METHODOLOGY

This DTM flash report refers to the round of baseline site assessments conducted in Matanao Municipality of Davao del Sur on 19 December 2019. IOM deployed 5 enumerators in 2 mobile DTM assessment teams which coordinated with the local governments of Davao del Sur, as well as DSWD Regions XI and P/M/ CDRMOs. Data was derived from key informant interviews and focus group discussions in the assessed sites. This flash report assesses 21 sites in currently accessible areas hosting 1,705 families.

LIST OF ASSESSED SITES

Barangay	Site Name	Site Type	# Families
Poblacion	Malipayon Park	Spontaneous	250

	San Miguel 5 (Panerio Area)	Spontaneous	15
	San Miguel 6 (Malipayon Area)	Spontaneous	8
Bangkal	Bangkal	Government-Listed	119
Cabasagan	Cabasagan CES	Spontaneous	74
Grand Total			1,705

SECTORAL FINDINGS

Camp Coordination and Camp Management

- 5 of the 21 sites assessed hosting a total of 599 families opened shortly after the first Tuluhan Earthquake on 16 October 2019.
- 762 families are from Barangay Poblacion, 321 from Barangay Kapoc and 260 from Barangay Kauswagan, the rest are from Barangays San Miguel, Asinan and Cabasagan.
- 8 of the sites with 709 families are government-designated while 13 sites with 996 families are unrecognized spontaneous settlements also receiving government assistance.
- 18 sites are in open lots, mostly privately owned while the remaining three are in a covered court, a community plaza and a school. The latter with 74 families will likely be relocated after two weeks.
- 12 sites hosting 890 families have a designated camp manager, however, they are not formally trained. 9 sites hosting 815 families have no camp manager at all.

Food

6 sites in Barangay Kauswagan have not received food distribution since immediately after the first Tuluhan earthquake on 16 October 2019.

Water, Sanitation and Hygiene

Local government, civil society and faith-based groups deliver potable water but latrines are lacking. IDPs are reluctant to use pre-existing latrines for fear of structural collapse.

Shelter

- Displaced families are living in makeshift shelters or tents.
- In many cases, plastic sheets are put up together to accommodate more families.
- Most families do not have access to materials for privacy partitions, however some families achieve a degree of privacy by erecting self-bought dome tents within these common spaces.

Psychosocial Support

No stress debriefing services have been conducted in the assessed sites.
