**Displacement Tracking**

DTM’s Rapid Displacement Tracking (RDT) tool collects and reports on numbers of households forced to flee on a daily basis, allowing for regular reporting of new displacements in terms of numbers, geography, and needs. In the first nine months of 2019, conflict has resulted in new patterns of displacement, particularly in within Hajjah, Al Hudaydah, Al Dhale'e, Taizz governorates.

**Limitations:** DTM Yemen is unable to report on figures in some governorates due to access limitations.
