### SHELTER

- Top one NFI need not accessible to IDPs: Shoes and clothes
- Top two NFI need not accessible to IDPs: Items for sleeping
- Top three NFI need not accessible to IDPs: Cooking items

### FOOD

- Do most people have access to functioning market: No
- Why don't most people have access to market?: Market is not functioning
- Have people received food from a distribution at site?: Yes
- When was the latest food distribution at this site?: More than 3 months
- % of household that received the recent food distribution: 39%

### EDUCATION

- Does the majority of the school age children have access to a functioning school?: Yes
- Top reason preventing most school age children from accessing education facilities: None
- Percentage of school age children attending school: 0%
- Walking time to the nearest education facility: 31 - 60 minutes

### MOBILITY

- Do people want to return to their place of Origin?: No
- Main reason preventing people from returning: No livelihood
- Expected period of displacement: More than 3 months

**PROTECTION**

- Is there security provider/ mechanism that ensure safety of persons at the location?: Yes
- Is there a mechanism for referral for GBV survivors?: Unknown
- Is there a support mechanism for psychosocial needs of the population?: No

**SHELTER**

- Main source of drinking water: Small water system
- Main problem with water: None
- Number of functional latrines at site: 226
- Is there functional bathing space at site?: Yes
- Is there hand washing stations with water and soap close to latrines/bathing space?: Yes, but without water

### HEALTH

- Availability of healthcare services on site: No
- Number of functioning healthcare facilities: None
- Do people have access to healthcare services: None
- Time to reach the nearest health facility: None

### MOBILITY

- Province of Origin: Manica
- District of Origin: Sussundenga
- Post of Origin: Dombe
- Locality of Origin: Darue

- **Third need:** Shelter

### Vulnerabilities

- **First vulnerability:** Water
- **Second vulnerability:** Food
- **Third vulnerability:** Shelter

### Shelter

- **Top one NFI need not accessible to IDPs:** None
- **Top two NFI need not accessible to IDPs:** None
- **Top three NFI need not accessible to IDPs:** None

### WASH

- **Main source of drinking water:** Hand pumps
- **Main problem with water:** None
- **Number of functional latrines at site:** 6
- **Is there functional bathing space at site?** None
- **Is there hand washing stations with water and soap close to latrines/bathing space?** None
- **How clean you think the site is in terms of waste?** Clean
- **Have hygiene promotion sessions been conducted?** Yes
- **Do people live in areas where open defecation is frequently visible?** No

### Food

- **Do most people have access to functioning market?** Yes
- **Why don't people have access to market?** More than 3 months
- **% of household that received the recent food distribution:** 30%

### Education

- **Does the majority of the school age children have access to a functioning school?** No
- **Top reason preventing most school age children from accessing education facilities:** False
- **Percentage of school age children attending school:** None
- **Walking time to the nearest education facility:** None

### Mobility

- **Do people want to return to their place of Origin?** No
- **Main reason preventing people from returning:** House damaged/destructed
- **Expected period of displacement:** More than 3 months

### Health

- **Availability of healthcare services on site:** None
- **Number of functioning healthcare facilities:** None
- **Do people have access to healthcare services:** None
- **Time to reach the nearest health facility:** None
- **Availability of medicines for majority of the population:** Do not know/ No answer
- **During their pregnancy, are most women seeing a health professional?** Yes
- **Patients with Tuberculosis know where to go to seek treatment and care?** Yes

### Protection

- **Is there security provider/mechanism that ensure safety of persons at the location?** Yes
- **Is there a mechanism for referral for GBV survivors?** No
- **Is there a support mechanism for psychosocial needs of the population?** No

## Site Details

- **Province:** Sofala  
- **District:** Buzi  
- **Post:** Estaquinha

## Vulnerabilities

### First need: Food
- Pregnant women: 20
- Breastfeeding mothers: 61
- Mental/Physical disability: 13
- Chronic diseases: 205

### Second need: Shelter
- Single female head of household: 84
- Single male head of household: 4
- Child head of household: 5

### Third need: Water
- Male

## NFI Needs

### Top one NFI need not accessible to IDPs:
- None

### Top two NFI need not accessible to IDPs:
- None

### Top three NFI need not accessible to IDPs:
- None

## Shelters

- **Top one NFI need not accessible to IDPs:** None
- **Top two NFI need not accessible to IDPs:** None
- **Top three NFI need not accessible to IDPs:** None

## Food

- **Do most people have access to functioning market:** Yes
- **Have people received food from a distribution at site:** Yes
- **When was the latest food distribution at this site:** Permanently
- **% of household that received the recent food distribution:** 100%

## Education

- **Does the majority of the school age children have access to a functioning school:** Yes
- **Top reason preventing most school age children from accessing education facilities:** None
- **Percentage of school age children attending school:** 100%
- **Walking time to the nearest education facility:** 16 - 30 minutes

## Mobility

- **Do people want to return to their place of Origin:** No
- **Main reason preventing people from returning:** House damaged/destroyed

## Health

- **Availability of healthcare services on site:** No
- **Number of functioning healthcare facilities:** None
- **Do people have access to healthcare services:** None
- **Time to reach the nearest health facility:** None

## Protection

- **Is there a Site Management Committee at the site:** Yes
- **Is there a Site Management Agency at the site:** Yes
- **Name of Site Management Agency:** INGC
- **Is there a Site Opening Date:** Yes
- **Is there a service provider contact list:** None
- **Is the site physically accessible:** Yes
- **Site Status:** Open
- **Is the site safe and secure:** Yes

## WASH

- **Main source of drinking water:** Solid/Dirt
- **Main problem with water:** None
- **Number of functioning latrines at site:** 0
- **Is there functional bathing space at site:** No
- **Is there hand washing stations with water and soap close to latrines/bathing space:** None
- **How clean you think the site is in terms of waste:** Clean
- **Do people live in areas where open defecation is frequently visible:** No

18 - 59 | 205 | 20% | 18%
60+ | 42 | 5% | 4%

Site type: Planned camps

Site Opening Date: 2019-03-17

Province: Manica

District: Sussundenga

Post: Dombe

Locality: Is the site physically accessible? Limited access (by foot only or only by post). Site Status: Open

Is the site safe and secure? Yes

Site Location: -19.98368, 33.39365

Name of Site Management Agency: CARITAS

Site Management Committee at the site: Yes

Site Management Agency at the site: Yes

% Male | % Female
---|---
58% | 42%

Households

270

1,140 Individuals

First need: Food
Second need: Shelter
Third need: Water

Pregnant women: 19
Breastfeeding mothers: 15
Mental/Physical disability: 22
Chronic diseases: 40

Elderly without care givers: 35
Single female head of household: 31
Single male headed of household: 30
Child head of household: 20

Food

Do most people have access to functioning market? No

Why don't most people have access to market? Market is not functioning

Have most people received food from a distribution at site? Yes

When was the latest food distribution at this site? More than 3 months

% of household that received the recent food distribution 50%

Shelter

Top one NFI need not accessible to IDPs: Closed containers to transport and/or store water

Top two NFI need not accessible to IDPs: Shoes and clothes

Main source of drinking water: Lagoons and waterways

Wash

Main problem with water: Shortage for human consumption

HEALTH

Availability of healthcare services on site: No

Availability of medicines for majority of the population: No

EDUCATION

Does the majority of the school age children have access to a functioning school? Yes

Top reason preventing most school age children from accessing education facilities: None

Percentage of school age children attending school: 75%

Walking time to the nearest education facility: 31 - 60 minutes

Protection

Is there a mechanism for referral for GBV survivors? No

Is there a support mechanism for psychosocial needs of the population? No

- **Third need:** Health

#### VULNERABILITIES

- **First vulnerable group:** Pregnant women
  - **Number:** 0
- **Second vulnerable group:** Elderly without care givers
  - **Number:** 0
- **Third vulnerable group:** Elderly head of household
  - **Number:** 0

### SHELTER

- **Shoes and clothes:** None
- **Items for sleeping:** None
- **Hygiene products:** None

### FOOD

- **Do most people have access to functioning market?** No
- **Market is not functioning?** Yes
- **Have people received food from a distribution at site?** Yes
- **When was the latest food distribution at this site?** More than 3 months
- **% of household that received the recent food distribution?** 39%

### EDUCATION

- **Does the majority of the school age children have access to a functioning school?** No
- **Walking time to the nearest education facility:** None

### MOBILITY

- **Do people want to return to their place of Origin?** No
- **Main reason preventing people from returning:** House damaged/destroyed
- **Expected period of displacement:** More than 3 months
- **Province of Origin:** Manica
- **District of Origin:** Sussundenga
- **Post of Origin:** Dombe
- **Locality of Origin:** Matacara

### WASH

- **Main source of drinking water:** None
- **Main problem with water:** None
- **Number of functional latrines at site:** 100
- **Is there functional bathing space at site?** Yes
- **Is there hand washing stations with water and soap close to latrines/bathing space?** Yes, but without water
- **How clean you think the site is in terms of waste?** Clean
- **Have hygiene promotion sessions been conducted?** Yes
- **Do people live in areas where open defecation is frequently visible?** No

### HEALTH

- **Availability of healthcare services on site:** No
- **Do people have access to healthcare services?** None
- **Time to reach the nearest health facility:** None
- **Availability of medicines for majority of the population:** No
- **During their pregnancy, are most women seeing a health professional?** No
- **Patients with Tuberculosis know where to go to seek treatment and care?** No

### PROTECTION

- **Is there security provider/mechanism that ensure safety of persons at the location?** Yes
- **Is there a mechanism for referral for GBV survivors?** No
- **Is there a support mechanism for psychosocial needs of the population?** No

#### TOP NEEDS

### Food

**Availability of healthcare services on site:** No
**Number of functioning healthcare facilities:** None
**Do people have access to healthcare services:** None
**Time to reach the nearest health facility:** None
**Availability of medicines for majority of the population:** No

### Education

- Does the majority of the school age children have access to a functioning school? Yes
- Top reason preventing most school age children from accessing education facilities: None
- Percentage of school age children attending school: 100%
- Walking time to the nearest education facility: Less than 15 minutes

### Mobility

- Do people want to return to their place of Origin? No
- Main reason preventing people from returning: None
- Expected period of displacement: More than 3 months

### Health

**Availability of healthcare services on site:** No
**Number of functioning healthcare facilities:** None
**Do people have access to healthcare services:** None
**Time to reach the nearest health facility:** None
**Availability of medicines for majority of the population:** No

### Protection

- Is there a security provider/mechanism that ensure safety of persons at the location? No
- Is there a mechanism for referral for GBV survivors? No
- Is there a support mechanism for psychosocial needs of the population? No

The information included in this report was collected from 2019-05-24 to 2019-05-27. To access information on IDP population in displacements sites as of today, kindly consult IOM Displacement Movement Tracking – Daily Update.

### Households

27 Individuals

### Vulnerabilities

- Pregnant women: 1
- Elderly without care givers: 1
- Elderly head of household: 0
- Single female head of household: 1
- Single male headed of household: 0
- Child head of household: 1

### SHELTER

- Items for sleeping
- Cooking items
- Hygiene products

### FOOD

- Do most people have access to functioning market: Yes
- Why don’t people have access to market: None
- Have people received food from a distribution at site: Yes
- When was the latest food distribution at this site: More than 3 months
- % of household that received the recent food distribution: 100%

### EDUCATION

- Does the majority of the school age children have access to a functioning school?: Yes
- Top reason preventing most school age children from accessing education facilities: None
- Percentage of school age children attending school: 100%
- Walking time to the nearest education facility: Less than 15 minutes

### MOBILITY

- Do people want to return to their place of Origin?: Do not know/No answer
- Main reason preventing people from returning: None
- Expected period of displacement: More than 3 months
- Province of Origin: Zambezia
- District of Origin: Namacurra
- Post of Origin: Macuze
- Locality of Origin: Furquia

### HEALTH

- Availability of healthcare services on site: No
- Number of functioning healthcare facilities: None
- Do people have access to healthcare services: None
- Time to reach the nearest health facility: None
- Availability of medicines for majority of the population: No
- During their pregnancy, are most women seeing a health professional: Yes
- Patients with Tuberculosis know where to go to seek treatment and care: Yes

### PROTECTION

- Is there security provider/machinery that ensure safety of persons at the location: No
- Is there a mechanism for referral for GBV survivors: No
- Is there a support mechanism for psychosocial needs of the population: No

### WASH

- Main source of drinking water: Hand pumps
- Main problem with water: Flavour/Taste
- Number of functional latrines at site: 6
- Is there functional bathing space at site: Yes
- Is there hand washing stations with water and soap close to latrines/bathing space: None
- How clean you think the site is in terms of waste: More or less clean
- Have hygiene promotion sessions been conducted: No
- Do people live in areas where open defecation is frequently visible: No

### Vulnerabilities

#### Need

- **First need:** Water
- **Second need:** Health
- **Third need:** Education

#### SHELTER

- Top one NFI need not accessible to IDPs: None
- Top two NFI need not accessible to IDPs: None
- Top three NFI need not accessible to IDPs: None
- Percentage of Household living outdoors: 0%
- Percentage of Household living in emergency shelter: 100%
- Percentage of Household living in permanent shelter: 0%
- Items for sleeping: None

#### FOOD

- Do most people have access to functioning market: Yes
- Why don’t people have access to market?:
- Have people received food from a distribution at site?: Yes
- When was the latest food distribution at this site?: More than 3 months
- % of household that received the recent food distribution: 0%

#### EDUCATION

- Does the majority of the school age children have access to a functioning school?: Yes
- Top reason preventing most school age children from accessing education facilities: None
- Percentage of school age children attending school: 75%
- Walking time to the nearest education facility: More than 60 minutes

#### MOBILITY

- Do people want to return to their place of Origin?: No
- Main reason preventing people from returning: Basic infrastructures damaged/flooded
- Expected period of displacement: More than 3 months
  - Province of Origin: Sofala
  - District of Origin: Buzi
  - Post of Origin: Buzi
  - Locality of Origin: Guara Guara

#### PROTECTION

- Is there security provider/mechanism that ensure safety of persons at the location?: No
- Is there a mechanism for referral for GBV survivors?: No
- Is there a support mechanism for psychosocial needs of the population?: No

#### Health

- Main source of drinking water: Open well
- Main problem with water: Long waiting time (queues)
- Number of functional latrines at site: 2
- Is there functional bathing space at site?: Yes
- Is there hand washing stations with water and soap close to latrines/bathing space?: None
- How clean you think the site is in terms of waste?: Clean
- Have hygiene promotion sessions been conducted?: Yes, but more than two weeks
- Do people live in areas where open defecation is frequently visible?: Yes

#### WASH

- Availability of healthcare services on site: Yes
- Number of functioning healthcare facilities: 0
- Do people have access to healthcare services: Yes
- Time to reach the nearest health facility: 31 - 60 minutes
- Availability of medicines for majority of the population: Yes, of good quality and people can afford them
- During their pregnancy, are most women seeing a health professional?: Yes
- Patients with Tuberculosis know where to go to seek treatment and care?: Yes

Is there a Site Management Committee at the site? No
Is there a Site Management Agency at the site? No
Is there a service provider contact list? None
Is the site physically accessible? Yes
Site Status: Open
Is the site safe and secure? Yes

Households 161

Individuals 904

First need: Food
Second need: Water
Third need: Household Items (NFI)

Food

Pregnant women: 2
Breastfeeding mothers: 10
Mental/Physical disability: 3
Chronic diseases: 0

Main source of drinking water: Tanks
Main problem with water: None
Number of functional latrines at site: 9
Is there a functional bathing space at site? No
Is there hand washing stations with water and soap close to latrines/bathing space? Yes

How clean you think the site is in terms of waste? Very clean

EDUCATION

Percentage of school age children attending school: 100%
Walking time to the nearest education facility: 16 - 30 minutes

Does the majority of the school age children have access to a functioning school? Yes
Top reason preventing most school age children from accessing education facilities: None
Percentage of school age children attending school: 100%
Walking time to the nearest education facility: 16 - 30 minutes

Does most people have access to functioning market No
WASH

Availability of healthcare services on site: Yes
Number of functioning healthcare facilities: 1
Do people have access to healthcare services: Yes
Time to reach the nearest health facility: Less than 15 minutes

Availability of medicines for majority of the population: Do not know/ No answer
During their pregnancy, are most women seeing a health professional? Yes
Patients with Tuberculosis know where to go to seek treatment and care? Yes

PROTECTION

Is there security provider/mechanism that ensure safety of persons at the location? No
Is there a mechanism for referral for GBV survivors? No
Is there a support mechanism for psychosocial needs of the population? Yes

Is there a Site Management Committee at the site? Unknown
Is there a Site Management Agency at the site? Yes
Is there a service provider contact list? None
Is the site physically accessible? Yes
Site Status: Open
Is the site safe and secure? Yes

Households

159 Individuals

First need: Food
Pregnant women: 13
Breastfeeding mothers: 0
Mental/Physical disability: 2

Second need: Education
Breastfeeding mothers: 0
Mental/Physical disability: 2

Third need: Agriculture input
Mental/Physical disability: 2

Chronic diseases: 2

Top three NFI need not accessible to IDPs:
Hygiene products
Shortage for human consumption

Main source of drinking water: Protected well
Main problem with water: Shortage for human consumption
Number of functional latrines at site: 159
Is there functional bathing space at site? No
Is there hand washing stations with water and soap close to latrines/bathing space? Yes

How clean you think the site is in terms of waste? Clean
Have hygiene promotion sessions been conducted? Yes, but more than two weeks
Do people live in areas where open defecation is frequently visible? Unknown

Availability of healthcare services on site: No
Number of functioning healthcare facilities: None
Do people have access to healthcare services: None
Time to reach the nearest health facility: None

Availability of medicines for majority of the population: No
During their pregnancy, are most women seeing a health professional? Yes
Patients with Tuberculosis know where to go to seek treatment and care? Yes

Is there security provider/mechanism that ensure safety of persons at the location? No
Is there a mechanism for referral for GBV survivors? No
Is there a support mechanism for psychosocial needs of the population? No

53

Individuals
272

NEED

First need: Food
Second need: Shelter
Third need: Health

VULNERABILITIES

Pregnant women: 13
Elderly without care givers: 0
Elderly head of household: 2
Breastfeeding mothers: 6
Single female head of household: 0
Single male headed of household: 0
Mental/Physical disability: 4
Child head of household: 0

SHELTER

Shoes and clothes
Cooking items
Hygiene products

Top one NFI need not accessible to IDPs:

Shoes clothes

Top two NFI need not accessible to IDPs:

Cooking items

Top three NFI need not accessible to IDPs:

Hygiene products

Percentage of Household living outdoors: 0%
Percentage of Household living in emergency shelter: 100%
Percentage of Household living in permanent shelter: 0%

FOOD

Do most people have access to functioning market
No

Why people don't have access to market?
Market is not physically accessible

Have people received food from a distribution at site?
Yes

When was the latest food distribution at this site?
More than 3 months

% of household that received the recent food distribution
100%

EDUCATION

Does the majority of the school age children have access to a functioning school?
Yes

Top reason preventing most school age children from accessing education facilities:
None

Percentage of school age children attending school: 75%

Walking time to the nearest education facility: 31 - 60 minutes

MOBILITY

Do people want to return to their place of Origin?
No

Main reason preventing people from returning:
Basic infrastructures damaged/flooded

Expected period of displacement:
More than 3 months

PROTECTION

Is there security provider/mechanism that ensure safety of persons at the location?
No

Is there a mechanism for referral for GBV survivors?
No

Is there a support mechanism for psychosocial needs of the population?
No

SHELTER

Main source of drinking water:
Hand pumps

Main problem with water:
None

Number of functional latrines at site:
4

Is there functional bathing space at site?
Yes

Is there hand washing stations with water and soap close to latrines/bathing space?
Yes

How clean you think the site is in terms of waste?
More or less clean

Do people live in areas where open defecation is frequently visible?
No

WASH

Availability of healthcare services on site:
No

Number of functioning healthcare facilities:
None

Do people have access to healthcare services:
None

Time to reach the nearest health facility:
None

HEALTH

Availability of medicines for majority of the population:
Yes, but not good quality

During their pregnancy, are most women seeing a health professional?
No

Patients with Tuberculosis know where to go to seek treatment and care?
Yes
Survey Date: 2019-05-31
