Bairro da unidade

Survey Date: 2019-07-01

Site Information

- Site Type: Planned camps
- Site Opening Date: 2019-06-01
- Province: Manica
- District: Sussundenga
- Post: Dombe
- Locality: Darue

Is there cholera been reported at this site since the cyclone? No

Soap/detergent for washing clothes: None

Is the site physically accessible? Yes

Is there security provider/mechanism that ensure safety of persons at the location? Yes

Site Status: Open

Households

320 Male
1,054 Female

1,831 Individuals

Need

First need: Agriculture Inputs
Second need: Food
Third need: Household Items (NFI)

Vulnerabilities

Pregnant women: 0
Breastfeeding mothers: 0
Mental/Physical disability: 3
Chronic diseases: 13%

VULNERABILITIES

VULNERABILITIES

Wash

Main source of drinking water: Small water system
Main problem with water: None
Average daily water consumption per person: > 15 ltr
Average wait time for water: Between 16 and 30 minutes
Number of functional latrines at site: 226
Is there functional bathing space at site? Yes
Is there hand washing stations with water and soap close to latrines/bathing space? Yes, but without soap
How clean you think the site is in terms of waste? 2. Clean
Do people live in areas where open defecation is frequently visible? No

Health

Availability of healthcare services on site: No
Number of functioning healthcare facilities: 0
Do people have access to healthcare services: No
Time to reach the nearest health facility: None
Why people don’t have access to healthcare: Facility does not exist
Is medicines available for majority of the population: No
During their pregnancy, are most women seeing a health professional: Yes
Do populations with HIV know where to go to seek treatment and care? Yes
Do people know where to go to seek Tuberculosis treatment and care? Yes
Has cholera been reported at this site since the cyclone? No
When was the last case reported? Unknown

Protection

Is there security provider/mechanism that ensure safety of persons at the location? Yes
Is there a mechanism for referral for GBV survivors? Unknown
Is there a support mechanism for psychosocial needs of the population? No

Community Engagement

Top 3 ways population communicates with humanitarian partners: Staff from humanitarian agencies; Religious Leader or group; Local government office
Top 3 ways humanitarian partners communicates with population: Community leader or group; Community volunteer/mobilizers; Local government office

- **Survey Date:** 2019-07-02

- **Site Information:**
  - **Age Range:** Male: 62, Female: 35
  - **% Male:** 57%
  - **% Female:** 43%

### Additional Information

- **The demographic have been obtained by using the demographic calculation method**

- **The information included in this report was collected from 2019-07-01 to 2019-07-08. To access information on IDP population in displacements sites as of today, kindly consult IOM Displacement Movement Tracking – Daily Update**

- **Published on:** 2019-08-12

- **Displacement Tracking Matrix - International Organization for Migration - August 2019**
**Households**

- **Total Individuals**: 353
- **Total Households**: 70

**SHELTER**

- **Top one NFI need not accessible to IDPs**: Shoes and clothes
- **Top two NFI need not accessible to IDPs**: Items for sleeping (mats, blankets, ...)
- **Top three NFI need not accessible to IDPs**: Cooking items (pots/pans)

**FOOD SECURITY**

- **Do most people have access to functioning market?**: No
- **Why people don't have access to market?**: Market is not accessible
- **Have people received food from a distribution at site?**: Yes
- **When was the latest food distribution at this site?**: Last 7 days
- **Do most people have access to farming lands?**: Yes
- **How far is the farming lands?**: 2-3 hrs

**EDUCATION**

- **Does the majority of the school age children have access to a functioning school?**: Yes
- **Why school age children don't have access to education facility?**: Don't know
- **Number of school age children attending school**: 47
- **Waking time to the nearest education facility**: Less than 15 minutes

**MOBILITY**

- **Are the majority of the population living on this site?**: Yes
- **Why is the majority of the population not living on site?**: Don't know

**LAND TENURE**

- **Number of Household renting land in place of origin**: 0
- **Number of Household owning land in place of origin**: 70

**NEED**

- **First need**: Water
- **Second need**: Shelter
- **Third need**: Household Items (NFI)

**VULNERABILITIES**

- **Pregnant women**: 23
- **Breastfeeding mothers**: 26
- **Elderly without care givers**: 10
- **Elderly head of household**: 7
- **Male**: 154
- **Female**: 192

**WASH**

- **Main source of drinking water**: Open well
- **Main problem with water**: None
- **Average daily water consumption per person**: Unknown
- **Average wait time for water**: More than 60 minutes
- **Number of functional latrines at site**: 7
- **Is there functional bathing space at site?**: Yes
- **Is there hand washing stations with water and soap close to latrines/bathing space?**: None
- **How clean you think the site is in terms of waste?**: 3. More or less clean
- **Do people live in areas where open defecation is frequently visible?**: No

**HEALTH**

- **Availability of healthcare services on site**: Yes
- **Number of functioning healthcare facilities**: 1
- **Do people have access to healthcare services?**: Yes
- **Time to reach the nearest health facility**: Less than 15 minutes
- **Why people don't have access to healthcare?**: None
- **Is medicines available for majority of the population?**: Yes, of good quality and people can afford them
- **During their pregnancy, are most women using a health professional?**: Yes
- **Do populations with HIV know where to go to seek treatment and care?**: Yes
- **Do people know where to go to seek Tuberculosis treatment and care?**: Yes
- **Has chikungunya been reported at this site since the cyclone?**: No
- **When was the last case reported?**: None

**PROTECTION**

- **Is there security provider/mechanism that ensure safety of persons at the location?**: No
- **Is there a mechanism for referral for GBV survivors?**: No
- **Is there a support mechanism for psychosocial needs of the population?**: No

**COMMUNITY ENGAGEMENT**

- **Top 3 ways population communicates with humanitarian partners**: Radio programme in-calls; Staff from humanitarian agencies; Community leader or group
- **Top 3 ways humanitarian partners communicates with population**: Radio; Community leader or group; Call centre /hotline
### Displacement Tracking Matrix - International Organization for Migration - August 2019

### Survey Details

- **Survey Date:** 2019-07-01 to 2019-07-08
- **Published on:** 2019-08-12

### Site Information

- **Site Classification:** Resettlement Site
- **Site Type:** Planned camps
- **Province:** Sofala
- **Distric:** Buzi
- **Post:** Estaquinha
- **Locality:** Estaquinha

### Household Information

- **Number of Household living in permanent shelter:** 489
- **Number of Household living in emergency shelter:** 363
- **Number of Household living outdoors:** 0

### Food Security

- **Main source of drinking water:** Open well
- **Average daily water consumption per person:** > 15 ltr
- **Average wait time for water:** Between 16 and 30 minutes
- **Number of functioning latrines at site:** 32
- **Number of functioning bathing space at site:** None

### Education

- **Number of school age children attending school:** 200
- **Walking time to the nearest education facility:** 16 - 30 minutes

### Need

- **First need:** Food
- **Second need:** Water
- **Third need:** Household Items (NFI)

### Land Tenure

- **Number of Household renting land in place of origin:** 50
- **Number of Household owning land in place of origin:** 50

---

### Demographics

- **Male:** 57%
- **Female:** 43%

### Vulnerabilities

- **Elderly without care givers:** Yes
- **Single female head of household:** Yes
- **Single male headed of household:** Yes

### WASH

- **Main source of drinking water:** Open well
- **Main problem with water:** Flavour/Taste
- **Average daily water consumption per person:** > 15 ltr
- **Average wait time for water:** Between 16 and 30 minutes
- **Number of functional latrines at site:** 32
- **Number of functional bathing space at site:** None
- **How clean you think the site is in terms of waste:** 2. Clean
- **Do people live in areas where open defecation is frequently visible:** No

### Health

- **Availability of healthcare services on site:** No
- **Number of functioning healthcare facilities:** 0
- **Time to reach the nearest health facility:** 16 - 30 minutes
- **Why people don't have access to healthcare:** None
- **Is medicines available for majority of the population:** Yes
- **During their pregnancy, are most women seeing a health professional:** Yes, of good quality and people can afford them
- **Do populations with HIV know where to go to seek treatment and care:** Yes
- **Do people know where to go to seek Tuberculosis treatment and care:** Yes
- **Has cholera been reported at this site since the cyclone:** No
- **When was the last case reported:** None

### Protection

- **Is there a security provider/mechanism that ensure safety of persons at the location:** No
- **Is there a site Management Committee at the site:** Yes
- **Is there a Site Management Agency at the site:** Yes

### Community Engagement

- **Top 3 ways humanitarian partners communicate with population:** Radio

### SHELTER

- **Top one NFI need not accessible to IDPs:** Closed containers to transport and/or store water
- **Top two NFI need not accessible to IDPs:** Shoes and clothes
- **Top three NFI need not accessible to IDPs:** Items for sleeping (mats, blankets, etc.)
- **Number of Household living outdoors:** 10
- **Number of Household living in emergency shelter:** 144
- **Number of Household living in permanent shelter:** 29

### FOOD SECURITY

- **Do most people have access to functioning market?** No
- **Why people don’t have access to market?** Market is too far
- **Have people received food from a distribution site?** Yes
- **When was the latest food distribution at this site?** 2018-03-20
- **How far is the farming lands?** More than two weeks
- **Do most people have access to farming lands?** No
- **How far the farming lands?** None

### EDUCATION

- **Does the majority of the school age children have access to a functioning school?** Yes
- **Why school age children don’t have access to education facility?** Don’t know
- **Number of school age children attending school:** 75
- **Walking time to the nearest education facility:** Less than 15 minutes

### MOBILITY

- **Are the majority of the population living on this site?** Yes
- **Why is the majority of the population not living on site?** Don’t know
- **Province of Origin:** Manica
- **District of Origin:** Sussundenga
- **Post of Origin:** Dombe
- **Locality of Origin:** Bunga

### VULNERABILITIES

- **Pregnant women:** 0
- **Breastfeeding mothers:** 0
- **Mental/Physical disability:** 11
- **Chronic diseases:** 0
- **Elderly without care givers:** 0
- **Elderly head of household:** 99
- **Female head of household:** 99
- **Male head of household:** 60
- **Single female head of household:** 35
- **Single male head of household:** 0
- **Elderly head of household:** 0

### LAND TENURE

- **Number of Household renting land in place of origin:** 0
- **Number of Household owning land in place of origin:** 173

### HEALTH

- **Main source of drinking water:** Lagoons and waterways
- **Main problem with water:** Smell
- **Average daily water consumption per person:** Unknown
- **Average wait time for water:** No wait
- **Number of functional latrines at site:** 16
- **Is there functional bathing space at site?** Yes
- **Is there hand washing stations with water and soap close to latrines/bathing space?** Yes, but without soap
- **How clean you think the site is in terms of waste?** 2. Clean
- **Do people live in areas where open defecation is frequently visible?** No
- **Number of functioning healthcare facilities:** 0
- **Time to reach the nearest health facility:** None
- **Why people don’t have access to healthcare?** Facility is too far
- **Is medicines available for majority of the population?** No
- **During their pregnancy, are most women seeing a health professional?** No
- **Do populations with HIV know where to go to seek treatment and care?** No
- **Do people know where to go to seek Tuberculosis treatment and care?** No
- **Has cholera been reported at this site since the cyclone?** No
- **When was the last case reported?** None

### PROTECTION

- **Is there a Site Management Committee at the site?** Yes
- **Name of Site Management Agency:** None

### Households

**Total:** 1,630 Individuals  
**Households:** 326

### Food Security
- Do most people have access to functioning market? No  
- Market does not exist
- Have people received food from a distribution site? No
- When was the latest food distribution at this site? None
- Do most people have access to farming lands? No
- How far is the farming lands? None

### Shelter
- Top one NFI need not accessible to IDPs: Closed containers to transport and /or store water items for sleeping (mats, blankets,..)
- Top two NFI need not accessible to IDPs: Cooking items (pots/pans)
- Number of Household living outdoors: 0
- Number of Household living in emergency shelter: 0
- Number of Household living in permanent shelter: 0

### Education
- Does the majority of the school age children have access to a functioning school? Yes
- Why school age children don't have access to education facility? Don't know
- Number of school age children attending school: None
- Walking time to the nearest education facility: 31 - 60 minutes

### Mobility
- Are the majority of the population living on this site? No
- Why is the majority of the population not living on site? Lack of humanitarian assistance; Lack of services; Lack of livelihood
- Province of Origin: Manica
- District of Origin: Sussundenga
- Post of Origin: Dombe
- Locality of Origin: Mabaia

### Healthcare
- Is medicines available for majority of the population? No
- During their pregnancy, are most women seeing a health professional? None
- Do populations with HIV know where to go to seek treatment and care? None
- Do people know where to go to seek Tuberculosis treatment and care? None
- Has cholera been reported at this site since the cyclone? No
- When was the last case reported? None

- **Are the majority of the population living on this site?** Yes

### Site Status:

- **Open**

### Site Location:

- **-19.91665 , 33.30517**

### Site Demographics:

- **% Male**
  - 56%
- **% Female**
  - 44%

### Site Access:

- **Limited access (by foot only)**

### Need:

#### Food Security

- **Do most people have access to functioning market?** No
- **Why people don't have access to market?** None
- **Have people received food from a distribution at site?** No
- **When was the latest food distribution at this site?** 2019-07-02
- **Do most people have access to farming lands?** No
- **How far is the farming lands?** No

### Shelter

- **Number of Household living outdoors:** 0
- **Number of Household living in emergency shelter:** 0
- **Number of Household living in permanent shelter:** 0
- **Top 3 ways population communicates with humanitarian partners:** None
- **Top 3 ways humanitarian partners communicates with population:** None

### Mobility

- **Are the majority of the population living on this site?** No
- **Why is the majority of the population not living on site?** Lack of humanitarian assistance; Lack of services; Lack of livelihood
- **Province of Origin:** Manica
- **District of Origin:** Sussundenga
- **Post of Origin:** Dombe
- **Locality of Origin:** Manica

### Health

- **Is medicines available for majority of the population?** No
- **During their pregnancy, are most women using a health professional?** No
- **Do populations with HIV know where to go to seek treatment and care?** No
- **Has cholera been reported at this site since the cyclone?** No
- **When was the last case reported?** None

### Protection

- **Is there security provider/mechanism that ensure safety of persons at the location?** None
- **Is there a mechanism for referral for GBV survivors?** None
- **Is there a support mechanism for psychosocial needs of the population?** None

### Community Engagement

- **Top 3 ways population communicates with humanitarian partners:** None
- **Top 3 ways humanitarian partners communicates with population:** None

### Displacement Tracking Matrix - International Organization for Migration - August 2019

The information included in this report was collected from 2019-07-01 to 2019-07-08. To access information on IDP population in displacements sites as of today, kindly consult IOM Displacement Movement Tracking – Daily Update.

### Households

- **Total:** 2,591 Individuals
- **Male:** 1,357
- **Female:** 1,234

### Land Tenure

- **Number of Household renting land in place of origin:** 0
- **Number of Household owning land in place of origin:** 501

### Need

- **First need:** Food
- **Second need:** Household Items (NFI)
- **Third need:** Water

### Shelters

- **Top one NFI need not accessible to IDPs:** blankets, ..
- **Top two NFI need not accessible to IDPs:** Hygiene products (for personal hygiene)
- **Top three NFI need not accessible to IDPs:**
- **Number of Household living outdoors:** 0
- **Number of Household living in emergency shelter:** 501
- **Number of Household living in permanent shelter:** 0

### Food Security

- **Do most people have access to functioning market?** No
- **Why do people not have access to market?** Transportation to market is not currently running
- **Have people received food from a distribution at site?** Yes
- **When was the latest food distribution at this site?** Last 7 days
- **Do most people have access to farming lands?** No
- **How far is the farming lands?** None

### Education

- **Does the majority of the school age children have access to a functioning school?** Yes
- **Why school age children don’t have access to education facility?** Don’t know
- **Number of school age children attending school:** 501
- **Walking time to the nearest education facility:** 16 - 30 minutes

### Mobility

- **Are the majority of the population living on this site?** Yes
- **Why is the majority of the population not living on site?** Don’t know
- **Province of Origin:** Tete
- **District of Origin:** Cidade De Tete
- **Post of Origin:** Cidade De Tete
- **Locality of Origin:** Cidade de Tete

### Vulnerabilities

- **Pregnant women:** 47
- **Breastfeeding mothers:** 2
- **Elderly without care givers:** 0
- **Single female head of household:** 57
- **Single male headed of household:** 10
- **Elderly head of household:** 6

### Land Tenure

- **Number of Household renting land in place of origin:** 0
- **Number of Household owning land in place of origin:** 501

### Food Security

- **Main source of drinking water:** Small water system
- **Main problem with water:** None
- **Average daily water consumption per person:** > 15 ltr
- **Average wait time for water:** Between 31 and 60 minutes
- **Number of functioning latrines at site:** 24
- **Is there functioning bathing space at site?** Yes
- **Is there hand washing stations with water and soap close to latrines/bathing space?** Yes
- **How clean you think the site is in terms of waste?** 2. Clean
- **Do people live in areas where open defecation is frequently visible?** Yes

### Health

- **Availability of healthcare services on site:** Yes
- **Number of functioning healthcare facilities:** 1
- **Do people have access to healthcare services:** Yes
- **Time to reach the nearest health facility:** Less than 15 minutes
- **Why people don't have access to healthcare?** None
- **Is medicines available for majority of the population?** None
- **Yes, of good quality and people can afford them**
- **During their pregnancy, are most women using a health professional?** Yes
- **Do populations with HIV know where to go to seek treatment and care?** Yes
- **Do people know where to go to seek Tuberculosis treatment and care?** Yes
- **Has cholera been reported at this site since the cyclone?** No
- **When was the last case reported?** None

### Protection

- **Is there security provider/mechanism that ensure safety of persons at the location?** Yes
- **Is there a mechanism for referral for GBV survivors?** Yes
- **Is there a support mechanism for psychosocial needs of the population?** No
- **Community leader or group; Suggestion box; Local government office**
- **Staff from humanitarian agencies; Local government office; Call centre /hotline**

Survey Date: 2019-07-06

**Site Information**

- **Site Classification:** Resettlement Site
- **Age Range:**
  - Male: 279
  - Female: 484
- **Sex:**
  - Male: 63%
  - Female: 37%

**Site Type:** Planned camps

**Site Opening Date:** 2019-04-15

**Province:** Sofala

**District:** Buzi

**Post:** Buzi

**Locality:** Guara Guara

**Staff from humanitarian agencies:** 234

**Guara Guara:** Yes

**52:** Yes

**23:** Yes

**134:** Yes

**103:** Yes

**175:** Yes

**Open:** Yes

**Is the site physically accessible:** Yes

**Is the site safe and secure:** Yes

**Has cholera been reported at this site since the cyclone:** Yes

**Average wait time for water:** 13 - 18 minutes

**Number of school age children attending school:** 134

**Reason school age children don’t have access to education facility:**

1. Don’t have access to functioning school
2. Don’t know
3. More or less clean

**Do people have access to healthcare services:** Yes

**Number of health professional:** 13

**Why people don’t have access to healthcare:**

1. Not covered under health insurance
2. Don’t know
3. None

**Is there a Site Management Committee at the site:** Yes

**Is there a Site Management Agency at the site:** Yes

**Name of Site Management Agency:** INGC

**Is there a support mechanism for psychosocial needs of the population:**

1. Community volunteers
2. Staff from humanitarian agencies
3. Psychologist

**Is there a Site Management Agency at the site:** Yes

**Is there a mechanism for referral for GBV survivors:**

1. Community volunteers
2. Staff from humanitarian agencies
3. Psychologist

**Is there a support mechanism for psychosocial needs of the population:**

1. Community volunteers
2. Staff from humanitarian agencies
3. Psychologist

**Is there security provider/mechanism that ensure safety of persons at the location:** Yes

**Is there a service provider contact list:** Yes

**Is there a Support centre:**

1. Community volunteers
2. Staff from humanitarian agencies
3. Psychologist

**Is there a Site Management Agency at the site:** Yes

**Is there a Site Management Agency at the site:** Yes

**Number of Household renting:** 0

**Number of Household owning:** 0

**Number of Household living in permanent shelter:** 234

**Number of Household living in emergency shelter:** 234

**Number of Household living outdoors:** 0

**Top three NFI need not accessible to IDPs:**

1. Shoes and clothes
2. Items for sleeping (mats, blankets,...)
3. Cooking items (pots/pans)

**Food and Nutrition**

- **Food Security:**
  - Do most people have access to functioning market: Yes
  - Why don’t people have access to market: None
  - Have people received food from a distribution at site: Yes
  - When was the latest food distribution at this site: Last 14 days
  - Do most people have access to farming lands: Yes
  - How far is the farming lands: <1 hr

**SHELTER**

- **Shelter:**
  - Top one NFI need not accessible to IDPs: Shoes and clothes
  - Top two NFI need not accessible to IDPs: Items for sleeping (mats, blankets,...)
  - Top three NFI need not accessible to IDPs: Cooking items (pots/pans)
  - Number of Household living outdoors: 0
  - Number of Household living in emergency shelter: 234
  - Number of Household living in permanent shelter: 234
  - Is there functional bathing space at site: Yes
  - Is there hand washing stations with water and soap close to latrines/bathing space: Yes
  - How clean you think the site is in terms of waste: 3. More or less clean
  - Is there functional bathing space at site: Yes
  - Is there hand washing stations with water and soap close to latrines/bathing space: Yes
  - How clean you think the site is in terms of waste: 3. More or less clean

**EDUCATION**

- **Education:**
  - Does the majority of the school age children have access to a functioning school: Yes
  - Why school age children don’t have access to education facility: Don’t know
  - Number of school age children attending school: 176
  - Walking time to the nearest education facility: 31 - 60 minutes

**MOBILITY**

- **Mobility:**
  - Are the majority of the population living on this site: Yes
  - Why is the majority of the population not living on site: Don’t know
  - Province of Origin: Sofala
  - District of Origin: Buzi
  - Post of Origin: Buzi
  - Locality of Origin: Guara Guara
  - Walking time to the nearest education facility: 31 - 60 minutes

**WASH**

- **Wash:**
  - Main source of drinking water: Protected well
  - Main problem with water: Solid/Dirt
  - Average daily water consumption per person: > 15 ltr
  - Average wait time for water: Less than 15 minutes
  - Number of functional latrines at site: 33
  - Is there functional bathing space at site: Yes
  - Number of functional latrines at site: 33
  - Is there functional bathing space at site: Yes
  - How clean you think the site is in terms of waste: 3. More or less clean
  - Is there a Site Management Agency at the site: Yes
  - Is there a mechanism for referral for GBV survivors: Yes
  - Is there a support mechanism for psychosocial needs of the population: Yes
  - Is there a Site Management Agency at the site: Yes
  - Is there a mechanism for referral for GBV survivors: Yes
  - Is there a support mechanism for psychosocial needs of the population: Yes

**HEALTH**

- **Health:**
  - Availability of healthcare services on site: No
  - Number of functioning healthcare facilities: 0
  - Do people have access to healthcare services: Yes
  - Time to reach the nearest health facility: 16 - 30 minutes
  - Why people don’t have access to healthcare: None
  - Is medicines available for majority of the population: Yes, of good quality and people can afford them
  - During their pregnancy, are most women using a health professional: Yes
  - Do populations with HIV know where to go to seek treatment and care: Yes
  - Do people know where to go to seek tuberculosis treatment and care: Yes
  - Has choler been reported at this site since the cyclone: No
  - When was the last case reported: None

**COMMUNITY ENGAGEMENT**

- **Community Engagement:**
  - Top 3 ways population communicates with humanitarian partners: Radio programme/ in-calls
  - Top 3 ways humanitarian partners communicates with population: Staff from humanitarian agencies

**Site Location:** 19.876297, 34.564008

### FOOD SECURITY

| Do most people have access to functioning market? | Yes | None |
| Why people don't have access to market? | | |
| Have people received food from a distribution site? | Yes | |
| When was the latest food distribution at this site? | Last 14 days |
| Do most people have access to farming lands? | Yes | |
| How far is the farming lands? | <1 hr |

### EDUCATION

| Does the majority of the school age children have access to a functioning school? | Yes |
| Why school age children don't have access to education facility? | Don't know |
| Number of school age children attending school | 991 |
| Waking time to the nearest education facility | Less than 15 minutes |

### MOBILITY

| Are the majority of the population living on this site? | Yes |
| Why is the majority of the population not living on site? | Don't know |
| Province of Origin | Sofala |
| District of Origin | Buzi |
| Post of Origin | Buzi |
| Locality of Origin | Guara Guara |

### LAND TENURE

| Number of Household owning land in place of origin | 941 |
| Number of Household renting land in place of origin | 50 |

### WASH

| Main source of drinking water | Tanks |
| Main problem with water | None |

| Average daily water consumption per person | > 15 ltr |
| Average wait time for water | Less than 15 minutes |
| Number of functional latrines at site | 610 |
| Is there functional bathing space at site? | Yes |
| Is there hand washing stations with water and soap close to latrines/bathing space? | None |

| How clean you think the site is in terms of waste? | 3. More or less clean |
| Do people live in areas where open defecation is frequently visible? | No |

### HEALTH

| Availability of healthcare services on site | Yes |
| Number of functioning healthcare facilities | 1 |
| Do people have access to healthcare services? | Yes |
| Time to reach the nearest health facility | Less than 15 minutes |

| Why people don't have access to healthcare? | None |
| Is medicine available for majority of the population? | Yes, of good quality and people can afford them |

| During their pregnancy, are most women using a health professional? | Yes |
| Do populations with HIV know where to go to seek treatment and care? | Yes |
| Do people know where to go to seek Tuberculosis treatment and care? | Yes |
| Has cholera been reported at this site since the cyclone? | No |
| When was the last case reported? | None |

### PROTECTION

| Is there security provider/mechanism that ensure safety of persons at the location? | Yes |
| Is there a mechanism for referral for GBV survivors? | Yes |

| Is there a support mechanism for psychosocial needs of the population? | Yes |
|简直就是

NEED

FOOD SECURITY

Do most people have access to functioning market?

Yes

Why don’t people have access to market?

None

Have people received food from a distribution at site?

Yes

More than two weeks

No

How far is the farming lands?

None

EDUCATION

Does the majority of the school age children have access to a functioning school?

Yes

Why school age children don’t have access to education facility?

Don’t know

Number of school age children attending school:

156

Walking time to the nearest education facility:

16 - 30 minutes

MOBILITY

Are the majority of the population living on this site?

Yes

Why is the majority of the population not living on site?

Don’t know

Province of Origin:

Sofala

District of Origin:

Nhamatanda

Post of Origin:

Nhamatanda

Locality of Origin:

Metuchira

WASH

Main source of drinking water:

Bottled water

Main problem with water:

None

Average daily water consumption per person:

10 - 15 ltr

Between 16 and 30 mintes

Average wait time for water:

180

Yes

Number of functional latrines at site:

Is there functioning bathing space at site?

Yes

Is there hand washing stations with water and soap close to latrines/bathing space?

Yes

How clean you think the site is in terms of waste?

1. Very clean

Do people live in areas where open defecation is frequently visible?

No

HEALTH

Availability of healthcare services on site:

No

Number of functioning healthcare facilities:

0

Do people have access to healthcare services:

Yes

Time to reach the nearest health facility:

16 - 30 minutes

Why don’t people have access to healthcare?

None

Is medicines available for majority of the population?

Yes, but not good quality

During their pregnancy, are most women using a health professional?

Yes

Is there a Site Management Committee at the site?

Yes

Is there a Site Management Agency at the site?

Yes

Name of Site Management Agency:

None

Is there a Site Management Committee at the site?

Yes

Is there a support mechanism for psychosocial needs of the population?

Yes

Is there a mechanism for referral for GBV survivors?

Yes

Is there a Site Management Committee at the site?

Yes

Is there a Site Management Agency at the site?

Yes

Is there a Site Management Committee at the site?

Yes

Is there a support mechanism for psychosocial needs of the population?

Yes

COMMUNITY ENGAGEMENT

- District of Origin: Namacura
- Post of Origin: Macue
- Locality of Origin: Furquia

#### COMMUNITY ENGAGEMENT

- Top 3 ways population communicates with humanitarian partners: Community leader or group
- Top 3 ways humanitarian partners communicate with population: Call centre /hotline; Local government office

#### PROTECTION

- Is there security provider/mechanism that ensure safety of persons at the location? None
- Is there a support mechanism for psychosocial needs of the population? No

#### HEALTH

- Do people know where to go to seek TB treatment and care? Yes
- Has cholera been reported at this site since the cyclone? Yes
- Is medicines available for majority of the population? Don’t know/ No answer
- During their pregnancy, are most women seeing a health professional? Yes
- Do populations with HIV know where to go for treatment and care? Yes
- Do people know where to go to seek TB treatment and care? Yes
- Has cholera been reported at this site since the cyclone? None
- When was the last case reported? None

#### EDUCATION

- Does the majority of the school age children have access to a functioning school? Yes
- Why school age children don’t have access to education facility? Don’t know
- Number of school age children attending school: 34
- Walking time to the nearest education facility: Less than 15 minutes

#### VULNERABILITIES

- Time to reach the nearest health facility: More than 2 weeks
- Number of functioning healthcare facilities: 0
- Average daily water consumption per person: > 15 ltr
- Average wait time for water: Between 16 and 30 mintes
- Number of functional latrines at site: 30
- Is there functional bathing space at site? Yes
- Is there hand washing stations with water and soap close to latrines/bathing space? Yes
- Do people live in areas where open defecation is frequently visible? No
- How clean you think the site is in terms of waste? 2. Clean
- Why people don’t have access to healthcare? None
- Available healthcare services on site: No
- Number of functioning healthcare facilities: 0
- Time to reach the nearest health facility: 31 - 60 minutes
- Do people have access to healthcare services: Yes
- Why people don’t have access to healthcare: None
- Is medicines available for majority of the population? Don’t know/ No answer
- During their pregnancy, are most women seeing a health professional? Yes
- Do populations with HIV know where to go for treatment and care? Yes
- Do people know where to go to seek TB treatment and care? Yes
- Has cholera been reported at this site since the cyclone? None
- When was the last case reported? None

#### LAND TENURE

- Number of Household renting land in place of origin: 0
- Number of Household owning land in place of origin: 0

---

*The demographic have been obtained by using the demographic calculation method.*

**Site Location:** -19.39683, 34.42966

**Population Data**

- **Individuals:** 549
  - Male: 318
  - Female: 231
- **Households:** 110
  - Male: 54
  - Female: 56

**NEED**

- **First need:** Food
- **Second need:** Shelter
- **Third need:** Education

**SHELTER**

- **Top one NFI need not accessible to IDPs:** Closed containers to transport and /or store water
- **Top two NFI need not accessible to IDPs:** Mosquito nets
- **Top three NFI need not accessible to IDPs:** Hygiene products (for personal hygiene)

**FOOD SECURITY**

- **Do most people have access to functioning market?** No
  - Why don't people have to market access? Market is not accessible

- **Have people received food from a distribution site?** Yes

- **When was the latest food distribution at this site?** More than two weeks

**EDUCATION**

- **Does the majority of the school age children have access to a functioning school?** Yes

- **Why school age children don't have access to education facility?** Don't know

- **Number of school age children attending school:** 83

**MOBILITY**

- **Are the majority of the population living on this site?** Yes

- **Why is the majority of the population not living on site?** Don't know

**PROTECTION**

- **Is there a mechanism for referral for GBV survivors?** Yes

**VULNERABILITIES**

- **Pregnant women:** 0
- **Breastfeeding mothers:** 0
- **Elderly without care givers:** 0
- **Elderly without head of household:** 0

**LAND TENURE**

- **Number of Household renting land in place of origin:** 0
- **Number of Household owning land in place of origin:** 100

**WASH**

- **Main source of drinking water:** None
  - **Main problem with water:** > 15 ltr
  - **Average daily water consumption per person:** > 15 ltr
  - **Average wait time for water:** Between 16 and 30 minutes
  - **Number of functional latrines at site:** 0
  - **Is there functional bathing space at site?** No
  - **Is there hand washing stations with water and soap close to latrines/bathing space?** Yes
  - **How clean you think the site is in terms of waste?** 2. Clean

**HEALTH**

- **Availability of healthcare services on site:** No
  - **Number of functioning healthcare facilities:** 0
  - **Do people have access to healthcare services:** No
  - **Time to reach the nearest health facility:** None
  - **Why people don't have access to healthcare?** Facility is not functioning

**EDUCATION**

- **Is medicine available for majority of the population:** Yes, but people cannot afford them

- **During their pregnancy, are most women seeing a health professional:** Yes
  - **Do populations with HIV know where to go to seek treatment and care?** Yes
  - **Do people know where to go to seek Tuberculosis treatment and care?** Yes

- **Has cholera been reported at this site since the cyclone?** No

**COMMUNITY ENGAGEMENT**

- **Is there a Site Management Agency at the site?** Yes

- **Is there a Site Management Committee at the site?** Yes

- **Are the majority of the population living on this site?** Yes

- **Is there a mechanism for referral for GBV survivors?** Yes

- **Is there a support mechanism for psychosocial needs of the population?** No
