

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0090	confidential	Select One	alert - unusual number of human deaths	Recommended by Cluster/WG/AoR

Question Text

Has there been an unusual number of deaths in the last [period since the last assessment by DTM, e.g., month]?

Response Options

yes; no; Do not know/no answer

Preconditions for Data Collection

Recommended Source of information

agree with Health cluster how to share this information (urgent action)	Member of Residents Committee/Healthcare Worker/Site Management
---	---

Example of Visualisation

Example of Descriptive Analysis

	No descriptive analysis, just data shared with Health Cluster. This info should not be publicly shared, but should be considered for identification of red flags by the Health Cluster. It should be given to Health Cluster. Health Cluster analysis may be made public, in agreement between Health Cluster and DTM.
--	--

Example of Use that can be done by Data Users (eg, CWG, Cluster)

Health Cluster should consider positive answers with the replies to "comments to unusual deaths". Analysis could trigger sectoral assessments. Health cluster may want to share relevant results with Nutrition /WASH cluster

Dataset of Interest for:

							Health

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0091	confidential		context to interpret number of deaths	Recommended by Cluster/WG/AoR

Question Text

Comments on the unusual number of deaths (e.g., attack/violence, unknown reasons, signs...)

Response Options

[text]

Preconditions for Data Collection

Recommended Source of information

agree with Health cluster how to share this information (urgent action)

Member of Residents Committee/Healthcare Worker/Site Management

Example of Visualisation

Example of Descriptive Analysis

No descriptive analysis, just data shared with Health Cluster. This info should not be publicly shared, but should be considered for identification of red flags by the Health Cluster. It should be given to Health Cluster together with list of sites that answered 'yes' to unusual number of deaths. Health Cluster analysis may be made public, in agreement between Health Cluster and DTM.

Example of Use that can be done by Data Users (eg, CWG, Cluster)

comments should help Health experts identify locations of further assessment, cross referencing with results of question on unusual number of deaths

Dataset of Interest for:

Dataset of Interest for:

							Health

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0094	Public	Select One	Distance to Health Facility	Recommended by Cluster/WG/AoR

Question Text

How long does it take to reach the nearest health facility from the location?

Response Options

Up to 30 min; more than 30 min; there is no reachable health facility; do not know/no answer

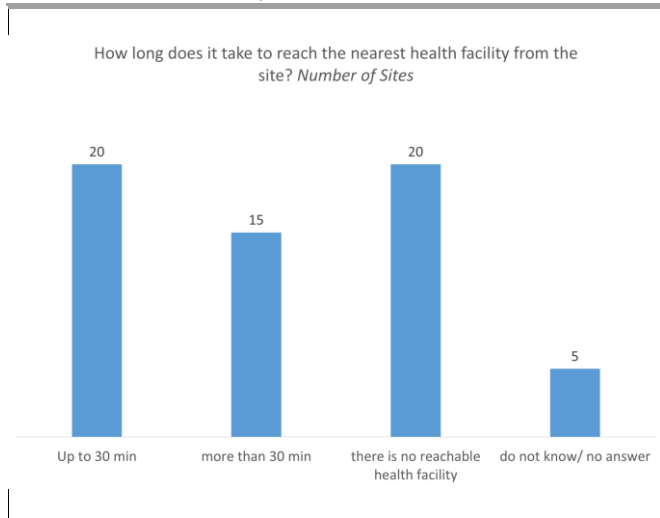

Preconditions for Data Collection

Recommended Source of information

	Member of Residents Committee/Healthcare Worker/Site Management
--	---

Example of Visualisation

Example of Descriptive Analysis

according to key informants, population of xx sites walks for more than 30 min to reach health facilities, while population of xx sites walks for less than 30 min. Population in xx sites cannot reach a health facility.

Example of Use that can be done by Data Users (eg, CWG, Cluster)

Use access to health facility to prioritize sites for health partners. Spacial analysis could be done to identify regions where access to health facilities is difficult, using known locations of health facilities from other sources.

Dataset of Interest for:

		CCCM	Child Protection				Health
		Nutrition					

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0095	Public	Select up to 3	obstacles to accessing health	Recommended by Cluster/WG/AoR

Question Text

What is preventing most people from accessing healthcare services?

Response Options

Nothing is preventing people; Discrimination; No medicines available in healthcare centre; There are no reachable health services; People do not have the right documents; Cost/money; Health service are only accessible during part of the day or some days per week; No healthcare personnel available in the healthcare centre; Way to reach healthcare services is not safe; Lack of transportation to healthcare services; Healthcare services are not working; Other; Do not know/ no answer

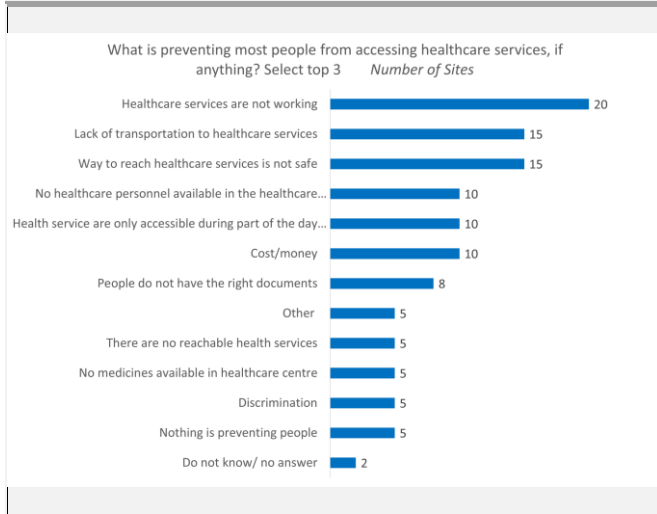

Preconditions for Data Collection

Recommended Source of information

Woman Member of Residents Committee/Healthcare Worker/Site Management

Example of Visualisation

Example of Descriptive Analysis

"According to key informants, access to healthcare services by site population is prevented by: Discrimination (in xx sites); No medicines available in healthcare centre (in xx sites); There are no reachable health services (in xx sites) People do not have the right documents (in xx sites); Cost/money (in xx sites); Health service are only accessible during part of the day or some days per week (in xx sites); No healthcare personnel available in the healthcare centre (in xx sites); Way to reach healthcare services is not safe (in xx sites); Lack of transportation to healthcare services (in xx sites); Healthcare services are not working (in xx sites); In (in xx sites) nothing is preventing people from accessing healthcare."

Example of Use that can be done by Data Users (eg, CWG, Cluster)

Use access to health facility to prioritize sites for health partners. Spatial analysis could be done to identify regions where access to health facilities is difficult, using known locations of health facilities from other sources.

		CCCM	Child Protection			GBV	
		Nutrition	Protection				

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0098	Public	Select One	Female healthcare workers presence	Recommended by Cluster/WG/AoR

Question Text

Are female healthcare workers available at the health facility (e.g., doctors, nurses, midwives, community health workers...)?

Response Options

Yes; no; only sometimes/part of the time; do not know/ no answer

Preconditions for Data Collection

Recommended Source of information

	woman Member of Residents Committee/Healthcare Worker/Site Management
--	---

Example of Visualisation

Example of Descriptive Analysis

Are female healthcare workers available at the health facility?
Number of Sites

Response Option	Number of Sites
yes	10
no	15
only sometimes/part of the time	20
do not know/no answer	5

According to key informants, in xx sites female healthcare workers are not available at health facilities, while in another xx they are only available sometime/for part of the time. IN xx sites, they are available.

Example of Use that can be done by Data Users (eg, CWG, Cluster)

Can be used to prioritise sites for sectoral assessments/interventions

Dataset of Interest for:

		CCCM	Child Protection			GBV	Health
			Protection				

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0099	Public	Select One	women giving birth out of healthcare centre	Recommended by Cluster/WG/AoR

Question Text

Where do women give birth?

Response Options

At home; at health facility; do not know/ no answer

Preconditions for Data Collection

Recommended Source of information

woman Member of Residents Committee/Healthcare Worker/Site Management

Example of Visualisation

Example of Descriptive Analysis

Where do women give birth? Number of Sites

■ At home ■ At health facility ■ Do not know/ no answer

According to key informants, in xx sites women give birth at home, and in xx at health facility. No information was reported for xx sites.

Example of Use that can be done by Data Users (eg, CWG, Cluster)

prioritise sites sectoral assessments for a possible information campaign, identify channels for information on nutrition

Dataset of Interest for:

		CCCM	Child Protection			GBV	Health
		Nutrition					

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0100	Public	Select One	women with medical support during pregnancy	Recommended by Cluster/WG/AoR

Question Text

Are most women seeing a health professional during their pregnancy?

Response Options

yes; no; Do not know/no answer

Preconditions for Data Collection

Recommended Source of information

	woman Member of Residents Committee/Healthcare Worker/Site Management
--	---

Example of Visualisation

Example of Descriptive Analysis

Are most women seeing a health professional during their pregnancy?
Number of Sites

Response	Number of Sites
yes	10
no	10
do not know/no answer	2

■ yes ■ no ■ do not know/no answer

According to key informants, inxx sites women do not see a health professional during their pregnancy, while in xx they do. No information was reported for xx sites.

Example of Use that can be done by Data Users (eg, CWG, Cluster)

prioritise sites sectoral assessments for a possible information campaign, identify channels for information on nutrition

Dataset of Interest for:

		CCCM				GBV	Health
		Nutrition					

Unique ID	Dissemination Category	Instructions for the Form	Information Need	Type of Question
M0101	Public	select all that apply	availability and access to medicines	Recommended by Cluster/WG/AoR

Question Text

Are medicines normally available on the market?

Response Options

Yes, of good quality and people can afford them; yes but not good quality; yes but people cannot afford them; no; do not know/ no answer

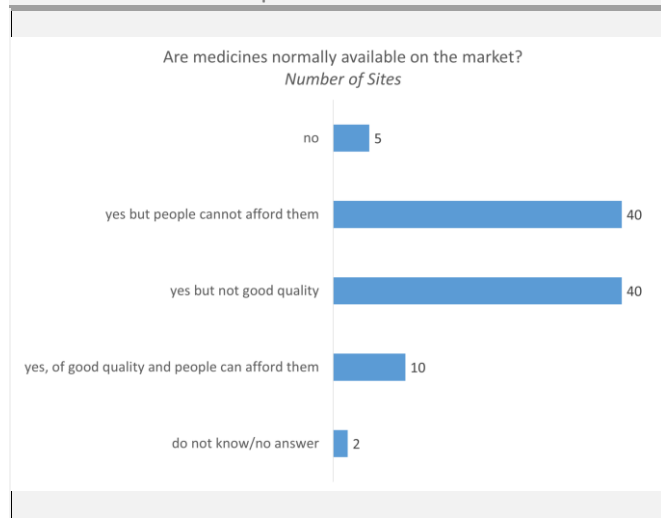

Preconditions for Data Collection

Recommended Source of information

member of Residents Committee/Healthcare Worker/Site Management

Example of Visualisation

Example of Descriptive Analysis

According to key informants, in xx sites medicines are available on the market and accessible, however in xx sites, there are obstacles to accessing them (cost or bad quality). In xx sites, medicines are not available on the market.

Example of Use that can be done by Data Users (eg, CWG, Cluster)
