The International Organization for Migration (IOM) Displacement Tracking Matrix (DTM) monitors key migrant arrival and Yemen return locations on Yemen’s northern border with the Kingdom of Saudi Arabia (KSA) and southern coastal border. Enumerators placed at Flow Monitoring Points (FMPs) record arrivals of migrants and Yemeni nationals’ returns in order to identify different patterns and types of migration, including quantitative estimates to help define the population of irregular migrants entering the country. Access constraints limit the ability to collect data at some migrant arrival points. IOM estimates that 31,617 migrants entered Yemen in addition to 13,313 Yemeni returns from neighboring countries during January to June 2020. This represents a decrease of about 63% compared to the same period in the last year 2019.

**JANUARY - JUNE 2020 MIGRANT ARRIVALS:**

- **31,617**

**Migrant Arrivals by Nationality**

- **22,835** Ethiopians
- **4,943** Somalis
- **3,025** Yemenis
- **814** Girls

**Vulnerabilities**

- Unaccompanied children
- Children less than 5 years of age
- Pregnant or lactating

**Sex & Age Groups**

- Men 72%
- Women 16%
- Boys 10%
- Girls 3%

**Tajamo Sharj**

- **1,127**
- **1,151** Somalis
- **3,664** Girls

- **1,131**
- **453** Boys
- **31** Girls

**Somalia**

- **2,100**
- **3,564** Boys
- **330** Girls

**Ethiopia**

- **2,881**
- **4,943** Boys
- **218** Girls

**Somali**

- **2,881**
- **4,943** Girls
- **218** Boys

**Vulnerabilities**

- Unaccompanied children
- Children less than 5 years of age
- Pregnant or lactating

**JANUARY - JUNE 2020 YEMENI RETURNS FROM KSA AND DJIBOUTI:**

- **13,313**

**Migrants by Country of Intended Destination**

- **30,486** Saudi Arabia 96%
- **1,131** Yemen 4%

**Migrants by Country of Departure**

- **21,505** Somalia 68%
- **10,112** Djibouti 32%

**Vulnerabilities**

- Unaccompanied children
- Children less than 5 years of age
- Pregnant or lactating

**Sex & Age Groups**

- Men 93%
- Women 3%
- Boys 10%
- Girls 7%
