Overview
This document represents a summary snapshot of monitoring activities conducted by IOM and border monitoring partners at the border between Haiti and the Dominican Republic. The monitoring was put in place following the movements observed at the border before and after the 17th June 2015 expiration of the registration component of the National Plan for the Regularization of Foreigners (PNRE1 in Spanish), established in the Dominican Republic. Monitoring of border movements began as of the first week of June 2015. Up until the 16th of June 2015, figures are based on partial observations of border crossing points (BCPs). The network was 100% operational as of July 2015. Due to budget constraints, IOM’s is now covering 50% of the border (50 BCPs) as of 1st September 2016.

CUMULATIVE HIGHLIGHTS2

Entry on Haitian Territory
Of all 166,742 individuals interviewed, 101,744 individuals declared having returned spontaneously to Haiti. While 28,372 individuals claimed to have been deported into Haitian territory by various DR authorities (Immigration, CESFRONT, Military etc.), 36,164 individuals have been officially deported by DR Immigration (DGM). 462 individuals were Assisted Voluntary Returns (AVR) carried out by IOM (Dominican Republic)

Destination and Intentions
When questioned regarding their intended destination, the following three communes have been most commonly indicated by returnees:
- Cornillons/Grand Bois as indicated by 9,559 households
- Anse-à-Pitres as indicated by 6,038 households
- Belladère as indicated by 5,544 households

Irrespective of the type of returns, the trends observed during previous Sitrep’s remain the same. The returnees have, most commonly, provided the following answers:
- Intention to stay with relatives (72.4%)
- Intention to rent a house (12.9%)
- Intention to stay with Friends (7.7%)
- Having nowhere to go (2.9%)

Individuals born in the Dominican Republic
Of all returnees, 10,347 households (corresponding to 39,745 individuals) have at least one member who claims to have been born in the DR. More specifically, this corresponds to a total of 21,706 individuals claiming to be born in the DR, 12,833 of whom were born before January 26th 2010. Subsequently, of the 1,428 cases (representing 4,514 individuals) verified by UNHCR, 2,125 individuals were confirmed as being born in the DR before January 26th 2010 and as such fall within UNHCR’s mandate. (Please refer to the UNHCR Statistical Update - dated September 8th 2016).

Family remaining in the Dominican Republic
When asked about remaining family members in the DR, 103,134 individuals (16,912 claimed deportees, 65,995 spontaneous returnees, 20,000 officially deported individuals and 227 assisted voluntary returns) have indicated still having family members remaining in the DR.

Further questioning regarding the status of these remaining families has revealed that 76.2% are Haitians without visa, 13.8% are Haitians with visa and 5.9% are Dominican citizens or have a Resident status.

Registration in the PNRE
Of the 100,410 households interviewed by the network, 5,886 households (representing 5.9% of the returnee population) declared having been registered in the Dominican PNRE. Of these 5,886 households, 87.9% returned spontaneously to Haiti, 9.0% claimed to have been deported and 3.1% has been officially deported into Haitian territory.

*The difference in figures between the current and previous SitRep is due the fact that the data reflects the date of entry into Haiti and not the date of the data entry into the database.

*The total weekly figures are comprised of all spontaneous returns and all deportations – including the officially deported individuals who did not agree to be registered but were still counted.

*The figures in this table correspond to the individuals who voluntarily accepted to be registered between Thursday 12th to Wednesday 18th January 2017 and data entered into IOM’s database.
