### NEED

<table>
<thead>
<tr>
<th>First most urgent need:</th>
<th>Food</th>
</tr>
</thead>
<tbody>
<tr>
<td>Second most urgent need:</td>
<td>Seeds</td>
</tr>
<tr>
<td>Third most urgent need:</td>
<td>Shelter</td>
</tr>
</tbody>
</table>

### SHELTER

| Top one NFI need not accessible to IDPs: | Mosquito nets |
| Top two NFI need not accessible to IDPs: | Items for sleeping (mats, blankets,..) |
| Top three NFI need not accessible to IDPs: | Cooking items (pots/pan) |

### FOOD

| Percentage of Households who had less than 3 meals per day in the past week: | 100% |
| How people get access to the market? | Walking |
| Can people buy what they need at the market? | No |
| Reason why most people cannot buy what they need at the market: | Do not have enough money/Prices are too high |

### EDUCATION

| Percentage of IDP children(3 - 5 years old) attending school: | 25% |
| Percentage of IDP children(6 - 12 years old) attending school: | 75% |
| Percentage of IDP children(13 - 17 years old) attending school: | 75% |

### WASH

| Main source of drinking water: | Rainwater |
| Percentage of IDPs who have enough drinking water: | 100% |
| Percentage of IDPs who have access to functioning bathing/shower facilities: | 75% |
| Percentage of IDPs living in areas where open defecation is visible: | 25% |
| Percentage of IDPs living in areas where garbage is visible: | 50% |
| Primary type of sanitation facilities: | Pit latrine without slab / open pit |

### HEALTH

| Distance from the nearest health facility: | Up to 30 minutes |
| Main reason preventing IDPs from accessing healthcare services: | Nothing is preventing people |
| Female healthcare workers available at the health facility: | Yes |
| Are most women seeing a health professional during their pregnancy? | Yes |
| Where do women give birth? | At health facility |

### PROTECTION

| Is there security provided? | Yes |
| Is there a threat of eviction? | No |
| Is there adequate lighting in the majority of communal points? | No |
| Is there in the site separated Latrines for males and females? | Yes, A few (around 25%) |
| Is there bathing facilities in the site with functioning locks on the inside of doors? | No |

### RETURN

| District of Origin of Largest Group of IDPs: | Sussundenga |
| Post of Origin of Largest Group of IDPs: | Rotanda |
| What is preventing the largest IDP group from returning home? | Lack of safety |

Survey Date: 2019-04-18

Site ID: MOZ_S111

Site Classification: Spontaneous

Site type: Resettlement Center

Site Opening Date: 2019-03-15

Expected period of Displacement: Between 1 and 3 months

District (site Location): Sussundenga

Is the site safe and secure? Yes

Administrative Post (site Location): Dombe

NEED

First most urgent need: Shelter
Second most urgent need: Food
Third most urgent need: Seeds

SHELTER

Top one NFI need not accessible to IDPs: Items for sleeping (mats, blankets,..)
Top two NFI need not accessible to IDPs: Cooking items (pots/pans)
Top three NFI need not accessible to IDPs: Hygiene products (for personal hygiene)

FOOD

Percentage of Households who had less than 3 meals per day in the past week: 100%

How people get access to the market? No access to the Market
Can people buy what they need at the market? Not most people
Reason why most people cannot buy what they need at the market: There is no market nearby

EDUCATION

Percentage of IDP children(3 - 5 years old) attending school: 25%
Percentage of IDP children(6 - 12 years old) attending school: 75%
Percentage of IDP children(13 - 17 years old) attending school: 75%

RETURN

District of Origin of Largest Group of IDPs: Sussundenga
Post of Origin of Largest Group of IDPs: Dombe
What is preventing the largest IDP group from returning home? No livelihood

WASH

Main source of drinking water: Tube well/Borehole
Percentage of IDPs who have enough drinking water: 50%
Percentage of IDPs who have access to functioning bathing/shower facilities: 75%
Percentage of IDPs living in areas where open defecation is visible: 25%
Percentage of IDPs living in areas where garbage is visible: 25%
Primary type of sanitation facilities: Pit latrine with slab

HEALTH

Distance from the nearest health facility: More than 30 minutes
Main reason preventing IDPs from accessing healthcare services: Nothing is preventing people
Female healthcare workers available at the health facility: Yes
Are most women seeing a health professional during their pregnancy? Yes
Where do women give birth? At health facility

PROTECTION

Is there security provided? Yes
Is there a threat of eviction? No
Is there adequate lighting in the majority of communal points? No
Is there in the site separated Latrines for males and females? Yes, A few (around 25%)
Is there bathing facilities in the site with functioning locks on the inside of doors? No

**SHELTER**

Top one NFI need not accessible to IDPs: Shoes and clothes
Top two NFI need not accessible to IDPs: Cooking items (pots/pans)
Top three NFI need not accessible to IDPs: Soap/detergent for washing clothes

**FOOD**

Percentage of Households who had less than 3 meals per day in the past week: 100%
How people get access to the market: Walking
Can people buy what they need at the market? Do not know/No answer
Reason why most people cannot buy what they need at the market: N/A

**EDUCATION**

Percentage of IDP children (3 - 5 years old) attending school: 0%
Percentage of IDP children (6 - 12 years old) attending school: Do not know/No answer
Percentage of IDP children (13 - 17 years old) attending school: 50%

**WASH**

Main source of drinking water: Surface water
Percentage of IDPs who have enough drinking water: 100%
Percentage of IDPs who have access to functioning bathing/shower facilities: 100%
Percentage of IDPs living in areas where open defecation is visible: Do not know/No answer
Percentage of IDPs living in areas where garbage is visible: 0%
Primary type of sanitation facilities: Pit latrine with slab

**HEALTH**

Distance from the nearest health facility: More than 30 minutes
Main reason preventing IDPs from accessing healthcare services: Nothing is preventing people answer
Female healthcare workers available at the health facility: Yes
Are most women seeing a health professional during their pregnancy? Do not know/No answer
Where do women give birth? Do not know/No answer

**PROTECTION**

Is there security provided? Do not know/No answer
Is there a threat of eviction? No
Is there adequate lighting in the majority of communal points? No
Is there in the site separated latrines for males and females? Yes, All
Is there bathing facilities in the site with functioning locks on the inside of doors? No
## Manhandure

### Site Information

### Site Location

- **Households:** 104
- **Individuals:** 524
- **Site Location:** -19.97437, 33.395309

### NEED

- **First most urgent need:** Food
- **Second most urgent need:** Shelter
- **Third most urgent need:** Various inputs

### SHELTER

- **Top one NFI need not accessible to IDPs:** Mosquito nets
- **Top two NFI need not accessible to IDPs:** Items for sleeping (mats, blankets,...)
- **Top three NFI need not accessible to IDPs:** Hygiene products (for personal hygiene)

### FOOD

- **Percentage of Households who had less than 3 meals per day in the past week:** 25%
- **How people get access to the market:** Walking
- **Can people buy what they need at the market?** No
- **Reason why most people cannot buy what they need at the market:** Do not have enough money/Prices are too high

### WASH

- **Main source of drinking water:** Protected dug well
- **Percentage of IDPs who have enough drinking water:** 25%
- **Percentage of IDPs who have access to functioning bathing/shower facilities:** 25%
- **Percentage of IDPs living in areas where open defecation is visible:** 50%
- **Percentage of IDPs living in areas where garbage is visible:** 25%
- **Primary type of sanitation facilities:** Pit latrine without slab / open pit

### HEALTH

- **Distance from the nearest health facility:** There is no reachable health facility
- **Main reason preventing IDPs from accessing healthcare services:** There are no reachable health services
- **Female healthcare workers available at the health facility:** No
- **Are most women seeing a health professional during their pregnancy?** No
- **Where do women give birth?** At home

### EDUCATION

- **Percentage of IDP children (3 - 5 years old) attending school:** 25%
- **Percentage of IDP children (6 - 12 years old) attending school:** 50%
- **Percentage of IDP children (13 - 17 years old) attending school:** 25%

### PROTECTION

- **Is there security provided?** Yes
- **Is there a threat of eviction?** No
- **Is there adequate lighting in the majority of communal points?** No
- **Is there in the site separated Latrines for males and females?** No
- **Is there bathing facilities in the site with functioning locks on the inside of doors?** No

### FOOD

| Percentage of Households who had less than 3 meals per day in the past week: | 25% |
| How people get access to the market?: | Walking |
| Can people buy what they need at the market? | No |

#### Reason why most people cannot buy what they need at the market:

| Reason | Do not have enough money/Prices are too high |

### EDUCATION

| Percentage of IDP children(3 - 5 years old) attending school: | 0% |
| Percentage of IDP children(6 - 12 years old) attending school: | 100% |
| Percentage of IDP children(13 - 17 years old) attending school: | 100% |

### RETURN

| District of Origin of Largest Group of IDPs: | Sussundenga |
| Post of Origin of Largest Group of IDPs: | Dombe |
| What is preventing the largest IDP group from returning home? | House damaged/destroyed |

### WASH

| Main source of drinking water: | Sachet water |
| Percentage of IDPs who have enough drinking water: | 100% |
| Percentage of IDPs who have access to functioning bathing/shower facilities: | 100% |
| Percentage of IDPs living in areas where open defecation is visible: | 0% |
| Percentage of IDPs living in areas where garbage is visible: | 0% |

#### Primary type of sanitation facilities:

| Pit latrine without slab / open pit |

### HEALTH

| Distance from the nearest health facility: | Up to 30 minutes |
| Main reason preventing IDPs from accessing healthcare services: | Nothing is preventing people |
| Female healthcare workers available at the health facility: | Yes |
| Are most women seeing a health professional during their pregnancy? | Yes |
| Where do women give birth? | At health facility |

### PROTECTION

| Is there security provided? | Yes |
| Is there a threat of eviction? | No |
| Is there adequate lighting in the majority of communal points? | No |
| Is there in the site separated Latrines for males and females? | Yes, All |
| Is there bathing facilities in the site with functioning locks on the inside of doors? | No |
