**Site Safety**

- Is the site physically accessible? Yes
- Is the site safe and secure? Yes
- Is there a mechanism for referral for GBV survivors? None
- Do people have access to healthcare? Yes
- Is the site open? Yes

**WASH**

- Main source of drinking water: Tanks
- Main problem with water: Flavour/Taste
- Average daily water consumption per person: 10 - 15 ltr
- Average wait time for water: No wait
- Number of functional latrines at site: 40
- Is there functional bathing space at site? Yes
- How clean you think the site is in terms of waste? 1. Very clean
- Do people live in areas where open defecation is frequently visible? No

**Health**

- Availability of healthcare services on site: Yes
- Number of functioning healthcare facilities: 1
- Time to reach the nearest health facility: Less than 15 minutes
- Why people don't have access to healthcare? None
- Is medicines available for majority of the population? Yes
- During their pregnancy, are most women seeing a health professional? Yes
- Do populations with HIV know where to go to seek treatment and care? Yes
- Do people know where to go to seek Tuberculosis treatment and care? Yes
- Has cholera been reported at this site since the cyclone? No
- When was the last case reported? None

**Community Engagement**

- Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies; Community leader or group; Local government office
- Top 3 ways humanitarian partners communicates with population: Staff from humanitarian agencies; Community leader or group; Women’s groups

- Number of functional latrines at site: 50
- Is there functional bathing space at site? Yes
- Is there hand washing stations with water and soap close to latrines/bathing space? Yes
- How clean you think the site is in terms of waste? 2. Clean
- Do people live in areas where open defecation is frequently visible? No

### Mobility

- Are the majority of the population living on this site? Yes
- Why is the majority of the population not living on site? Don't know
- Province of Origin: Zambezia
- District of Origin: Namacuer
- Post of Origin: Macuze
- Locality of Origin: Macuze

### Education

- Does the majority of the school age children have access to a functioning school? Yes
- Why school age children don't have access to education facility? Don't know
- Number of school age children attending school: 150
- Walking time to the nearest education facility: Less than 15 minutes

### Protection

- Is there a Site Management Committee at the site? Yes
- Is there a Site Management Agency at the site? Yes
- Name of Site Management Agency: None
- Site Status: Open

### VULNERABILITIES

- Pregnant women: 22
- Breastfeeding mothers: 25
- Mental/Physical disability: 142
- Chronic diseases: 100

### SHELTER

- Top one NFI need not accessible to IDPs: 1,355
- Top two NFI need not accessible to IDPs: 1,055
- Top three NFI need not accessible to IDPs: 0
- Number of Household living outdoors: 51
- Number of Household living in emergency shelter: 369
- Number of Household living in permanent shelter: 60

### FOOD SECURITY

- Do most people have access to functioning market? No
- Market is not accessible
- Have people found food from a distribution site? Yes
- Was the latest food distribution at this site last 7 days? Yes
- Is the farming land less than 1 hour away? Yes

### WASH

- Main source of drinking water: Tanks
- Long waiting time (queues) > 15 hr
- Average daily water consumption per person: Less than 15 minutes
- Average wait time for water: 2. Clean
- Number of functional latrines at site: 369
- Is there a functional bathing space at site? Yes
- Is there hand washing stations with water and soap close to latrines/bathing space? Yes
- How clean you think the site is in terms of waste? 2. Clean
- Do people live in areas where open defecation is frequently visible? No

### EDUCATION

- Does the majority of the school age children have access to a functioning school? Yes
- Why school age children don't have access to education facility? Don't know
- Number of school age children attending school: 90
- Walking time to the nearest education facility: 31 - 60 minutes

### MOBILITY

- Are the majority of the population living on this site? Yes
- Why is the majority of the population not living on site? Don't know
- Province of Origin: Sofala
- District of Origin: Buzi
- Post of Origin: Buzi
- Locality of Origin: Bandua

### LAND TENURE

### Households (110)

#### Individuals (423)

#### SHELTER

- Top one NFI need not accessible to IDPs: Closed containers to transport and /or store water
- Top two NFI need not accessible to IDPs: Items for sleeping (mats, blankets,...)
- Top three NFI need not accessible to IDPs: Cooking items (pots/pans)

#### FOOD SECURITY

- Do most people have access to functioning market? No
- Why people don’t have access to market? None
- Have people received food from a distribution at site? Yes
- When was the latest food distribution at this site? More than two weeks
- Do most people have access to farming lands? Yes
- How far is the farming lands? 2-3 hrs

#### EDUCATION

- Does the majority of the school age children have access to a functioning school? Yes
- Why school age children don’t have access to education facility? Don’t know
- Number of school age children attending school: 0
- Walking time to the nearest education facility: 16 - 30 minutes

#### MOBILITY

- Are the majority of the population living on this site? Yes
- Why is the majority of the population not living on site? Don’t know

#### COMMUNITY ENGAGEMENT

- Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies; Community leader or group; Local government office
- Top 3 ways humanitarian partners communicates with population: Staff from humanitarian agencies; Community leader or group; local government office

- **Top one NFI need not accessible to IDPs:** Items for sleeping (mats, blankets, ...)
- **Top two NFI need not accessible to IDPs:** Cooking items (pots/pans)
- **Top three NFI need not accessible to IDPs:** Soap/detergent for washing clothes
- **Number of Household living outdoors:** 0
- **Number of Household living in emergency shelter:** 991
- **Number of Household living in permanent shelter:** 0

### FOOD SECURITY
- **Do most people have access to functioning market?** Yes
- **Why don't people have access to market?** None
- **Have people received food from a distribution at site?** Yes
- **When was the latest food distribution at this site?** Last 7 days
- **How far is the farming lands?** <1 hr

### WASH
- **Main source of drinking water:** Small water system
- **Main problem with water:** None
- **Average daily water consumption per person:** Between 16 and 30 minutes
- **Average wait time for water:** 755
- **Number of functional latrines at site:** Yes
- **Is there functional bathing space at site?** Yes
- **Is there hand washing stations with water and soap close to latrines/bathing space?** Yes
- **How clean you think the site is in terms of waste?** 3. More or less clean
- **Do people live in areas where open defecation is frequently visible?** Yes

### EDUCATION
- **Does the majority of the school age children have access to a functioning school?** Yes
- **Why school age children don't have access to education facility?** Don't know
- **Number of school age children attending school:** 75
- **Walking time to the nearest education facility:** 16 - 30 minutes

### MOBILITY
- **Are the majority of the population living on this site?** Yes
- **Why is the majority of the population not living on site?** Don't know
- **Province of Origin:** Sofala
- **District of Origin:** Buzi
- **Past of Origin:** Buzi
- **Locality of Origin:** Guara Guara

### PROTECTION
- **Is there security provider/ mechanism that ensure safety of persons at the location?** Yes
- **Is there a mechanism for referral for GBV survivors?** Yes
- **Is there a support mechanism for psychosocial needs of the population?** Yes

### COMMUNITY ENGAGEMENT
- **Top 3 ways population communicates with humanitarian partners:** Radio programme in-calls; Religious Leader or group; Local government office
- **Top 3 ways humanitarian partners communicate with population:** Radio; Religious Leader or group; local government office

- Is there a Site Management Agency at the site? None
- Is there a Site Management Committee at the site? None
- Is there a Site Management Agency at the site? None
- Site Status: Open

### Education
- Number of school age children attending school: 303
- Walking time to the nearest education facility: 16 - 30 minutes
- Why school age children don’t have access to education facility? Don’t know

### Food Security
- Do people know where to go to seek a tuberculosis treatment and care? Yes
- Why people don’t have access to healthcare? None
- Do people live in areas where open defecation is frequently visible? Yes
- How clean you think the site is in terms of waste? More or less clean
- Time to reach the nearest health facility: 1 - 2 hrs
- Do people have access to functioning market? No
- Do people live in areas where open defecation is frequently visible? None

### Health
- Main source of drinking water: Rivie
- Main problem with water: Unknown
- Average daily water consumption per person: No wait
- Average wait time for water: 0
- Number of functional latrines at site: None
- Is there functional bathing space at site? Yes
- Is there hand washing stations with water and soap close to latrines/bathing space? None
- How clean you think the site is in terms of waste? More or less clean
- Number of functioning healthcare facilities: None
- Number of households owning land in place of origin: 461
- Number of households renting land in place of origin: 0

### Land Tenure

| Top three NFI need not accessible to IDPs: |
| Shelters and clothes |
| Items for sleeping (mats, blankets,...) |
| Cooking items (pots/pans) |

### Shelter
- Top one NFI need not accessible to IDPs: Shelters and clothes
- Top two NFI need not accessible to IDPs: Items for sleeping (mats, blankets,...)
- Top three NFI need not accessible to IDPs: Cooking items (pots/pans)
- Number of Households living outdoors: 0
- Number of Households living in emergency shelter: 161
- Number of Households living in permanent shelter: 0

### Vulnerabilities
- Pregnant women: 55
- Breastfeeding mothers: 2
- Mental/Physical disability: 7
- Chronic diseases: 2
- Elderly without care givers: None
- Elderly head of household: Chibabava
- Single female head of household: 10
- Single male headed of household: 12

### Need
- Water
- Education
- Latrines

### Mobility
- Are the majority of the population living on this site? Yes
- Average daily water consumption per person: 71
- Number of school age children attending school: 303
- Walking time to the nearest education facility: 16 - 30 minutes
- Number of school age children attending school: 303
- Walking time to the nearest education facility: 16 - 30 minutes

### Community Engagement
- Top 3 ways population communicates with humanitarian partners: Radio programme in-calls; Religious Leader or group; Local government office
- Top 3 ways humanitarian partners communicate with population: Radio; Call centre /hotline; local government office

**Food Security**

- Does the majority of the school age children have access to a functioning school? Yes
- Why school age children don't have access to education facility? Don't know
- Number of school age children attending school: 70
- Walking time to the nearest education facility: Less than 15 minutes

**Community Engagement**

- Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies; Community leader or group; Local government office
- Top 3 ways humanitarian partners communicate with population: Staff from humanitarian agencies; Community leader or group; Local government office

**Vulnerabilities**

- Pregnant women: 0
- Breastfeeding mothers: 0
- Mental/Physical disability: 0
- Chronic diseases: 0
- Elderly without care givers: 0
- Single female head of household: 0
- Single male headed of household: 0
- Elderly head of household: 0

**Wash**

- Main source of drinking water: Lagoons and lagoon waters
- Main problem with water: Flavour/Taste
- Average daily water consumption per person: Unknown
- Average wait time for water: No wait
- Number of functional latrines at site: 14
- Is there functional bathing space at site? Yes
- Is there hand washing stations with water and soap close to latrines/bathing space? None
- How clean do you think the site is in terms of waste? 3. More or less clean
- Do people live in areas where open defecation is frequently visible? Yes

**Protection**

- Is there a Site Management Committee at the site? Yes
- Is there a Site Management Agency at the site? None
- Is there a Service provider contact list? None
- Is there a support mechanism for psychosocial needs of the population? None
- Is there a mechanism for referral for GBV survivors? None
- Do people know where to go to seek Tuberculosis treatment and care? Unknown
- Do populations with HIV know where to go to seek treatment and care? Unknown
- During their pregnancy, are most women seeing a health professional? No
- Has cholera been reported at this site since the cyclone? No
- When was the last case reported? 2019-07-31

**Health**

- Availability of healthcare services on site: No
- Number of functioning healthcare facilities: 0
- Do people have access to healthcare services: None
- Time to reach the nearest health facility: None
- Why people don't have access to healthcare: Facility is not physically accessible Other
- Is medicines available for majority of the population: No
- During their pregnancy, are most women seeing a health professional: Unknown
- Do populations with HIV know where to go to seek treatment and care: Unknown
- Do people know where to go to seek Tuberculosis treatment and care: Unknown
- Has cholera been reported at this site since the cyclone: No
- When was the last case reported: 2019-07-31

**Land Tenure**

- Number of Households renting land in place of origin: 0
- Number of Households owning land in place of origin: 56

**Mobility**

- Are the majority of the population living on this site? Yes
- Why is the majority of the population not living on site? Don't know

**EDUCATION**

- Does the majority of the school age children have access to a functioning school? Yes
- Why school age children don't have access to education facility? Don't know
- Number of school age children attending school: 70
- Walking time to the nearest education facility: Less than 15 minutes

**Community Engagement**

- Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies; Community leader or group; Local government office
- Top 3 ways humanitarian partners communicate with population: Staff from humanitarian agencies; Community leader or group; Local government office

### Site Information

#### Site Classification:
- Resettlement Site (planned)

#### Age Range
- Male: 60 +
- Female: 18 - 59

#### Site Type:
- Open

#### Site Opening Date:
- 2019-03-14

#### Province:
- Manica

#### District:
- Sussundenga

#### Post:
- Dombe

#### Locality:
- Bunga

#### The demographic have been obtained by using the demographic calculation method:

- % Male: 68%
- % Female: 32%

#### Site Management Agency
- None

#### Site Status:
- Open

#### Is there a Site Management Committee at the site?
- Yes

#### Is there a Site Management Agency at the site?
- Yes

#### Name of Site Management Agency:
- None

#### Is there a service provider contact list?
- Limited access (by site area of work)

#### Is the site physically accessible?
- Unknown

#### Site Location:
- 20.165479, 33.232989

### Food Security

#### Do most people have access to functioning market?
- No

#### Why people don't have access to market?
- None

#### Have people received food from a distribution at site?
- Yes

#### When was the latest food distribution at this site?
- 2019-08-29

#### Have people received food from a distribution at site?
- Yes

#### Why people don't have access to market?
- Unknown

### Shelter

#### Top one NFI need not accessible to IDPs:
- Mosquito nets

#### Top two NFI need not accessible to IDPs:
- Cooking items (pots/pans)

#### Top three NFI need not accessible to IDPs:
- Hygiene products (for personal hygiene)

#### Number of Household living outdoors:
- 0

#### Number of Household living in emergency shelter:
- 56

#### Number of Household living in permanent shelter:
- 0

### Education

#### Does the majority of the school age children have access to a functioning school?
- Yes

#### Why school age children don't have access to education facility?
- Don't know

#### Number of school age children attending school:
- 75

#### Walking time to the nearest education facility:
- 16 - 30 minutes

### Need

#### First need:
- Food

#### Second need:
- Water

#### Third need:
- Education

### Vulnerabilities

#### Pregnant women:
- 0

#### Breastfeeding mothers:
- 0

#### Mental/Physical disability:
- 0

#### Chronic diseases:
- 0

### Land Tenure

#### Number of Household renting land in place of origin:
- 0

#### Number of Household owning land in place of origin:
- 56

### WASH

#### Main source of drinking water:
- Hand pumps

#### Main problem with water:
- None

#### Average daily water consumption per person:
- Unknown

#### Average wait time for water:
- Less than 15 minutes

#### Number of functional latrines at site:
- 16

#### Is there functional bathing space at site?
- Yes

#### Is there hand washing stations with water and soap close to latrines/bathing space?
- None

#### How clean you think the site is in terms of waste?
- 3. More or less clean

#### Do people live in areas where open defecation is frequently visible?
- Unknown

### Health

#### Availability of healthcare services on site:
- No

#### Number of functioning healthcare facilities:
- 0

#### Do people have access to healthcare services:
- No

#### Time to reach the nearest health facility:
- None

#### Why people don't have access to healthcare:
- Facility is not physically accessible Other

### Protection

#### Is there security provider/mechanism that ensure safety of persons at the location?
- No

#### Is there a mechanism for referral for GBV survivors?
- No

#### Is there a support mechanism for psychosocial needs of the population?
- No

### Community Engagement

#### Top 3 ways population communicates with humanitarian partners:
- Staff from humanitarian agencies; Community leader or group; Local government office

#### Top 3 ways humanitarian partners communicates with population:
- Staff from humanitarian agencies; Community leader or group; Local government office

**SHELTER**

- Top one NFI need not accessible to IDPs: Items for sleeping (mats, blankets,..)
- Top two NFI need not accessible to IDPs: Cooking items (pots/pans)
- Top three NFI need not accessible to IDPs: 0
- Number of Household living outdoors: 0
- Number of Household living in emergency shelter: 0
- Number of Household living in permanent shelter: 0

**FOOD SECURITY**

- Do most people have access to functioning market?: Yes
- Do most people have access to farming lands?: Yes
- How far is the farming lands?: > 3 hrs
- Why people don't have access to market?: None
- Why do most people have access to farming lands?: None

**EDUCATION**

- Does the majority of the school age children have access to a functioning school?: Yes
- Number of school age children attending school: 100
- Walking time to the nearest education facility: More than 60 minutes
- What is the main problem with attendance?: More than two weeks

**MOBILITY**

- Are the majority of the population living on this site?: Yes
- Why is the majority of the population not living on site?: Don't know

**VULNERABILITIES**

- Pregnant women: 14
- Breastfeeding mothers: 20
- Mental/Physical disability: 9
- Chronic diseases: 0

**WASH**

- Main source of drinking water: Open well
- Main problem with water: Unknown
- Average daily water consumption per person: Between 16 and 30 minutes
- Average wait time for water: 565
- Number of functional latrines at site: Yes
- Is there a hand washing station?: Yes
- How clean is the site?: Clean
- Time to reach the nearest health facility: More than 60 minutes

**LAND TENURE**

- Number of Household renting land in place of origin: 0
- Number of Household owning land in place of origin: 0

**NEED**

- First need: Better home
- Second need: Food
- Third need: Household Items (NFI)

**VULNERABILITIES**

- Elderly without care givers: 0
- Single female head of household: 152
- Single male headed of household: 20
- Elderly headed of household: 9

**HEALTH**

- Availability of healthcare services on site: No
- Number of functioning healthcare facilities: 0
- Do people have access to healthcare services: Yes
- Time to reach the nearest health facility: More than 60 minutes
- Why people don't have access to healthcare?: None
- Is medicines available for majority of the population?: Yes
- During their pregnancy, are most women seeing a health professional?: Yes
- Do populations with HIV know where to go to seek treatment and care?: Yes
- Do people know where to go to seek Tuberculosis treatment and care?: Yes
- Has cholera been reported at this site since the cyclone?: Yes
- When was the last case reported?: None

**PROTECTION**

- Is there a support mechanism for psychosocial needs of the population?: Yes
- Is there a Site Management Committee at the site?: Unknown
- Name of Site Management Agency: None
- Is there a Site Management Committee at the site?: Unknown
- Name of Site Management Agency: None
- Is there a Site Management Committee at the site?: Unknown
- Name of Site Management Agency: None

**COMMUNITY ENGAGEMENT**

- Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies; Religious Leader or group; Suggestion box
- Top 3 ways humanitarian partners communicate with population: Staff from humanitarian agencies; Community leader or group; local government office
Resettlement Site (planned)

- Is the site physically accessible?
  - Yes

- Is there a service provider contact list?
  - Yes

- Average wait time for water:
  - Male: 6 - 17 minutes
  - Female: < 1 minute

- Main problem with water:
  - Open well

- Main source of drinking water:
  - Solid/Dirt

- Top three NFI need not accessible to IDPs:
  - Items for sleeping (mats, blankets,..)
  - Shoes and clothes
  - Soap/detergent for washing clothes

- Current land tenure:
  - Land in place of origin: 0
  - Land in place of origin: 0

- Number of household renting land in place of origin: 0

- Number of household owning land in place of origin: 0

- Why do most people have access to functioning market?
  - Yes

- Why do people not have access to market?
  - None

- Do people live in areas where open defecation is frequently visible?
  - No

- How clean do you think the site is in terms of waste?
  - Clean

- How far is the farming lands?
  - Less than 15 minutes

- Do most people have access to functioning market?
  - Yes

- Why do people not have access to market?
  - None

- When was the last food distribution at this site?
  - Last 7 days

- Have people received food from a distribution at site?
  - Yes

- Why do people not have access to function market?
  - Open defecation is frequently visible

- How clean do you think the site is in terms of waste?
  - Clean

- How far is the farming lands?
  - Less than 15 minutes

- Do people live in areas where open defecation is frequently visible?
  - No

#### Site Location

- **X**: -19.967318, **Y**: 33.301425
- **Published on**: 2019-08-29
- **Survey Date**: 2019-08-01

#### Site Status

- **Is the site located near an active conflict area?**: No
- **Is the site physically accessible?**: Yes
- **Is the site safe and secure?**: Yes
- **Is there a Site Management Committee at the site?**: No
- **Is there a Site Management Committee at the site?**: No
- **Is there a Site Management Agency at the site?**: None
- **Is there a Site Management Agency at the site?**: None
- **Is there a Support Mechanism for Psychosocial Needs of the Population?**: No
- **Is there a Support Mechanism for Psychosocial Needs of the Population?**: No
- **Is there a Site Management Agency at the site?**: None
- **Is the site safe and secure?**: Yes

#### Site Population

- **Households**: 137
- **Individuals**: 575

#### Need

- **First need**: Food
- **Second need**: Water
- **Third need**: Shelter

#### Shelters

- **Top one NFI need not accessible to IDPs**: Items for sleeping (mats, blankets, etc.)
- **Top two NFI need not accessible to IDPs**: Shirts
- **Top three NFI need not accessible to IDPs**: Hygiene products for personal hygiene

#### Food Security

- **Do most people have access to functioning market?**: No
- **Why don't people have access to market?**: Market is not accessible, items are too expensive, no money
- **Have people received food from a distribution at site?**
- **When was the latest food distribution at this site?**: 2019-08-22
- **Do most people have access to farming lands?**: No
- **How far is the farming lands?**: None

#### Education

- **Does the majority of the school age children have access to a functioning school?**: No
- **Why school age children don't have access to education facility?**: None
- **Number of school age children attending school**: None
- **Walking time to the nearest education facility**: None

#### Mobility

- **Are the majority of the population living on this site?**: No
- **Why is the majority of the population not living on this site?**: None
- **Provincial Origin**: Manica
- **District Origin**: Sussundenga
- **Post of Origin**: Dombe
- **Locality of Origin**: Mucco

#### Food

- **Main source of drinking water**: None
- **Main problem with water**: None
- **Average daily water consumption per person**: None
- **Average wait time for water**: None
- **Number of functional latrines at site**: None
- **Is there functional bathing space at site?**: None
- **Is there hand washing stations with water and soap close to latrines/bathing space?**: None
- **How clean do you think the site is in terms of waste?**: Yes

#### Health

- **Availability of healthcare services on site**: None
- **Number of functioning healthcare facilities**: None
- **Do people have access to healthcare services**: None
- **Time to reach the nearest health facility**: None
- **Why people don't have access to healthcare**: None
- **Is medicines available for majority of the population?**: Yes
- **During their pregnancy, are most women seen a health professional**: Yes

- Mutarara: District of Origin:
- Nhamayabue: Post of Origin:
- Sinjal: Locality of Origin:

### Food Security

- No: Do most people have access to functioning market?
- Transport to market is too expensive: Why people don't have access to market?
- Yes: Have people received food from a distribution at site?
- Last 7 days: When was the latest food distribution at this site?
- 1-2 hrs: How far is the farming lands?

### Education

- Yes: Does the majority of the school age children have access to a functioning school?
- Don't know: Why school age children don't have access to education facility?
- 100: Number of school age children attending school:
- 16 - 30 minutes: Walking time to the nearest education facility:

### Shelter

- No: Do most people have access to housing?
- Transport to market is too expensive: Why people don't have access to market?
- Yes: Have people received food from a distribution at site?
- Last 7 days: When was the latest food distribution at this site?
- 1-2 hrs: How far is the farming lands?

### Vulnerabilities

- None: Is there a Support mechanism for psychosocial needs of the population?
- None: Is there a mechanism for referral for GBV survivors?
- None: Is there a support mechanism for psychosocial needs of the population?
- None: Is there a Site Management Committee at the site?
- None: Is there a Site Management Agency at the site?
- None: Is there a service provider contact list?

#### SHELTER

Top one NFI need not accessible to IDPs: Mosquito nets  
Top two NFI need not accessible to IDPs: Items for sleeping (mats, blankets,..)  
Top three NFI need not accessible to IDPs: Soap/detergent for washing clothes  
Number of Household living outdoors: 0  
Number of Household living in emergency shelter: 0  
Number of Household living in permanent shelter: 0

#### FOOD SECURITY

Do most people have access to functioning market? No  
Market is not accessible  
Why people don't have access to market? Yes  
Have people received food from a distribution at site? Yes  
More than two weeks  
When was the latest food distribution at this site? 2019-08-01  
Less than 15 minutes  
Number of Household owning land in place of origin: 0  
Number of Household renting land in place of origin: 0

#### EDUCATION

Does the majority of the school age children have access to a teaching facility? Yes  
Why school age children don't have access to education facility? Don't know  
Number of school age children attending school: 100  
Walking time to the nearest education facility: 16 - 30 minutes

#### MOBILITY

Are the majority of the population living on this site? Yes  
Why is the majority of the population not living on site? Don't know  
Province of Origin: Zambezia  
District of Origin: Maganja Da Costa  
Post of Origin: Nante  
Locality of Origin: Nomiua

#### MOBILITY

Average daily water consumption per person: 508 liters  
2 - 3 hrs  
Average wait time for water: 3. More or less clean  
How clean you think the site is in terms of waste? No

#### HEALTH

Main source of drinking water: Open well  
Main problem with water: Small  
Average daily water consumption per person: > 15 ltr  
Average wait time for water: Less than 15 minutes  
Number of functional latrines at site: 369  
Is there functional bathing space at site? Yes  
Is there hand washing stations with water and soap close to latrines/bathing space? Yes  
How clean you think the site is in terms of waste? No  
Do people live in areas where open defecation is frequently visible? Yes  
Are most women seeing a health professional during their pregnancy? Yes  
Is medicines available for majority of the population: Yes  
During their pregnancy, are most women seeing a health professional? Yes  
Do populations with HIV know where to go to seek treatment and care? Yes  
Does the majority of the school age children have access to a teaching facility? Yes  
Why school age children don't have access to education facility? Don't know

#### PROTECTION

Is there a Site Management Committee at the site? Yes  
Is there a Site Management Agency at the site? Yes  
Name of Site Management Agency: None  
Is there a service provider contact list? None  
Site Status: Open  
Is there security provider/mechanism that ensure safety of persons at the location? No  
Is the site physically accessible? Yes

### Community Engagement
