- Site type: Open
- Site Opening Date: 27 May 2019
- Province: Manica
- District: Sussundenga
- Post: Dombe
- Locality: Muoco

#### Vulnerabilities

- Mental/Physical disability: 8%
- Elderly without care givers: 6 - 17
- Elderly head of household: None
- Elderly head of household: None
- Breastfeeding mothers: None
- Chronic diseases: None

#### Shelter

- Number of Household living in permanent shelter: 28
- Number of Household living in emergency shelter: 66
- Number of Household living outdoors: 81

- Top one NFI need not accessible to IDPs: Items for sleeping (mats, blankets,..)
- Top two NFI need not accessible to IDPs: Closed containers to transport and/or store water
- Top three NFI need not accessible to IDPs: Cooking items (pots/pans)

#### Food Security

- Do most people have access to functioning schools? No
- Why school age children don't have access to education facility? Facility is not func
- Number of school age children attending school: None
- Walking time to the nearest education facility: None

#### Education

- Does the majority of the school age children have access to a functioning school? No
- Why school age children don't have access to education facility? Facility is not func
- Number of school age children attending school: None
- Walking time to the nearest education facility: None

#### Health

- Is medicines available for majority of the population: No
- Is the site physically accessible: Yes
- Is there a service provider contact list? None
- Are the majority of the population not living on site?: No
- Are the majority of the population not living on site?: No

#### Access to Healthcare Services

- During their pregnancy, are most women seeing a health professional?: No
- Is population with HIV know where to go to seek treatment and care?: Yes
- Has cholera been reported at this site since the cyclone?: No
- Do most people have access to healthcare?: Yes
- Do most people have access to functioning market?: No

#### Mobility

- Are the majority of the population living on this site?: Yes
- Why the majority of the population not living on site?: Don't know

#### Land Tenure

- Number of Household renting land in place of origin: None
- Number of Household owning land in place of origin: None

#### WASH

- Main source of drinking water: Hand pumps
- Average daily water consumption per person: 10 - 15 ltr
- Average wait time for water: More than 60 minutes
- Number of functioning latrines at site: Yes
- Is there functional bathing space at site?: Yes, but without soap
- How clean you think the site is in terms of waste?: 2. Clean

#### Community Engagement

- Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies Religious Leader or group
- Top 3 ways humanitarian partners communicates with population: Community leader or group

### Households

- Individuals: 359
- Households: 97

#### Need

- First need: Food
- Second need: Picks
- Third need: Water

#### Mobility

- Are the majority of the population not living on site?: Yes
- Why the majority of the population not living on site?: Don't know

#### Land Tenure

- Number of Household renting land in place of origin: None
- Number of Household owning land in place of origin: None

#### WASH

- Main source of drinking water: Hand pumps
- Average daily water consumption per person: 10 - 15 ltr

### Top 3 NFI Need Not Accessible to IDPs

1. Cooking items (pots/pans)
2. Hygiene products (for personal hygiene)
3. Mosquito nets

### Top 2 NFI Need Not Accessible to IDPs

1. Hand pumps
2. Handwashing stations with water

### Top Need

1. Hand pumps
2. Handwashing stations with water

### Is there a Site Management Committee at the site?
- Yes

### Is there a Site Management Agency at the site?
- Yes

### LAND TENURE

- Number of Household renting land: 0
- Number of Household owning land: 217

### HOUSEHOLDS

- Total: 764
- Male: 370
- Female: 401

### VULNERABILITIES

- Pregnant women: 12
- Breastfeeding mothers: 15
- Mental/Physical disability: 9
- Chronic diseases: 0
- Elderly without care: 0
- Single female headed of household: 14
- Single male headed of household: 0
- Elderly headed of household: 0

### MOBILITY

- Province of Origin: Manica
- District of Origin: Sussundenga
- Post of Origin: Dombe
- Locality of Origin: Matalaca

### COMMUNITY ENGAGEMENT

- Staff from humanitarian agencies Community leader or group Local government office

### EDUCATION

- Does the majority of the school age children have access to a functioning school?
  - No
- Why school age children don’t have access to education facility?
  - Never had school
- Number of school age children attending school: None
- Walking time to the nearest education facility: None

### SHELTER

- Number of Household living outdoors: 0
- Number of Household living in emergency shelter: 217
- Number of Household living in permanent shelter: 0

### FOOD SECURITY

- People don’t have access to market?
  - No
- Why people don’t have access to market?
  - Never have, the people have to go to Dombe
- People received food from a distribution at site?
  - Yes
- When was the last food distribution at this site?
  - Last 7 days
- People have access to farming lands?
  - Yes
- How far is the farming lands?
  - <1 hr

### WASH

- Main source of drinking water: None
- Main problem with water: Unknown
- Average daily water consumption per person: 2 liters
- Average wait time for water: No wait
- Number of functional latrines at site: 3
- Is there functional bathing space at site?
  - Yes
- Is there hand washing stations with water and soap close to latrines/bathing space?
  - Yes
- How clean you think the site is in terms of waste?
  - 3. More or less clean
- Do people live in areas where open defecation is frequently-visible?
  - Yes

### HEALTH

- Availability of healthcare services on site: No
- Number of functioning healthcare facilities: 0
- Do people have access to healthcare services?
  - No
- Time to reach the nearest health facility: Never had, go to Dombe
- Why people don’t have access to healthcare?
  - Never had, go to Dombe
- Is medicines available for majority of the population?
  - No
- During their pregnancy, are most women using a health professional?
  - No
- Do populations with HIV know where to go to seek treatment and care?
  - Unknown
- Do people know where to go seek Tuberculosis treatment and care?
  - No
- Has cholera been reported at this site since the cyclone?
  - No
- When was the last case reported?
  - None

### MOBILITY

- Are the majority of the population not living on site?
  - No
- Why is the majority of the population not living on site?
  - Plots have not been allocated

### PROTECTION

- Is there security provider/mechanism that ensure safety of persons at the location?
  - Yes
- Is there a mechanism for referral for GBV survivors?
  - No
- Is there a support mechanism for psychosocial needs of the population?
  - No

### NEED

#### Shelter
- Top one NFI need not accessible to IDPs: Closed containers to transport and /or store water
- Top two NFI need not accessible to IDPs: Items for sleeping (mats, blankets,..)
- Top three NFI need not accessible to IDPs: Cooking items (pots/pans)

#### Food Security
- Do most people have access to functioning market? No
- Why people don’t have access to market? Do not exist market
- Have people received food from a distribution at site? Yes
- When was the latest food distribution at this site? More than two weeks
- How far is the farming lands? 1-2 hrs

#### Education
- Does the majority of the school age children have access to a functioning school? Yes
- Why school age children don’t have access to education facility? Don’t know
- Number of school age children attending school: None
- Walking time to the nearest education facility: More than 60 minutes

#### Mobility
- Are the majority of the population living on this site? Yes
- Why is the majority of the population not living on site? Don’t know

### VULNERABILITIES

#### Pregnant women:
- Breastfeeding mothers: 0
- Mental/Physical disability: 0
- Chronic diseases: 0

#### Elderly without care giver:
- Single female head of household: 0
- Single male headed of household: 0
- Elderly head of household: 0

### LAND TENURE

- Number of Household renting land in place of origin: 0
- Number of Household owning land in place of origin: 548

### WASH

#### Main source of drinking water:
- Hand pumps:
- Main problem with water:
- Average daily water consumption per person:
- Average wait time for water:
- Number of functional latrines at site: 548
- Is there functional bathing space at site? Yes
- Is there hand washing stations with water and soap close to latrines/bathing space? Yes
- How long do people have to wait to reach the closest healthcare facility? More than 60 minutes
- Do people have access to healthcare services: Yes
- Why people don’t have access to healthcare: Don’t know
- Is medicine available for majority of the population? Yes
- During their pregnancy, are most women using a health professional? Yes
- Do populations with HIV know where to go to seek treatment and care? Yes
- Do people know where to go to seek treatment and care? Yes
- Has cholera been reported at this site since the cyclone? No
- When was the last case reported? 17-Mar-2019

### HEALTH

- Number of functioning healthcare facilities: 0
- Time to reach the nearest health facility: More than 60 minutes
- Do people have access to healthcare services: Yes
- Why people don’t have access to healthcare: Don’t know
- Is medicine available for majority of the population: Yes
- During their pregnancy, are most women using a health professional: Yes
- Do populations with HIV know where to go to seek treatment and care: Yes
- Do people know where to go to seek treatment and care: Yes
- Has cholera been reported at this site since the cyclone: No
- When was the last case reported: 17-Mar-2019

### PROTECTION

- Is there security provider/mechanism that ensure safety of persons at the location? No
- Is there a mechanism for referral for GBV survivors? No
- Is there a support mechanism for psychosocial needs of the population? No

### COMMUNITY ENGAGEMENT

- Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies Religious Leader or group
- Community leader or group

### MOBILITY

- Are the majority of the population living on this site: Yes
- Why is the majority of the population not living on site?

- Number of Household living in permanent shelter: 0

**EDUCATION**

- Number of households attending school: 100
- Walking time to the nearest education facility: 16 - 30 minutes

**WASH**

- Main source of drinking water: Lagoons and waterways
- Main problem with water: flavour/taste
- Average daily water consumption: Less than 15 minutes
- Average wait time for water: 410
- Number of functional latrines at site: Yes
- Is there functional bathing space at site?: Yes
- Hand washing stations with water and soap: Yes

**HEALTH**

- Availability of healthcare services: No
- Number of functioning healthcare facilities: 0
- Do people have access to healthcare services: Yes
- Time to reach the nearest health facility: More than 60 minutes
- Why don't people have access to healthcare?: None

**PROTECTION**

- Is there a support mechanism for psychosocial needs of the population?: No
- Is there a Site Management Committee at the site?: Yes
- Is there a Site Management Agency at the site?: No
- Is there security provider/mechanism that ensure safety of persons at the location?: Yes
- Is there a service provider contact list?: None
- Is the site physically accessible?: Yes
- Is the site safe and secure?: Yes

**MOBILITY**

- Walking time to the nearest health facility: 16 - 30 minutes
- Is the majority of the school age children have access to a functioning school?: Yes
- Why school age children don't have access to education facility?: Don't know
- Number of school age children attending school: 100
- Is there a Site Management Agency at the site?: No
- Is there a Site Management Committee at the site?: Yes
- Is there a service provider contact list?: None
- Is the site physically accessible?: Yes
- Is the site safe and secure?: Yes

**COMMUNITY ENGAGEMENT**

- Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies Community leader or group Suggestion box
- Top 3 ways humanitarian partners communicates with population: Staff from humanitarian agencies Community leader or group Local government office

The information included in this report was collected from 2019-07-22 to 2019-08-08. To access information on IDP population in displacements sites as of today, kindly consult IOM Displacement Movement Tracking – Daily Update

RESSETLMENT SITE (planned)

1. Are people have access to healthcare services?
   - Yes
   - No

2. Average wait time for water:
   - Unknown

3. Is the site physically accessible?
   - Yes
   - No

4. Is the site safe and secure?
   - Yes

5. Is there a service provider contact list?
   - Yes

6. Is there a support mechanism for psychosocial needs of the population?
   - Yes
   - No

7. Is there a mechanism for referral for GBV survivors?
   - Yes
   - No

8. Do people know where to go to seek Tuberculosis treatment and care?
   - Yes
   - No

9. Do populations with HIV know where to go to seek treatment and care?
   - Yes
   - No

10. Has cholera been reported at this site since the cyclone?
    - Yes
    - No

11. Are people living in areas where open defecation is frequently visible?
    - Yes
    - No

12. How clean do you think the site is in terms of waste?
    - 2. Clean

13. Is there hand washing stations with water and soap close to latrines/bathing space?
    - Yes
    - No

14. Number of functional latrines at site:
    - 0

15. Number of functional bathing space at site:
    - 0

16. Top three NFI need not accessible to IDPs:
    - Items for sleeping (mats, blankets, ...)
    - Cooking items (pots/pans)
    - Mosquito nets

17. Top one NFI need not accessible to IDPs:
    - Items for sleeping (mats, blankets, ...)

18. First need:
    - Food

19. Second need:
    - Shelter

20. Third need:
    - Health

21. Include the following NFI in the school age children's pack:
    - Hand pumps
    - Hand washing stations
    - 2. Clean

22. Number of Household renting land in place of origin:
    - 0

23. Number of Household owning land in place of origin:
    - 0

24. Is there a Site Management Commissioner at the site?
    - Yes

25. Is there a Site Management Agency at the site?
    - Unknown

26. Is there a Site Management Committee at the site?
    - Yes

27. Is there a Site Status?
    - Open

28. Site Location:
    - -17.48971 , 37.210477

29. Site Classification:
    - Resettlement

30. Are people have access to farming lands?
    - Yes

31. Why school age children don't have access to education facility?
    - None

32. Walking time to the nearest education facility:
    - Less than 15 minutes

33. Why school age children don't have access to education facility?
    - Don't know

34. Number of school age children attending school:
    - 100

35. Walking time to the nearest education facility:
    - Between 16 and 30 minutes

36. Is there a Site Status?
    - Open

37. Site Location:
    - -17.48971 , 37.210477

38. Site type:
    - Open

39. Is there security provider/mechanism that ensure safety of persons at the location?
    - Yes

40. When was the last case reported?
    - 11-Feb-2015

41. Is there a support mechanism for psychosocial needs of the population?
    - Yes

42. Are people have access to farming lands?
    - Yes

43. Why people don't have access to market?
    - None

44. Main source of drinking water:
    - Hand pumps

45. Hand washing station:
    - None

46. Is there a Site Management Commissioner at the site?
    - Yes

47. Is there a Site Management Committee at the site?
    - Yes

48. Is there a Site Status?
    - Open

49. Site Location:
    - -17.48971 , 37.210477

50. Site Classification:
    - Resettlement

51. Are people have access to farming lands?
    - Yes

52. Why people don't have access to healthcare?
    - None

53. Number of household renting land in place of origin:
    - 0

54. Number of household owning land in place of origin:
    - 0

55. Included the following NFI in the school age children's pack:
    - Hand washing stations
    - 2. Clean

56. Included the following NFI in the school age children's pack:
    - Hand pumps
    - Hand washing stations

57. Include the following NFI in the school age children's pack:
    - Hand pumps
    - Hand washing stations

### Food Security

- Food access: Yes
- Why do households have access to shelter? Yes
- Why do households have access to education? Yes

### WASH

- Main source of drinking water: Small water system
- Average daily water consumption per person: 10 - 15 ltr
- Average wait time for water: Less than 15 minutes
- Number of functional latrines at site: 58
- Is there functional bathing space at site? Yes
- How clean do you think the site is in terms of waste? 3. More or less clean

### Health

- Availability of healthcare services on site: Yes
- Number of functional healthcare facilities: 1
- Time to reach the nearest health facility: Less than 15 minutes
- Why do households have access to shelter? Yes
- Is medicines available for majority of the population: Yes
- During their pregnancy, are most women using a health professional? Yes
- Do populations with HIV know where to go to seek treatment and care? Yes
- Do people know where to go to seek Tuberculosis treatment and care? Yes
- Has cholera been reported at this site since the cyclone? No
- When was the last case reported? None

### Protection

- Is there security provider/mechanism that ensure safety of persons at the location? Yes
