEMENT
Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies, Community leader or group, Local government office
Top 3 ways humanitarian partners communicates with population: Staff from humanitarian agencies, Community leader or group, Local government office
Literary level of majority of households: Neither read or write
Does majority of family members have legal documentation? No

LAND TENURE
Number of Household owning land in place of origin: 30

WASH
Main source of drinking water: Hand pumps
Main problem with water: None
Average daily water consumption per person: Unknown
Average time for water: Between 16 and 30 minutes
Number of functional latrines at site: 2
Is there functional bathing space at site? Yes
Is there hand washing stations with water and soap close to latrines/bathing space? None
How clean you think the site is in terms of waste: 3. More or less clean
Do people live in areas where open defecation is frequently visible? Yes

HEALTH
Availability of healthcare services on site: No
If yes, which type? N/A
Number of functioning healthcare facilities: N/A
Do people have access to healthcare services: There is no healthcare facility
Time to reach the nearest health facility: N/A
Why people don't have access to healthcare: There is no healthcare facility
Is medicines available for majority of the population? No
During their pregnancy, are most women seeing a health professional? No
Do populations with HIV know where to go to seek treatment and care? No
Do people know where to go to seek Tuberculosis treatment and care? Unknown
Has cholera been reported at this site since the cyclone? No
How many weeks ago was the last case reported? N/A

PROTECTION
Is there a Site Management Committee at the site? Yes
Is there a Site Management Agency at the site? Yes
Are the majority of the population living on site? No
Is the site physically accessible? Yes
Is there any possibility to become inaccessible in event of disaster? Yes
Is the site safe and secure? Yes

#### Education

- **Majority of the school age children have access to a functioning school:** Yes
- **Is the school functional (brick walls, windows, doors, writing board):** No
- **Number of school age children attending school:** 338
- **Walking time to the nearest education facility:** More than 60 minutes

- **Do people live in areas where open defecation is frequently visible?** No

#### Mobility

- **Are the majority of the population living on site?** Yes
- **Is the site physically accessible?** Yes
- **Is there any possibility to become inaccessible in case of disasters?** Yes

#### Community Engagement

- **Top 3 ways population communicates with humanitarian partners:** Religious Leader or group, Community leader or group, Local government office
- **Is there a Site Management Committee at the site?** Yes
- **Is there a Site Management Agency at the site?** No
- **Is the site physically accessible?** Yes
- **Are the majority of the population living on site?** Yes
- **Is there any possibility to become inaccessible in case of disasters?** Yes
- **Is the site safe and secure?** Yes

#### Vulnerabilities

- **Is there a mechanism for referral for GBV survivors?** Yes
- **Do people have access to healthcare services: Number of functioning healthcare facilities:** 1
- **Available of healthcare services on site:** Yes
- **Do populations with HIV know where to go to seek treatment and care?** Yes
- **During their pregnancy, are most women seeing a health professional?** Yes
- **Is there a Site Management Committee at the site?** Yes
- **Is there a Site Management Agency at the site?** No
- **Is the site physically accessible?** Yes
- **Are the majority of the population living on site?** Yes
- **Is there any possibility to become inaccessible in case of disasters?** Yes
- **Is the site safe and secure?** Yes

#### Need

- **First need:** Food
- **Second need:** Latrines
- **Third need:** Healthcare

#### WASH

- **Main source of drinking water:** Lake/Dam
- **Main problem with water:** Sod/Dir
- **Average daily water consumption per person:** > 15 ltr
- **Average time to fetch water:** No wait

- **Is there hand washing stations with water and soap close to latrines/bathing space?** Yes
- **How clean you think the site is in terms of waste:** None
- **Is there a Site Management Committee at the site?** Yes
- **Is there a Site Management Agency at the site?** No
- **Is the site physically accessible?** Yes
- **Are the majority of the population living on site?** Yes
- **Is there any possibility to become inaccessible in case of disasters?** Yes
- **Is the site safe and secure?** Yes

#### Land Tenure

- **Number of Household owning land in place of origin:** 376
- **Number of Household owning land in place of origin:** 376

#### Protection

- **Is there a Site Management Committee at the site?** Yes

### Shelter

- **Top one NFI need not accessible to IDPs:** Closed containers to transport and/or store water
- **Top two NFI need not accessible to IDPs:** None
- **Top three NFI need not accessible to IDPs:** None
- **Number of Household living outdoors:** 21
- **Number of Household living in emergency shelter:** 3
- **Number of Household living in permanent shelter:** 18

### Food Security

- **Do most people have access to functioning market?** Yes
- **Why people don't have access to market?** N/A
- **When was the latest food distribution at this site?** More than three weeks
- **How far is the nearest market?** 1-2 km

### Education

- **Majority of the school age children have access to a functioning school:** Yes
- **Is the school functional (brick walls, windows, doors, writing board)?** Yes
- **Number of school age children attending school:** 32
- **Walking time to the nearest education facility:** Less than 15 minutes

### Mobility

- **Are the majority of the population living on this site?** Yes
- **Provincial Origin:** Zambezia
- **District Origin:** Nhamacurra
- **Post of Origin:** Nhamacurra
- **Locality of Origin:** Nhamacurra

### Community Engagement

- **Top 3 ways population communicates with humanitarian partners:** Religious Leader or group
- **Top 3 ways humanitarian partners communicates with population:** Religious Leader or group, Cell centre (hotline)
- **Literacy level of majority of households:** Read and write moderately

### Land Tenure

- **Number of Household owning land in place of origin:** 0
- **Number of Household owning land in place of origin:** 42

### Wash

- **Main source of drinking water:** Hand pumps
- **Main problem with water:** None
- **Average daily water consumption per person:** Unknown
- **Average time for water:** No wait
- **Number of functional latrines at site:** 152
- **Is there functional bathing space at site?** Yes
- **How clean you think the site is in terms of waste?** 3. More or less clean
- **Do people live in areas where open defecation is frequently visible?** Yes

### Health

- **Availability of healthcare services on site:** Yes
- **If yes, which type?** On site clinic
- **Number of functioning healthcare facilities:** 1
- **Do people have access to healthcare services:** N/A
- **Time to reach the nearest health facility:** 16 - 30 minutes
- **Why people don't have access to healthcare?** N/A

- Is there a Site Management Agency at the site?: Yes
- Are the majority of the population living on site?: Yes
- Is the site physically accessible?: Yes

#### Security
- Is there a support mechanism for psychosocial needs of the population?: Yes
- Is the site safe and secure?: Yes

### Households
- **30**

#### Need
- **Water:**
  - Curtain containers to transport and store water
  - Mosquito nets

#### Vulnerabilities
- Pregnancy women:
- Breastfeeding mothers:
- Mental/Physical disability:
- Chronic diseases:
- Elderly without caregivers:
- Single female head of household:
- Single male head of household:
- Elderly head of household:

#### Land Tenure
- **30**
- Number of Household owning land in place of origin:

#### Wash
- Main source of drinking water:
- Main problem with water:
- Average daily water consumption per person:
- Average time for water:
- Number of functional latrines at site:
- Is there functional bathing space at site?
- Is there hand washing stations with water and soap close to latrines/bathing space?
- How clean do you think the site is in terms of waste?
- Do people live in areas where open defecation is frequently visible?

#### Health
- Availability of healthcare services on site:
- If yes, which type?
- Number of functional healthcare facilities:
- Do people have access to healthcare services?
- Time to reach the nearest health facility:
- Why do people not have access to healthcare services?
- Is medicine available for majority of the population?
- During their pregnancy, are most women seeing a health professional?
- Do populations with HIV know where to go to seek treatment and care?
- Do people know where to go to seek tuberculosis treatment and care?
- Has cholera been reported at this site since the cyclone?
- How many weeks ago was the last case reported?

#### Protection
- Is there a mechanism for referral for GBV survivors?: No
- Is there a support mechanism for psychosocial needs of the population?: No
- Does the women’s, men, and girls and boys know where to seek help in cases of violation?: No
- Main reasons survivors could not find help?: Lack of existing services; shame on reporting the situation; fear of retaliation from the violator

### Individuals
- **134**

#### Food Security
- Do most people have access to functioning market?
- Why people don’t have access to market?
- Have people received food from a distribution at site?
- When was the last food distribution at this site?

- **Is the site safe and secure?** Yes
- **Is there any possibility to become inaccessible in case of disaster?** No
- **Is the site safe and secure?** Yes

### Households

- **141**

### Individuals

- **1,058**

### NEED

- **First need:** Water
- **Second need:** Healthcare
- **Third need:** Shelter

### SHELTER

- **Top one NFI need not accessible to IDPs:** Closed containers to transport and/or store water
- **Top two NFI need not accessible to IDPs:** Shoes and clothes
- **Top three NFI need not accessible to IDPs:** Cooking items (pots/pans)
- **Number of Household living outdoors:** 0
- **Number of Household living in emergency shelter:** 141
- **Number of Household living in permanent shelter:** 0

### FOOD SECURITY

- **Do most people have access to functioning market?** No
- **Why don't people have access to market?** Other
- **Have people received food from a distribution at site?** Yes
- **When was the last food distribution at this site?** Last two weeks
- **Do most people have access to farming lands?** Yes
- **How far is the farming lands?** 1-2 hrs

### EDUCATION

- **Majority of the school age children have access to a functioning school:** Yes
- **Is the school functional (brick walls, windows, doors, writing board)?** Yes
- **Number of school age children attending school:** 0
- **Walking time to the nearest education facility:** 31 - 60 minutes

### MOBILITY

- **Are the majority of the population living on site?** Yes
- **Province of Origin:** Manica
- **District of Origin:** Sussundenga
- **Pass of Origin:** Dombe
- **Locality of Origin:** Malagala

### COMMUNITY ENGAGEMENT

- **Top 3 ways population communicates with humanitarian partners:** Staff from humanitarian agencies, Community leader or group, Local government office
- **Top 3 ways humanitarian partners communicates with population:** Staff from humanitarian agencies, Community leader or group, Local government office
- **Literacy level of majority of households:** Neither read or write
- **Does majority of family members have legal documentation?** No

### VULNERABILITIES

- **Pregnant women:** 0
- **Breastfeeding mothers:** 0
- **Mental/Physical disability:** 0
- **Chronic diseases:** 0
- **Elderly without care givers:** 0
- **Single female head of household:** 0
- **Single male headed of household:** 0
- **Elderly head of household:** 0

### LAND TENURE

- **Number of Household owning land in place of origin:** 0
- **Number of Household owning land in place of origin:** 141

### WASH

- **Main source of drinking water:** Hand pumps
- **Main problem with water:** Long waiting time (queue)
- **AVERAGE DAILY WEAR CONSUMPTION PER PERSON:** > 15 ltr
- **AVG waiting time for water:** Between 31 and 60 minutes
- **NUMBER OF FUNCTIONAL BATHROOMS AT SITE:** 68
- **Is there functional bathing space at site?** Yes
- **Is there hand washing stations with water and soap close to latrines/bathing space?** Yes, but without soap
- **How clean do you think the site is in terms of waste?** J. Clean
- **Do people live in areas where open defecation is frequently visible?** No

### HEALTH

- **Availability of healthcare services on site:** No
- **If yes, which type?** N/A
- **Number of functioning healthcare facilities:** N/A
- **Are people able to access healthcare services?** There is no healthcare facility
- **Time to reach the nearest health facility:** N/A
- **Why people don't have access to healthcare?** There is no healthcare facility
- **Are medicines available for majority of the population?** No
- **During their pregnancy, are most women seeing a health professional?** Yes
- **Do populations with HIV know where to go to seek treatment and care?** Yes
- **Do people know where to go to seek Tuberculosis treatment and care?** Yes
- **Has cholera been reported at this site since the cyclone?** No
- **How many weeks ago was the last case reported?** N/A

### PROTECTION

- **Is there security provider mechanism that ensure safety of persons at the location?** Yes
- **Is there a mechanism for referral for GBV survivors?** Yes
- **Is there a support mechanism for psychosocial needs of the population?** No
- **Does the women's, men, girls and boys know where to seek help in case of violation?** Yes
- **Main reasons survivors could not find help?** Fear of retaliation from the violator

## Site Information

### Site Type:
- Open

### Site Classification:
- Resettlement Site

### Site Opening Date:
- 2019-01-01

### Province:
- Tete

### District:
- Cidade De Tete

### Post:
- Cidade De Tete

### Locality:
- Cidade De Tete

### Average water consumption per person:
- 23% < 1, 24 1 - 5, 23% 6 - 17, 10% 18 - 30, 3% 31 - 60, 1% 60+

### Age Range:
- Elderly head of household: Yes
- Single male headed of household: Yes
- Single female head of household: No

### Land Tenure:
- No

### Occupation:
- Yes

### Time to reach the nearest health facility:
- 1 - 5

### WASH
- Source of drinking water: Lagoons and waterways
- Main problem with water: Shortage for human consumption
- Average daily water consumption per person: 10 - 15 ltr
- Average time for water: Between 31 and 60 minutes
- Number of functional latrines at site: 5
- Is there functional bathing space at site: Yes
- Is there hand washing stations with water and soap close to latrines/bathing space: None
- How clean does the site in terms of waste: J. Clean

### Health
- Availability of healthcare services on site: Yes
- Main source of drinking water: Lagoons and waterways
- Do people have access to healthcare services: Yes
- Why don't people have access to healthcare services: N/A
- Is there a mechanism for referral for GBV survivors: Yes
- Number of women, men, girls and boys who know where to seek help in cases of violence: Yes
- Does the majority of the population live on this site: Yes

### Mobility
- Are the majority of the population living on this site: Yes
- Walking time to the nearest education facility: 31 - 60 minutes
- Are the majority of the population living in a permanent shelter: Yes
- Are the majority of the population living in an emergency shelter: No
- Number of housing units: 565

### Vulnerabilities
- Number of households: 565
- Number of individuals: 2,840
- Number of households living outdoors: 0
- Number of households living in emergency shelter: 0
- Number of households living in permanent shelter: 565
- Number of female-headed households: 0
- Number of male-headed households: 563
- Number of single female heads of household: 56
- Number of single male heads of household: 269
- Number of elderly female heads of household: 294
- Number of elderly male heads of household: 241

### Need
- Water
- Food
- Shelter
- Health
- Education
- Mobility
- Community Engagement

### Communication

### Households

**189**

- **First need:** Food
- **Second need:** Household items (NFI)
- **Third need:** Water

### Individuals

**935**

- **First need:** Food
- **Second need:** Household items (NFI)
- **Third need:** Water

### Shelters

- Top one NFI need not accessible to IDPs: Closed containers to transport and/or store water
- Top two NFI need not accessible to IDPs: Shoes and clothes
- Top three NFI need not accessible to IDPs: Cooking items (pots/pans)

### Food Security

- Do most people have access to functioning market? Yes
- Why do people don’t have access to market? N/A
- Have people received food from a distribution at site? Yes
- When was the last food distribution at this site? Last week
- Do most people have access to farming lands? Yes
- How far is the farming land? <1 hr

### Education

- Majority of the school age children have access to a functioning school Yes
- Is the school functional (brick walls, windows, doors, writing board)? No
- Number of school age children attending school: 189
- Walking time to the nearest education facility: Less than 15 minutes

### Mobility

- Are the majority of the population living on this site? Yes
- Province of Origin: Sofala
- District of Origin: Buzi
- Post of Origin: Estaquinha
- Locality of Origin: Maximedje

### Community Engagement

- Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies
- Top 3 ways humanitarian partners communicate with population: Community volunteers/mediators
- Literacy level of majority of households: Neither read or write
- Does majority of family members have legal documentation? No

**Are there a Health Management Committee at the site?** Yes

**Are there a Health Management Agency at the site?** Yes

**Are the majority of the population living on site?** No

**Is the site physically accessible?** Yes

**Is there a Site Management Agency at the site?** Yes

**Is there a Site Management Committee at the site?** Yes

**Is there any possibility to become inaccessible in case of disaster?** Yes

**Is the site safe and secure?** Yes

**Is there any security provider/mechanism that ensure safety of persons at the location?** Matarara No

**Have people received food from a distribution at site?** Matarara Yes

**Number of Household owning land in place of origin:** 217

**Number of Household renting land in place of origin:** 0

**Number of Household owning land in place of origin:** 0

**LAND TENURE**

**SHELTER**

Top one NFI need not accessible to IDPs:

- Items for sleeping (mats, blankets,..)

- Shoes and clothes

- Cooking items (pots/pans)

Number of Household living outdoors:

0

Number of Household living in emergency shelter:

213

Number of Household living in permanent shelter:

4

**FOOD SECURITY**

Do most people have access to functioning market? Yes

Do people have access to market? No

Do people have access to farming lands? Yes

How far is the farming lands? < 1 hr

**EDUCATION**

Majority of the school age children have access to a functioning school No

Is the school functional (brick walls, windows, doors, writing board) No

Number of school age children attending school N/A

Walking time to the nearest education facility: N/A

**MOBILITY**

Are the majority of the population living on this site? No

**COMMUNITY ENGAGEMENT**

Top 3 ways population communicates with humanitarian partners:

- Staff from humanitarian agencies, Community leader or group, Local government office

- Staff from humanitarian agencies, Community leader or group, Local government office

- Neither read or write

Does majority of family members have legal documentation? Yes

**VULNERABILITIES**

Pregnant women:

Breastfeeding mothers:

Elderly without caregiver:

12

15

9

**MAIN NEEDS**

Water

Healthcare

Education

**SHELTER**

- Items for sleeping (mats, blankets,..)

- Shoes and clothes

- Cooking items (pots/pans)

**FOOD SECURITY**

Do most people have access to functioning market? No

Do people have access to market? Yes

Do people have access to farming lands? Yes

How far is the farming lands? < 1 hr

- Staff from humanitarian agencies, Community leader or group, Local government office

- Staff from humanitarian agencies, Community leader or group, Local government office

- Neither read or write

Does majority of family members have legal documentation? Yes

**WASH**

Main source of drinking water:

- Hand pumps

- None

Average daily water consumption per person:

- > 15 ltr

Average was time for water:

- Less than 15 minutes

Number of functional latrines at site:

4

Is there functional bathing space at site?

Yes

Is there hand washing stations with water and soap close to latrines/bathing space?

Yes

How clean you think the site is in terms of waste?

- 3. More or less clean

**HEALTH**

Availability of healthcare services on site:

- No

If yes, which type?

- N/A

Number of functioning healthcare facilities:

- N/A

Do people have access to healthcare services:

- There is no healthcare facility

Time to reach the nearest health facility:

- N/A

Why people don’t have access to healthcare:

- There is no healthcare facility

Is medicines available for majority of the population? No

During their pregnancy, are most women seeing a health professional? Do not know/No answer

Do populations with HIV know where to go to seek treatment and care? Unknown

Do people where to go to seek Tuberculosis treatment and care? Unknown

Has cholera been reported at this site since the cyclone? Yes

How many weeks ago was the last case reported? 3

**PROTECTION**

Is there security provider/mechanism that ensures safety of persons at the location? Yes

Is there a mechanism for referral for GBV survivors? No

Is there a support mechanism for psychosocial needs of the population? No

Does the women’s, men, girls and boys know where to seek help in case of violation of their rights? No

Main reasons survivors could not find help? Shame on reporting the situation

- How far is the farming land? 2-3 km

### EDUCATION

- Majority of the school age children have access to a functioning school: Yes
- Is the school functional (brick walls, windows, doors, writing board)? No
- Number of school age children attending school: 0
- Walking time to the nearest education facility: 30 - 60 minutes

### MOBILITY

- Are the majority of the population living on this site? Yes
- Province of Origin: Manica
- District of Origin: Sussundenga
- Pass of Origin: Dombe
- Locality of Origin: Mabai

### COMMUNITY ENGAGEMENT

- Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies, Community leader or group, Local government office
- Top 3 ways humanitarian partners communicates with population: Staff from humanitarian agencies, Community leader or group, Local government office
- Literacy level of majority of households: Neither read or write
- Does majority of family members have legal documentation? No

**Gender of Head of Household:**
- Elderly head of household: Yes
- Single male headed of household: Yes
- Single female head of household: Yes
- Elderly without care giver: No
- Pregnant women: Yes
- Breastfeeding mothers: Yes
- Male: 15%
- Female: 85%

**Use of Water:**
- Main source of drinking water: Open well
- Main problem with water: Soil/Dirt
- Average daily water consumption per person: > 15 ltr
- Average time for water: More than 60 minutes
- Number of functional latrines at site: 0
- Number of functional bathing space at site: None
- Is there hand washing stations with water and soap close to latrines/bathing space? No
- How clean you think the site is in terms of waste? J. Clean
- Do people live in areas where open defecation is frequently visible? Yes

**Educational Facilities:**
- Time to reach the nearest education facility: 15 - 30 minutes
- Number of school age children attending school: 148
- Is the school functional (brick walls, windows, doors, writing board): Yes
- Is the school permanent (brick walls, windows, doors, writing board): Yes
- Is there a Site Management Agency at the site? Yes
- Is there a Site Management Committee at the site? Yes

**Healthcare Facilities:**
- Number of functioning healthcare facilities: 1
- Is there any possibility to become inaccessible in case of disaster? Yes
- Is there a healthcare facility? Yes
- Are the majority of the population living on site? Yes
- Is the site physically accessible? Yes
- Is there security provider/mechanism that ensure safety of persons at the location? Yes
- Do people have access to healthcare services: Yes
- Availability of healthcare services on site: Yes
- Do people have access to medicines: Yes
- Is medicines available for majority of the population: Yes
- During their pregnancy, are most women seeing a health professional? Yes
- How clean you think the site is in terms of waste? J. Clean
- Do most people have access to market? No
- Why people don’t have access to market? No money to purchase items
- Do people have access to functioning market? Yes
- Is there a support mechanism for psychosocial needs of the population? Yes
- Local government office
- Religious Leader or group, Community leader or group
- Mobile brigade

**WASH**

- Mosquito nets
- Items for sleeping (mats, blankets,..)
- Agricultural inputs
- Solid/Dirt

**Top three NFI need not accessible to IDPs:**
- Items for sleeping (mats, blankets,..)
- Mosquito nets
- Agricultural inputs

**LAND TENURE**

- Number of Household renting land in place of origin: 255
- Number of Household owning land in place of origin: 0

#### NEED

- **Food**
  - First need: Food
  - Second need: Shelter
  - Third need: Household items (MRI)
- **Primary Source of Income:**
  - 70% from agriculture
  - 30% from other sources

#### SHELTER

- Top one NFI need not accessible to IDPs: Mosquito nets
- Top two NFI need not accessible to IDPs: Cooking items (pots/pans)
- Top three NFI need not accessible to IDPs: Soap/detergent for washing clothes

#### FOOD SECURITY

- Do most people have access to functioning market?: Yes
- Why don’t people have access to market?: N/A
- Have people received food from a distribution at site?: No
- When was the last food distribution at this site?: 0
- Do most people have access to farming land?: Yes
- How far is the farming land?: 1-2 km

#### EDUCATION

- Majority of the school age children have access to a functioning school?: Yes
- Is the school functional (brick walls, windows, doors, writing board)?: Yes
- Number of school age children attending school?: 125
- Walking time to the nearest education facility?: 16 - 30 minutes

#### MOBILITY

- Are the majority of the population living on this site?: Yes
- Province of Origin: Zambezia
