### Site Management

- **Site having the SMC:** Yes
- **% of women participating in SMC:** <25%
- **Community is taking part in SMC:** Yes
- **SMA:** No
- **SMA type:** None
- **SMA Name:** None
- **SMA focal point:** None
- **Registration/IDPs list maintained:** Yes

### Persons with special vulnerabilities

- **5** breastfeeding mothers
- **1** person with Disabilities
- **2** elderly-headed household
- **0** person with chronic diseases / serious medical conditions

### Water

- **Location of the site's main water source:** Off-site (<20 minutes)
- **Main non-drinking water source:** Unprotected Well
- **Main drinking water source:** Unprotected Well
- **Average amount of water available per day/person:** 10-15 liters
- **Drinking water treated before consumption:** No treatment
- **Main problem with the water:** Odor/smell

### Hygiene / Sanitation

- **People use toilets on or off site:** On-site
- **Condition of most of the latrines:** Not so good (not hygienic)
- **Evidence of open defecation:** No
- **Evidence of hand-washing practices:** No

### Food / Nutrition

- **Access to food:** No
- **Access to a market near from the site:** Yes
- **Most common source for food:** Own cash

### Protection

- **Security on-site/settlement areas:** Yes
- **Main security provider:** Self organized
- **Lighting in communal points:** Yes, but not adequate

### Education

- **Access to formal education facility:** Yes
- **Access to non formal education facility:** No
- **Distance to nearest education facility:** Off-site (<20 minutes)
- **% of girls at the site attending school:** >75%

### Health

- **Distance to the closest functioning health facility:** Off-site (<30 minutes)
- **Provider of on-site health facilities:** Government
- **Access to psychosocial support in the last 4 weeks:** No
- **Access to immunization services in the last 4 weeks:** Yes

### Prevalent health problems

- **1st most:** None
- **2nd most:** None
- **3rd most:** None

### Livelihood

- **Occupation of most of the households before EQ:** Agriculture/Livestock
- **Livestock on site:** No
- **Income activities women are interested:** Weaving/knitting
- **Income activities men are interested:** Store/small business

### Winterization

- **HH at site planning to move due to winter:** No
- **Location where families plan to cook during the winter:** In the open
- **1st most needed item for winter:** Cooking Gas
- **2nd most needed item for winter:** Fuel
- **3rd most needed item for winter:** Foam mat (floor)

### Communication

- **Main topic of information requested:** Other relief assistance
- **Complaints being reported:** No

### Shelter & NFI

- **% of HH living outside (no shelter):** None
- **% of HH living in tents:** None
- **% of HH living in temporary shelter (CGIs):** None
- **% of HH living in emergency makeshift shelters:** More than 75%
- **% of HH living in Other shelters (Open building):** None
- **% of HH have access to electricity:** More than 75%
- **% of HH have access to safe cooking facilities:** < 50%
- **1st most needed type of NFI:** Cooking Gas
- **2nd most needed type of NFI:** Blankets
- **3rd most needed type of NFI:** None

#### Persons with special vulnerabilities

- 14 breastfeeding mothers
- 3 persons with Disabilities
- 23 elderly-headed household
- 3 person with chronic diseases / serious medical conditions

#### Water

- **Location of the site’s main water source:** On-site (<20 minutes)
- **Main non-drinking water source:** Piped water supply
- **Main drinking water source:** Piped water supply
- **Average amount of water available per day/person:** 10-15 liters
- **Drinking water treated before consumption:** No treatment
- **Main problem with the water:** None

#### Hygiene / Sanitation

- **People use toilets on or off site:** On-site
- **Condition of most of the latrines:** Not so good (not hygienic)
- **Functioning toilets on-site:** 9
- **Evidence of open defecation:** No
- **Evidence of hand-washing practices:** No
- **Garbage Disposal Type:** Burning

#### Food / Nutrition

- **Access to food:** No
- **Access to a market near the site:** Yes
- **Most common source for food:** Own cash

#### Education

- **Access to formal education facility:** Yes
- **Access to non formal education facility:** No
- **Distance to nearest education facility:** On-site (<20 minutes)
- **% of girls at the site attending school:** >75%

#### Health

- **Provider of on-site health facilities:** Government
- **Security on-site/settlement areas:** Yes
- **Security incidents reported:** No
- **Main security provider:** Self organized
- **Lighting in communal points:** No lighting

#### Protection

- **Prevalent health problems:**  
  - 1st most: Skin infections
  - 2nd most: None
  - 3rd most: None

#### Occupation

- **Occupation of most of the households before EQ:** Agriculture/Livestock
- **Occupation of most of the households after EQ:** Agriculture/Livestock
- **Access to income generating activities:** Yes
- **Livestock on site:** Yes
- **IDPs have access to land for cultivation:** Yes
- **Income activities women are interested:** Weaving/knitting
- **Income activities men are interested:** Art/Craft

#### Livelihood

- **HH at site planning to move due to winter:** No
- **Winter may limit access from site to:** None
- **Majority of shelters at site are suitable for the winter:** No
- **Location where families plan to cook during the winter:** In shelter separate for cooking
- **1st most needed item for winter:** Foam mat (floor)
- **2nd most needed item for winter:** Mattress/Bed
- **3rd most needed item for winter:** Winter clothes

#### Communication

- **Main topic of information requested:** Situation in areas of origin
- **Complaints being reported:** No

#### Shelter & NFIs

- **% of HH living outside (no shelter):** None
- **% of HH living in tents:** None
- **% of HH living in temporary shelter (CGIs):** More than 75%
- **% of HH living in emergency makeshift shelters:** < 25%
- **% of HH living in Other shelters (Open building):** None
- **% of HH have access to electricity:** None
- **% of HH have access to safe cooking facilities:** None
- **1st most needed type of NFI:** Blankets
- **2nd most needed type of NFI:** CGIs
- **3rd most needed type of NFI:** Stove

### SMA Details

- **Name**: ACTED
- **Type**: International NGO
- **Focal Point**: Bharat Adhikari
- **Registration/IDPs list maintained**: Yes
- **Site having the SMC**: Yes
- **Community is taking part in SMC**: Yes

## Persons with special vulnerabilities

- **Breastfeeding mothers**: 20
- **Persons with Disabilities**: 1
- **Elderly-headed household**: 5
- **Person with chronic diseases / serious medical conditions**: 5

## Water

- **Location of the site's main water source**: On-site (<20 minutes)
- **Main non-drinking water source**: Piped water supply
- **Main drinking water source**: Piped water supply
- **Average amount of water available per day/person**: 5-10 liters
- **Drinking water treated before consumption**: No treatment
- **Main problem with the water**: Suspended solids

## Hygiene / Sanitation

- **People use toilets on or off site**: On-site
- **Condition of most of the latrines**: Good (Hygienic)
- **Functioning toilets on-site**: 131
- **Evidence of open defecation**: No
- **Evidence of hand-washing practices**: Yes
- **Garbage Disposal Type**: No System

## Food / Nutrition

- **Access to food**: No
- **Access to a market near from the site**: Yes
- **Most common source for food**: Food Distribution/Don

## Education

- **Access to formal education facility**: Yes
- **Access to non formal education facility**: Yes
- **Distance to nearest education facility**: Off-site (<20 minutes)
- **% of girls at the site attending school**: >75%

## Protection

- **Security on-site/settlement areas**: No
- **Security incidents reported**: No
- **Main security provider**: Unknown
- **Lighting in communal points**: Yes, but not adequate

## Health

- **Prevalent health problems**: 1st most: Cough, 2nd most: None, 3rd most: None

## Livelihood

- **Occupation of most of the households before EQ**: Agriculture/Livestock
- **Occupation of most of the households after EQ**: Agriculture/Livestock
- **Access to income generating activities**: No
- **Livestock on site**: Yes
- **IDPs have access to land for cultivation**: Yes
- **Income activities women are interested**: Agriculture
- **Income activities men are interested**: Store/small business

## Winterization

- **HH at site planning to move due to winter**: No
- **Winter may limit access from site to**: None
- **Majority of shelters at site are suitable for the winter**: No
- **Location where families plan to cook during the winter**: In homes nearby
- **1st most needed item for winter**: Foam mat (floor)
- **2nd most needed item for winter**: Winter clothes
- **3rd most needed item for winter**: Food stock

## Communication

- **Main topic of information requested**: Situation in areas of origin
- **Complaints being reported**: No

## Shelter & NFIs

- **% of HH have access to electricity**: More than 75%
- **% of HH have access to safe cooking facilities**: < 25%
- **1st most needed type of NFI**: Blankets
- **2nd most needed type of NFI**: Cooking Gas
- **3rd most needed type of NFI**: Kitchen sets

### Persons with special vulnerabilities

- 10 breastfeeding mothers
- 5 persons with Disabilities
- 4 elderly-headed household
- 6 person with chronic diseases / serious medical conditions

### Water

- Location of the site’s main water source: On-site (<20 minutes)
- Main non-drinking water source: Piped water supply
- Main drinking water source: Piped water supply
- Average amount of water available per day/person: >15 liters
- Drinking water treated before consumption: No treatment
- Main problem with the water: None

### Hygiene / Sanitation

- People use toilets on or off site: On-site
- Condition of most of the latrines: Not so good (not hygienic)
- Functioning toilets on-site: 9
- Evidence of open defecation: Yes
- Evidence of hand-washing practices: No
- Garbage Disposal Type: No System

### Food / Nutrition

- Access to food: Yes
- Access to a market near from the site: Yes
- Most common source for food: Own/Cultivated
- Supplementary feeding availability for pregnant/lactating mother: No
- Supplementary feeding availability for children: No

### Education

- Access to formal education facility: Yes
- Access to non formal education facility: No
- Distance to nearest education facility: Off-site (<20 minutes)
- % of girls at the site attending school: >75%

### Protection

- Security on-site/settlement areas: No
- Security incidents reported: No
- Main security provider: Government
- Lighting in communal points: Unknown

### Health

- Distance to the closest functioning health facility: Off-site (<30 minutes)
- Provider of on-site health facilities: Government
- Access to psychosocial support in the last 4 weeks: No
- Access to immunization services in the last 4 weeks: No
- % of women participating in SMC: UNKNOWN
- Main problem of the households before EQ: Agriculture/Livestock
- Main problem of the households after EQ: Agriculture/Livestock
- Access to income generating activities: Yes
- Livestock on site: Yes
- IDPs have access to land for cultivation: Yes
- Income activities women are interested: Livestock
- Income activities men are interested: Store/small business
- HH at site planning to move due to winter: No
- Winter may limit access from site to: None
- Majority of shelters at site are suitable for the winter: No
- Location where families plan to cook during the winter: In shelter where people sleep
- 1st most needed item for winter: Foam mat (floor)
- 2nd most needed item for winter: CGIs
- 3rd most needed item for winter: Winter clothes

**Persons with special vulnerabilities**

- 54 breastfeeding mothers
- 6 persons with Disabilities
- 5 elderly-headed household
- 0 person with chronic diseases / serious medical conditions

**Water**

- Location of the site's main water source: On-site (<20 minutes)
- Main non-drinking water source: Piped water supply
- Main drinking water source: Piped water supply
- Average amount of water available per day/person: 5-10 liters
- Drinking water treated before consumption: Filtered
- Main problem with the water: None

**Hygiene / Sanitation**

- People use toilets on or off site: On-site
- Condition of most of the latrines: Not so good (not hygienic)
- Functioning toilets on-site: 8
- Evidence of open defecation: No
- Evidence of hand-washing practices: No
- Garbage Disposal Type: Burning

**Food / Nutrition**

- Access to food: Yes, On-Site
- Access to a market near from the site: Yes
- Most common source for food: Food Distribution/Don

**Education**

- Access to formal education facility: Yes
- Access to non formal education facility: No
- Distance to nearest education facility: Off-site (>20 minutes)
- % of girls at the site attending school: >75%

**Health**

- Distance to the closest functioning health facility: Off-site (<30 minutes)
- Provider of on-site health facilities: NGO
- Access to psychosocial support in the last 4 weeks: No
- Access to immunization services in the last 4 weeks: Yes

**Livelihood**

- Occupation of most of the households before EQ: Agriculture/Livestock
- Occupation of most of the households after EQ: None
- Access to income generating activities: No
- Livestock on site: No
- IDPs have access to land for cultivation: No
- Income activities women are interested: Weaving/knitting
- Income activities men are interested: Store/small business
- HH at site planning to move due to winter: No
- Winter may limit access from site to: None
- Majority of shelters at site are suitable for the winter: No
- Location where families plan to cook during the winter: In shelter where people sleep
- 1st most needed item for winter: Winter clothes
- 2nd most needed item for winter: Foam mat (floor)
- 3rd most needed item for winter: Mattress/Bed

**Displacement**

Persons with special vulnerabilities
- Breastfeeding mothers: 25
- Person with Disabilities: 3
- Elderly-headed households: 0
- Person with chronic diseases / serious medical conditions: 0

Water
- Main water source: On-site (<20 minutes)
- Main non-drinking water source: Piped water supply
- Main drinking water source: Unprotected Well
- Average amount of water available per day/person: >15 liters
- Drinking water treated before consumption: No treatment
- Main problem with the water: Odor/smell

Hygiene / Sanitation
- People use toilets on or off site: On-site
- Condition of most of the latrines: Not so good (not hygienic)
- Functioning toilets on site: 20
- Evidence of open defecation: No
- Evidence of hand-washing practices: Yes
- Garbage Disposal Type: Burning

Food / Nutrition
- Access to food: No
- Access to a market near from the site: Yes
- Most common source for food: Own cash

Education
- Access to formal education facility: Yes
- Access to non formal education facility: No
- Distance to nearest education facility: Off-site (<20 minutes)
- % of girls at the site attending school: >75%

Health
- Provider of on-site health facilities: Local Clinic/med practitioners
- Main security provider: Unknown
- Security on-site/settlement areas: No
- Main security provider: Unknown
- Lighting in communal points: Yes, but not adequate

Prevalent health problems
- 1st most: Diarrhea
- 2nd most: Cough
- 3rd most: Conjunctivitis

Livelihood
- Occupation of most of the households before EQ: Agriculture/Livestock
- Occupation of most of the households after EQ: Daily wage/Labourer
- Access to income generating activities: Yes
- Livestock on site: No
- IDPs have access to land for cultivation: Yes
- Income activities women are interested: Store/small business
- Income activities men are interested: Construction/daily labour

Winterization
- HH at site planning to move due to winter: No
- Winter may limit access from site to: None
- Majority of shelters at site are suitable for the winter: No
- Location where families plan to cook during the winter: In shelter where people sleep
- 1st most needed item for winter: Foam mat (floor)
- 2nd most needed item for winter: Winter footwear
- 3rd most needed item for winter: Blankets

Communication
- Main topic of information requested: Work opportunities
- Male IDPS get most information from: Families & friends
- Female IDPS get most information from: Radio/News

Shelter & NFIs
- % of HH living outside (no shelter): None
- % of HH living in tents: < 25%
- % of HH living in temporary shelter (CGIs): < 50%
- % of HH living in emergency makeshift shelters: < 50%
- % of HH living in Other shelters (Open building): None
- % of HH have access to electricity: More than 75%
- % of HH have access to safe cooking facilities: < 50%
- 1st most needed type of NFI: Fire wood
- 2nd most needed type of NFI: Cooking Gas
- 3rd most needed type of NFI: Blankets

### Water

- **Location of the site’s main water source:** Off-site (>20 minutes)
- **Main drinking water source:** Piped water supply
- **Average amount of water available per day/person:** >15 liters
- **Drinking water treated before consumption:** No treatment
- **Main problem with the water:** Taste

### Hygiene / Sanitation

- **People use toilets on or off site:** On-site
- **Condition of most of the latrines:** Not so good (not hygienic)
- **Functioning toilets on-site:** 10
- **Evidence of open defecation:** No
- **Evidence of hand-washing practices:** Yes
- **Garbage Disposal Type:** No System

### Food / Nutrition

- **Access to food:** No
- **Access to a market near from the site:** No
- **Most common source for food:** Own cash

### Education

- **Access to formal education facility:** Yes
- **Access to non formal education facility:** No
- **Distance to nearest education facility:** Off-site (<20 minutes)
- **% of girls at the site attending school:** >75%

### Health

- **Provider of on-site health facilities:** Government
- **Main security provider:** Unknown
- **Lighting in communal points:** No lighting

### Winterization

- **Occupation of most of the households before EQ:** Agriculture/Livestock
- **Occupation of most of the households after EQ:** None
- **Access to income generating activities:** Yes
- **Livestock on site:** Yes
- **IDPs have access to land for cultivation:** No
- **Income activities women are interested:** Art/Craft
- **Income activities men are interested:** Tourism

### Communication

- **Male IDPs get most information from:** Radio/News
- **Female IDPs get most information from:** Radio/News
- **Main topic of information requested:** Recovery plans

### Shelter & NFI

- **% of HH living outside (no shelter):** None
- **% of HH living in tents:** < 25%
- **% of HH living in temporary shelter (CGIs):** < 25%
- **% of HH living in emergency makeshift shelters:** < 75%
- **% of HH living in Other shelters (Open building):** None
- **% of HH have access to electricity:** < 75%
- **% of HH have access to safe cooking facilities:** < 25%
- **1st most needed type of NFI:** CGIs
- **2nd most needed type of NFI:** Cooking Gas
- **3rd most needed type of NFI:** Blankets

### Persons in Need

#### Session managing authority (SMA)

- **Name:** People in need
- **Registration/IDPs list maintained:** Yes
- **Site having the SMC:** Yes
- **Community is taking part in SMC:** Yes
- **SMA type:** International NGO
- **SMA focal point:** Madhav Dhungana

### Persons with special vulnerabilities

- **10 breastfeeding mothers**
- **5 person with Disabilities**
- **4 elderly-headed household**
- **2 person with chronic diseases / serious medical conditions**

### Water

- **Location of the site’s main water source:** On-site (<20 minutes)
- **Main drinking water source:** Piped water supply
- **Main non-drinking water source:** Piped water supply
- **Average amount of water available per day/person:** >15 liters
- **Drinking water treated before consumption:** Filtered
- **Main problem with the water:** Suspended solids

### Hygiene / Sanitation

- **People use toilets on or off site:** On-site
- **Condition of most of the latrines:** Good (Hygienic)
- **Functioning toilets on-site:** 10
- **Evidence of open defecation:** No
- **Evidence of hand-washing practices:** Yes
- **Garbage Disposal Type:** Burning

### Food / Nutrition

- **Access to food:** Yes, On-Site
- **Most common source for food:** Own cash
- **Access to a market near from the site:** No
- **Access to formal education facility:** Yes
- **Access to non formal education facility:** No
- **Distance to nearest education facility:** On-site (<20 minutes)
- **% of girls at the site attending school:** >75%

### Education

- **Provider of on-site health facilities:** Government
- **Access to psychosocial support in the last 4 weeks:** No
- **Access to immunization services in the last 4 weeks:** Yes
- **% of girls at the site attending school:** >75%

### Health

- **Provider of on-site health facilities:** Government
- **Security on-site/settlement areas:** Yes
- **Security incidents reported:** No
- **Main security provider:** Self organized
- **Lighting in communal points:** No lighting

### Protection

- **Access to formal education facility:** Yes
- **Access to non formal education facility:** No
- **Distance to nearest education facility:** On-site (<20 minutes)
- **% of girls at the site attending school:** >75%

### Livelihood

- **Occupation of most of the households before EQ:** Agriculture/Livestock
- **Occupation of most of the households after EQ:** Agriculture/Livestock
- **Access to income generating activities:** No
- **Livestock on site:** No
- **Income activities women are interested:** Weaving/knitting
- **Income activities men are interested:** Store/small business

### Winterization

- **HH at site planning to move due to winter:** No
- **Winter may limit access from site to:** Market
- **Majority of shelters at site are suitable for the winter:** No
- **Location where families plan to cook during the winter:** In shelter where people sleep
- **1st most needed item for winter:** Foam mat (floor)
- **2nd most needed item for winter:** Blanket
- **3rd most needed item for winter:** Winter clothes

### Shelter & NFIs

- **% of HH living outside (no shelter):** None
- **% of HH living in tents:** None

**Persons with special vulnerabilities**

- 8 breastfeeding mothers
- 3 person with Disabilities
- 1 elderly-headed household
- 5 person with chronic diseases / serious medical conditions

**Water**

- Location of the site's main water source: Off-site (<20 minutes)
- Main non-drinking water source: Protected Well
- Main drinking water source: Piped water supply
- Average amount of water available per day/person: >15 liters
- Drinking water treated before consumption: No treatment
- Main problem with the water: None

**Hygiene / Sanitation**

- People use toilets on or off site: On-site
- Condition of most of the latrines: Not so good (not hygienic)
- Functioning toilets on-site: 10
- Evidence of open defecation: No
- Evidence of hand-washing practices: No
- Garbage Disposal Type: Burning

**Food / Nutrition**

- Access to food: No
- Access to a market near from the site: Yes
- Most common source for food: Own/Cultivated

**Education**

- Access to formal education facility: Yes
- Access to non formal education facility: No
- Distance to nearest education facility: Off-site (<20 minutes)
- % of girls at the site attending school: >75%

**Protection**

- Security on-site/settlement areas: No
- Security incidents reported: No
- Main security provider: Unknown
- Lighting in communal points: Yes, but not adequate

**Health**

- Prevalent health problems
  - 1st most: Diarrhea
  - 2nd most: Cold
  - 3rd most: Skin infections

**Livelihood**

- Occupation of most of the households before EQ: Agriculture/Livestock
- Occupation of most of the households after EQ: Agriculture/Livestock
- Access to income generating activities: Yes
- Livestock on site: Yes
- IDPs have access to land for cultivation: No
- Income activities women are interested: Weaving/knitting
- Income activities men are interested: Tourism

**Winterization**

- HH at site planning to move due to winter: Yes
- Winter may limit access from site to: None
- Majority of shelters at site are suitable for the winter: No
- Location where families plan to cook during the winter: In shelter where people sleep
- 1st most needed item for winter: Mattress/Bed
- 2nd most needed item for winter: Heater
- 3rd most needed item for winter: Foam mat (floor)

**Shelter & NFIs**

- % of HH living outside (no shelter): None
- % of HH living in tents: None
- % of HH living in temporary shelter (CGIs): More than 75%
- % of HH living in emergency makeshift shelters: None
- % of HH living in Other shelters (Open building): None
- % of HH have access to electricity: More than 75%
- % of HH have access to safe cooking facilities: < 25%
- 1st most needed type of NFI: Blankets
- 2nd most needed type of NFI: Storage Bin
- 3rd most needed type of NFI: Winter clothes

**Communication**

- Male IDPS get most information from: Radio/News
- Female IDPS get most information from: Radio/News
- Main topic of information requested: Work opportunities
- Complaints being reported: Yes

#### Persons with Special Vulnerabilities

- 7 breastfeeding mothers
- 1 person with Disabilities
- 2 elderly-headed household
- 0 person with chronic diseases / serious medical conditions

**Persons with special vulnerabilities**

- 7 breastfeeding mothers  
- 1 person with Disabilities  
- 2 elderly-headed household  
- 0 person with chronic diseases / serious medical conditions

- **Water**
  - Location of the site’s main water source: On-site (<20 minutes)
  - Main non-drinking water source: Surface water
  - Main drinking water source: Surface water
  - Average amount of water available per day/person: 5-10 liters
  - Drinking water treated before consumption: Filtered
  - Main problem with the water: Suspended solids

- **Hygiene / Sanitation**
  - People use toilets on off site: On-site
  - Condition of most of the latrines: Good (Hygienic)
  - Functioning toilets on-site: 10
  - Evidence of open defecation: No
  - Evidence of hand-washing practices: Yes
  - Garbage Disposal Type: Burning

- **Food / Nutrition**
  - Access to food: Yes, Off-site
  - Access to a market near the site: No
  - Most common source for food: Food Distribution/Don

- **Education**
  - Access to formal education facility: Yes
  - Access to non formal education facility: Yes
  - Distance to nearest education facility: Off-site (>20 minutes)
  - % of girls at the site attending school: >75%

- **Protection**
  - Security on-site/settlement areas: No
  - Security incidents reported: None
  - Main security provider: NGO
  - Lighting in communal points: No lighting

- **Health**
  - Prevalent health problems
    - 1st most: None
    - 2nd most: None
    - 3rd most: None

- **Livelihood**
  - Occupation of most of the households before EQ: Agriculture/Livestock
  - Occupation of most of the households after EQ: None
  - Access to income generating activities: No
  - Livestock on site: No
  - IDPs have access to land for cultivation: No
  - Income activities women are interested: Livestock
  - Income activities men are interested: Construction/daily labour

- **Winterization**
  - HH at site planning to move due to winter: No
  - Winter may limit access from site to: None
  - Majority of shelters at site are suitable for the winter: No
  - Location where families plan to cook during the winter: In shelter separate for cooking
  - 1st most needed item for winter: Food stock
  - 2nd most needed item for winter: CGIs
  - 3rd most needed item for winter: Winter clothes

- **Communication**
  - Male IDPS get most information from: Radio/News
  - Female IDPS get most information from: Families & friends
  - Main topic of information requested: Shelter
  - Complaints being reported: No

- **Shelter & NFIs**
  - % of HH living outside (no shelter): None
  - % of HH living in tents: None
  - % of HH living in temporary shelter (CGIs): None
  - % of HH living in emergency makeshift shelters: More than 75%
  - % of HH living in Other shelters (Open building): None
  - % of HH have access to electricity: None
  - % of HH have access to safe cooking facilities: None
  - 1st most needed type of NFI: Blankets
  - 2nd most needed type of NFI: Kitchen sets
  - 3rd most needed type of NFI: None

- Access to food: No
- Access to a market near from the site: Yes
- Most common source for food: Own cash

### Education

- Access to formal education facility: Yes
- Access to non formal education facility: Yes
- Distance to nearest education facility: Off-site (<20 minutes)
- % of girls at the site attending school: >75%

### Protection

- Security on-site/settlement areas: Yes
- Main security provider: Police
- Main security provider: Police
- Lighting in communal points: Yes, but not adequate

### Health

- Distance to the closest functioning health facility: Off-site (<30 minutes)
- Provider of on-site health facilities: Government
- Access to psychosocial support in the last 4 weeks: Yes
- Access to immunization services in the last 4 weeks: No

### Prevalent health problems

- 1st most: Cold
- 2nd most: Diarrhea
- 3rd most: Conjunctivitis

### Winterization

- Occupation of most of the households before EQ: Agriculture/Livestock
- HH at site planning to move due to winter: No
- Winter may limit access from site to: None
- Majority of shelters at site are suitable for the winter: No
- Location where families plan to cook during the winter: In shelter where people sleep
- 1st most needed item for winter: Foam mat (floor)
- 2nd most needed item for winter: Blanket
- 3rd most needed item for winter: Winter clothes

### Communication

- Male IDPS get most information from: Families & friends
- Female IDPS get most information from: Radio/News
- Main topic of information requested: Recovery plans

### Shelter & NFIs

- % of HH living outside (no shelter): None
- % of HH living in tents: None
- % of HH living in temporary shelter (CGIs): < 25%
- % of HH living in emergency makeshift shelters: More than 75%
- % of HH living in Other shelters (Open building): None
- % of HH have access to electricity: < 50%
- % of HH have access to safe cooking facilities: < 50%
- 1st most needed type of NFI: Kitchen sets
- 2nd most needed type of NFI: Blankets
- 3rd most needed type of NFI: Cooking Gas

### Persons with special vulnerabilities

- **28** breastfeeding mothers
- **8** person with Disabilities
- **10** elderly-headed households
- **0** person with chronic diseases / serious medical conditions

### Water

- **Location of the site's main water source:** On-site (<20 minutes)
- **Main non-drinking water source:** Piped water supply
- **Average amount of water available per day/person:** >15 liters
- **Main problem with the water:** None

### Hygiene / Sanitation

- **Functioning toilets on-site:** 21
- **Evidence of open defecation:** No
- **Evidence of hand-washing practices:** Yes
- **Garbage Disposal Type:** Garbage pit

### Food / Nutrition

- **Access to formal education facility:** Yes
- **Most common source for food:** Own cash
- **Access to psychosocial support in the last 4 weeks:** No
- **Access to income generating activities in the last 4 weeks:** No

### Education

- **Access to formal education facility:** Yes
- **Access to non formal education facility:** No
- **Distance to nearest education facility:** Off-site (>20 minutes)
- **% of girls at the site attending school:** >75%

### Livelihood

- **Occupation of most of the households before EQ:** Agriculture/Livestock
- **Livestock on site:** Yes
- **IDPs have access to land for cultivation:** None
- **Income activities women are interested:** Weaving/knitting
- **Income activities men are interested:** Construction/daily labour

### Winterization

- **HH at site planning to move due to winter:** No
- **Winter may limit access from site to:** Nearest health facility
- **Location where families plan to cook during the winter:** In shelter where people sleep
- **1st most needed item for winter:** Blanket
- **2nd most needed item for winter:** Foam mat (floor)
- **3rd most needed item for winter:** Kitchen sets

### Water
- **Main drinking water source:** Piped water supply
- **Main non-drinking water source:** Piped water supply
- **Average amount of water available per day/person:** 10-15 liters
- **Drinking water treated before consumption:** Filtered
- **Main problem with the water:** None

### Hygiene / Sanitation
- **Location of the site’s main water source:** On-site (<20 minutes)
- **People use toilets on or off site:** On-site
- **Condition of most of the latrines:** Not so good (not hygienic)
- **Functioning toilets on-site:** 9
- **Evidence of open defecation:** Yes
- **Evidence of hand-washing practices:** No
- **Garbage Disposal Type:** Burning

### Food / Nutrition
- **Access to food:** Yes, On-Site
- **Access to a market near the site:** Yes
- **Most common source for food:** Own cash
- **Screening for malnutrition conducted in the area:** No
- **Supplementary feeding availability for pregnant/lactating mother:** No
- **Supplementary feeding availability for children:** No

### Education
- **Access to formal education facility:** Yes
- **Access to non formal education facility:** No
- **Distance to nearest education facility:** Off-site (>20 minutes)
- **% of girls at the site attending school:** >75%

### Protection
- **Security on-site/settlement areas:** Yes
- **Security incidents reported:** No
- **Main security provider:** Police
- **Lighting in communal points:** No lighting

### Health
- **Prevalent health problems**
  - 1st most: Diarrhea
  - 2nd most: Cough
  - 3rd most: Cold

### Winterization
- **Location where families plan to cook during the winter:** In shelter where people sleep
- **1st most needed item for winter:** Blanket
- **2nd most needed item for winter:** Mattress/Bed
- **3rd most needed item for winter:** Winter clothes
- **% of HH living outside (no shelter):** None
- **% of HH living in tents:** None
- **% of HH living in temporary shelter (CGIs):** More than 75%
- **% of HH living in emergency makeshift shelters:** < 25%
- **% of HH living in Other shelters (Open building):** None
- **% of HH have access to electricity:** None
- **% of HH have access to safe cooking facilities:** None
- **1st most needed type of NFI:** Electricity / Solar lamp
- **2nd most needed type of NFI:** Stove
- **3rd most needed type of NFI:** None

### Water

- **Location of the site's main water source:** On-site (<20 minutes)
- **Main non-drinking water source:** Piped water supply
- **Main drinking water source:** Piped water supply
- **Average amount of water available per day/person:** 10-15 liters
- **Drinking water treated before consumption:** No treatment
- **Main problem with the water:** None

### Hygiene / Sanitation

- **People use toilets on or off site:** On-site
- **Condition of most of the latrines:** Not so good (not hygienic)
- **Functioning toilets on-site:** 4
- **Evidence of open defecation:** No
- **Evidence of hand-washing practices:** Yes
- **Garbage Disposal Type:** Burning

### Food / Nutrition

- **Access to food:** Yes, On-Site
- **Access to a market near from the site:** Yes
- **Most common source for food:** Food Distribution/Don

### Education

- **Access to formal education facility:** Yes
- **Access to non formal education facility:** No
- **Distance to nearest education facility:** Off-site (>20 minutes)
- **% of girls at the site attending school:** >75%

### Protection

- **Security on-site/settlement areas:** No
- **Security incidents reported:** No
- **Main security provider:** Unknown
- **Lighting in communal points:** No lighting

### Health

- **Prevental health problems:**
  - 1st most: None
  - 2nd most: None
  - 3rd most: None

### Livelihood

- **Occupation of most of the households before EQ:** Agriculture/Livestock
- **Occupation of most of the households after EQ:** Daily wage/Laborer
- **Access to income generating activities:** Yes
- **Livestock on site:** No
- **IDPs have access to land for cultivation:** No
- **Income activities women are interested:** Weaving/knitting
- **Income activities men are interested:** Store/small business

### Winterization

- **HH at site planning to move due to winter:** No
- **Winter may limit access from site to:** None
- **Majority of shelters at site are suitable for the winter:** No
- **Location where families plan to cook during the winter:** In shelter where people sleep
  - 1st most needed item for winter: Foam mat (floor)
  - 2nd most needed item for winter: Blanket
  - 3rd most needed item for winter: Winter clothes

### Communication

- **Main topic of information requested:** For how long the site will remain active
- **Complaints being reported:** No

### Shelter & NFIs

- **% of HH have access to electricity:** None
- **% of HH have access to safe cooking facilities:** < 25%
  - 1st most needed type of NFI: Blankets
  - 2nd most needed type of NFI: Kitchen sets
  - 3rd most needed type of NFI: Dust bin

</tr>
</tbody>
</table>

### IDPs from:

- Rasuwa (Dadagaun, 7,9) and Rasuwa (Haku, 8,9)

### Persons with special vulnerabilities

- 3 breastfeeding mothers
- 5 persons with Disabilities
- 3 elderly-headed household
- 0 person with chronic diseases / serious medical conditions

### Water

- **Location of the site's main water source:** On-site (<20 minutes)
- **Main non-drinking water source:** Spring/river
- **Main drinking water source:** Piped water supply
- **Average amount of water available per day/person:** 10-15 liters
- **Drinking water treated before consumption:** No treatment
- **Main problem with the water:** Odor/smell

### Hygiene / Sanitation

- **Condition of most of the latrines:** No toilets
- **Functioning toilets on-site:** 0
- **Evidence of open defecation:** Yes
- **Evidence of hand-washing practices:** No
- **Garbage Disposal Type:** Garbage pit

### Food / Nutrition

- **Access to food:** No
- **Access to a market near the site:** Yes
- **Most common source for food:** Own cash

### Education

- **Access to formal education facility:** Yes
- **Access to non-formal education facility:** No
- **Distance to nearest education facility:** Off-site (>20 minutes)
- **% of girls at the site attending school:** >75%

### Health

- **Distance to the closest functioning health facility:** Off-site (<30 minutes)
- **Provider of on-site health facilities:** Local Clinic/med practitioners
- **Security on-site/settlement areas:** Yes
- **Main security provider:** Police
- **Lighting in communal points:** No lighting

### Prevalent health problems

- 1st most: Cough
- 2nd most: Cold
- 3rd most: Skin infections

### Occupation of most of the households before EQ:

- Agriculture/Livestock

### Livelihood

- **Livestock on site:** No
- **Income activities women are interested:** Agriculture
- **Income activities men are interested:** Agriculture

### Winterization

- **HH at site planning to move due to winter:** None
- **Winter may limit access from site to:** None
- **Majority of shelters at site are suitable for the winter:** None
- **Location where families plan to cook during the winter:** In shelter where people sleep
- **1st most needed item for winter:** Blanket
- **2nd most needed item for winter:** Mattress/Bed
- **3rd most needed item for winter:** Winter clothes

### Communication

- **Main topic of information requested:** Recovery plans
- **Complaints being reported:** No

### Occupation of most of the households after EQ:

- Agriculture/Livestock

### Access to income generating activities:

- Yes

### IDPs have access to land for cultivation:

- No

### Income activities women are interested:

- Agriculture

### Income activities men are interested:

- Agriculture

### Male IDPS get most information from:

- Authorities

### Female IDPS get most information from:

- Authorities

### % of HH living outside (no shelter):

- None

### % of HH living in tents:

- None

### % of HH living in temporary shelter (CGIs):

- More than 75%

### % of HH living in emergency makeshift shelters:

- None

### % of HH living in Other shelters (Open building):

- None

### % of HH have access to electricity:

- < 75%

### % of HH have access to safe cooking facilities:

- None

### 1st most needed type of NFI:

- Blankets

### 2nd most needed type of NFI:

- Cooking Gas

### 3rd most needed type of NFI:

- None

**Persons with special vulnerabilities**

- 3 breastfeeding mothers
- 2 person with Disabilities
- 1 elderly-headed household
- 1 person with chronic diseases / serious medical conditions

### Water

- **Location of the site’s main water source:** Off-site (<20 minutes)
- **Main drinking water source:** Piped water supply
- **Main non-drinking water source:** Piped water supply
- **Average amount of water available per day/person:** >15 liters
- **Drinking water treated before consumption:** No treatment
- **Main problem with the water:** None

### Hygiene / Sanitation

- People use toilets on or off site: On-site
- **Condition of most of the latrines:** Not so good (not hygienic)
- **Functioning toilets on-site:** 6
- **Evidence of open defecation:** No
- **Evidence of hand-washing practices:** No
- **Garbage Disposal Type:** Burning

### Food / Nutrition

- Access to food: No
- Access to a market near from the site: Yes
- **Most common source for food:** Own cash

### Education

- Access to formal education facility: Yes
- Access to non formal education facility: No
- **Distance to nearest education facility:** Off-site (<20 minutes)
- **% of girls at the site attending school:** >75%

### Health

- **Prevalent health problems**
  - 1st most: None
  - 2nd most: None
  - 3rd most: None

### Livelihood

- **Occupation of most of the households before EQ:** Employed
- **Occupation of most of the households after EQ:** Employed
- **Access to income generating activities:** Yes
- **Livestock on site:** No
- **IDPs have access to land for cultivation:** Yes
- **Income activities women are interested:** Agriculture
- **Income activities men are interested:** Agriculture

### Winterization

- **HH at site planning to move due to winter:** No
- Winter may limit access from site to: None
- **Majority of shelters at site are suitable for the winter:** No
- **Location where families plan to cook during the winter:** In shelter separate for cooking
- 1st most needed item for winter: Foam mat (floor)
- 2nd most needed item for winter: Mattress / Bed
- 3rd most needed item for winter: Blanket

### Communication

- Male IDPS get most information from: Radio/News
- Female IDPS get most information from: Radio/News
- **Main topic of information requested:** Recovery plans
- **Complaints being reported:** Unknown

### Shelter & NFIs

- **% of HH living outside (no shelter):** None
- **% of HH living in tents:** < 25%
- **% of HH living in temporary shelter (CGIs):** More than 75%
- **% of HH living in emergency makeshift shelters:** None
- **% of HH living in Other shelters (Open building):** None
- **% of HH have access to electricity:** More than 75%
- **% of HH have access to safe cooking facilities:** None
- 1st most needed type of NFI: WASH facility
- 2nd most needed type of NFI: Drainage
- 3rd most needed type of NFI: None
